

**Southwick-Tolland-Granville Regional School District  
Strategic Plan  
2020-2023**

**Vision (future)**

The Southwick-Tolland-Granville Regional School District (STGRSD) will prepare students to persevere, adapt and thrive in an ever-changing world as both independent thinkers and scholars.

*Preparing students to persevere, adapt and thrive in an ever-changing world*

**Mission (now)**

The Southwick-Tolland-Granville Regional School community fosters a culture where all students learn the skills and dispositions to adapt and thrive in an ever-changing world. The STGRSD community, including students, parents and staff, is compassionate, respectful, and responsible. We act with the highest integrity and take initiative for continuously learning throughout our lives.

**Core Values**

- *Scholarship:* We believe in seeking knowledge for knowledge’s sake. We strive to learn new things every day. We reflect on the sources of our academic successes and failures, and persevere when learning becomes difficult.
- *Respect:* We believe in the inherent dignity of all people, celebrate individuality, value diversity and honor ourselves and others through our words and actions.
- *Responsibility:* We take ownership of our behavior and learning, have the courage to think and act independently, demonstrate problem-solving skills, and strive to always be reliable and trustworthy.
- *Integrity:* We demonstrate strong moral character through honesty, fairness, and working diligently to fulfill commitments.
- *Compassion:* We practice empathy for others, develop the capacity to forgive, and promote a peaceful, caring and safe community.

**Theory of Action**

If the administrative team promotes a common vision of high-quality, student-centered instruction and support teachers in implementation of this vision... Then teachers will foster meaningful student engagement, depth of knowledge and social emotional growth with a common understanding of best practices... So that students will take responsibility for their learning, evaluate progress toward personal goals, and have the intellectual social and emotional skills to be productive members of community.

**Strategic Objectives**

| With teachers as coaches, all students will have opportunities every day to engage in high-quality, student-centered learning experiences that have a clear purpose, challenge them to interact with the curriculum in a deep and thoughtful manner, and engage them in authentic tasks that require creativity and flexible thinking. | Administrators and teachers share the responsibility for the learning of all students and adults in our district. Through the creation of a shared vision, calibration of understanding, reflection on current practices, and engagement in inquiry-based decision making, we will improve school culture and student achievement. | Over the next four years, the District will move to a 1:1 student to device in grades 3-12 to be more in line with 21 <sup>st</sup> Century learning which includes skills such as collaborating, communicating, informational literacy, critical thinking, media literacy and self- directed learning. | Teachers will work collaboratively to provide all students the same opportunity to learn a rigorous curriculum built around common standards with differentiated resources and instruction, clear learning expectations for each grade or course, and tangible exemplars of student proficiency for each learning expectation. |
