Subject: Thank you STGRSD District Safety Team

Greetings Superintendent Willard, Administrative Assistant McLaughlin, Sgt. Taggart & SRO Sanders-

1) I hope all is well & I wanted to say thank you to you all for your assistance and support over the years. I have been assigned to assist with school safety and with emergency planning endeavors matters in communities throughout WMass for the past 16 years along with my other assignments. [REDACTED]

2) It was an honor and an absolute pleasure to be invited in to assist the STGRSD & SPD with this endeavor to help keep everyone involved safe. As a collective group with the schools and the involved emergency planning partners, we have accomplished many things together to help foster and ensure a safe learning environment for all the students and staff. We have cooperatively conducted trainings, drills and attended meetings to share knowledge and experiences on: Enhanced Lock Downs, Shelter-in-Place, Evacuation, Reunification, Stop the Bleed and on developing Crisis Teams to name a few shared achievements for all to be aligned with this very valuable endeavor. It was a very collaborative process with many staff from the school district involved under the very dedicated and knowledgeable leadership of Superintendent Jennifer Willard. I would also specifically like to recognize the talents and efforts of Sgt. Michael Taggart SPD, who initially lead and organized the District Safety Team with all the involved planning partners, in both calm and stormy waters, with achieving it's goals to much success as well as the efforts of Administrative Assistant Amy McLaughlin and SRO Kyle Sanders SPD for all their tireless hard work, both out in front of this effort as well as behind the scenes, to help keep this endeavor moving forward.

3) We have also collaboratively addressed a number of school-based threats, crises, and safety concerns over the years in an extremely effective and efficient manner. We have further been unified in our interactions and messaging during stressful times to reassure families and communities that our schools are safe places to learn and work. Through your

diligent efforts, we have also utilized a synergistic approach to enhance a number of school building safety and security infrastructure initiatives and have continually updated the emergency plans as we progressed. As you well know, we further invited several neighboring school districts up to STGRSD trainings and drills to share the knowledge gleaned through this collective effort with others to be able to enhance their own planning efforts.

4) I feel fortunate and blessed to have had this opportunity over the years to have been able to serve you and the Commonwealth in this role and have thoroughly enjoyed the experience. Some of the fondest memories of my career thus far are from interacting with you, the staff and students as well as with the involved emergency planning partners at various school-related events throughout the years.

5) You all are in very good hands with each other, and with the emergency planning partners from your community, who I highly encourage you to continue to collaborate with. Your unified networks with all the associated disciplines and your combined efforts are the strength and backbone of the safety plans.

6) I also wanted to again provide the following MSP contact emails for some additional resources and assistance if you need them:

7) My work email will remain the same and please reach out to me over the next week or so if you have any questions or would like me to review any matters. I still hope to see many of you at local community, school, and sports events throughout the area. I wish you all the best and please pass my well-wishes onto everyone involved with this endeavor!

Thank you & Best regards,

Andy

Dear Superintendent Willard and School Committee Members,

The Health Advisory Committee met quarterly throughout the school year via Zoom. In our November meeting, we reviewed the School District Wellness Program policy and set goals related to our students' and faculty's health and well-being. In subsequent meetings, we reviewed our progress toward these goals. Attached please find the 2021-2022 annual progress report for your review.

Respectfully Submitted,

**Southwick-Tolland-Granville Regional School District School Wellness
2021-2022 Annual Progress Report**

I. Wellness Policy Implementation, Monitoring, Accountability and Community Engagement

Goal/Objective: At least once every three years, the district will evaluate compliance, strength of policy, and progress toward wellness goals.

Needs Assessment: The STGRSD Health Advisory Committee currently does not have any representatives from community youth-serving agencies.

Improvement Plan: District administrators will search out community youth-serving agencies and invite members to serve on the district committee by the end of the school year.

Progress toward Goal: The following community youth-serving agencies will be invited to participate in quarterly Health Advisory Meetings beginning in the 2022-2023 school year:

- Boys and Girls Club
- Southwick Recreation Center
- Youth Villages (mental health needs)
- The Carson Center- Christine Sanforth
- Care Solace
- Pathways for Parents
- Southwick, Granville Library staff

II. Nutrition

Goal/Objective: The district aims to teach, model, encourage, and support healthy eating to help all students develop healthy lifestyle practices.

Needs Assessment: Participation in the free breakfast/lunch program has been limited.

Improvement Plan: The STGSRD Food Service Director will work to increase free breakfast/lunch participation.

Progress toward Goal: The School Nutrition Department held a promotion during national school breakfast week where they raffled off two bikes at Woodland and Powder Mill and two gift cards at SRS. Participation in school breakfast and lunch was up 50% that week. Free meals continue for all students. Breakfast participation is up 300% and lunch participation is up 150% over pre-COVID participation.

Free meal waivers expire June 30, 2022. The house passed a budget resolution for universal free meals which, if approved by the state senate, will go into effect over the summer and students will continue to eat for free next school year.

SRS conducted a survey of 270 respondents to determine who would be interested in continuing to purchase school meals if the waiver is not extended. Around 55% of respondents indicated that they plan to continue purchasing school meals next year if they are no longer free.

Need to restart using point of sale system again; will be using scan cards instead of PINs. Limited choice speeds up service.

III. Physical Activity

Goal/Objective: To provide students with opportunities for quality physical education and daily physical activity before, during and after school in order to learn the understanding and benefits of the short and long-term benefits of a physically active and healthy lifestyle.

Needs Assessment: Students have increased their activity level during the school day by allowing students to walk around the school buildings on mask breaks. When mask mandates are lifted, there is a worry about this time being reallocated to time on learning.

Improvement Plan: School principals will work with their staff to provide opportunities to walk outside throughout the school day and to continue to utilize outdoor spaces for learning.

Progress toward Goal: Students continue to enjoy movement breaks throughout the day between recesses, walks outside and in the hall, sensory paths at Woodland and PMS, and walks around the outside of the school at SRS. PMS is converting health class to a health and wellness class that will include a focus on personal fitness and movement.

ESSER III building improvements to facilitate use of outdoor spaces: additional key-card entries, intercom systems

IV. Other Activities that Promote Student Wellness

Goal/Objective: The district will coordinate and encourage initiatives and school-based activities that are designed to promote student well-being, optimal development, strong educational outcomes and staff health and wellness.

Needs Assessment: Student's social and emotional well-being and self-regulation have been disrupted by the COVID-19 pandemic.

Improvement Plan: School leaders will promote the district #Rams Belong initiative to ensure that all students feel a sense of belonging and have a trusted adult they have a connection with.

Progress Monitoring: Progress will be monitored quarterly at each subsequent Health Advisory meeting; building principals will report on each indicator at the beginning of each meeting.

Progress toward Goal: Powder Mill Rocks and Woodland Cares promote the school community and self-regulation in addition to weekly classroom SEL lessons, small groups/lunch bunches to reestablish social skills, skill specific groups, Zones of Regulation, and Second Step. A social emotional teacher was added at Woodland this school year and a position has been added for PMS for next school year.

#RamsBelong- The principals at Woodland and Powder Mill conducted classroom read-alouds on belonging, and have created bulletin board themes that promote belonging. The students are internalizing inclusive behaviors. A track officiate sent an email to the SRS principal and the superintendent commending the baseball team who took the time to cheer for students at a unified track meet to the delight of the unified track team and their parents. Kim has been leading Woodland school in morning affirmations at the beginning of the day to center students on positive thoughts and emotions.

ANIMALS IN SCHOOL

Animals may only be brought to school in accordance with District policy IMG Animals in Schools. A copy of that policy is available in the District policy manual on the website: www.stgrsd.org. Pets should not be brought to school during dismissal and or drop-off.

ATTENDANCE INFORMATION

Massachusetts's law requires that schools be in session 180 days per year. In accordance with the General Laws of the State of Massachusetts, Chapter 76, Section 1, every child between the minimum ages as established by the Board of Education shall attend a public day school or some other school approved by the school committee for the number of days as required by the Board of Education. Also, Chapter 76, Section 2 states that: Every person having control of a child shall ensure their attendance for the number of days as required by the Board of Education.

The above provisions clearly specify that a student must attend school every day that school is in session unless the student has a legitimate excused absence. It is the parents'/guardians' sole responsibility to see to it that their son/daughter is in school.

The school administration discourages students missing school for family vacations. Clearly, missed teacher presentations, lectures, classroom discussions, laboratory experiments, and such cannot be made up as homework. However, the reality exists that parents do take their children out of school for such trips and these absences will count against the attendance policy. When this occurs, the following procedures will be used:

- The parent(s) / guardian(s) will contact the administration in advance of the planned vacation.
- The student will be held responsible for making specific arrangements with their teacher(s) for assignments. Work will be offered to students upon their return from an absence from school. Please do not expect teachers to prepare student assignments in advance of your child's trip. All work will be offered to the student upon the return of the student to class. Full credit will be given for completed work.

PARENT NOTIFICATION OF CHILD'S ABSENCE

If your child is absent from school, please do the following:

- Call 569-6598 and Press #1 to record your child's absence. Please give your child's full name, the date of the absence and the reason your child is not in school. Your message can be left at any time, however, if you are requesting homework, a call must be placed in the morning. Homework can be picked up in the office at the end of the school day or sent home with another student.
- If the child will be out an extended time, please let us know. Otherwise, a phone call must be made to the school each day your child is absent.
- If a phone call or direct communication was not made, a written note must be sent to the school within 2 days of the absence.
- If your child has been absent due to illness and you have seen your physician, please provide the school with documentation from medical personnel.

Twenty absences per year will be considered excessive and may jeopardize a student's promotional status and may result in filing a 51A – child neglect consultation and/or reporting to the Department of Children and families.

NOTIFICATION OF EXCESSIVE ABSENCE AND APPEALS

1. When a student has been absent five (5) days in a half year or ten (10) days in a year, the parent or guardian will be mailed a notice of this occurrence.
2. When a student has violated the Attendance Policy by being absent ten (10) or more days for any reason other than medical in either half a year or twenty (20) or more days in a year, the parent/guardian will be notified of the impact on academic growth and a mandatory conference (e.g. phone; meeting; etc.) will be scheduled with the Principal and parents.
3. A PARENT/GUARDIAN must notify the Administration of a desire to appeal in writing within five (5) school days of receiving a notice of the attendance violation to request an appeal of failing grades.

The Appeals process will consist of the Principal (or designee) and others at the discretion of the Administration, as deemed appropriate. Parents/guardians may present their appeal for a change of grades at the informal meeting. The parent/guardian will be informed of the date and time of a meeting to address the request. The Appeals Board will consider:

1. Information presented
2. Documentation from medical personnel
3. The overall student attendance record
4. Other information deemed appropriate by the Administration

The decision of the Appeals is final

5. The Appeal may override the Attendance Policy
 6. The decisions of the Appeal will be rendered within five (5) school days of the appeals meeting
- *FOR MORE INFORMATION ABOUT ATTENDANCE SEE DISTRICT POLICY AT THE BACK OF THE HANDBOOK.

TARDINESS

Students should be in their classroom at 9:00 A.M. when Woodland School begins. A student must attend school at least half a day to be considered present. A late arriving child should sign in at the office with a parent. The child may then go directly to their classroom. Students who have been tardy for three (3) unexcused times in a marking term will be given a warning and a letter will be sent home. Unexcused tardies will become excused with a medical note from a doctor.

DISMISSAL

If a child needs to be dismissed at any time during the day, a parent must send in a note with their child in the A.M., come to the office, and sign out the child. The student will be called to the office for dismissal. An emergency card is maintained for each child in the school. Students will be released only to the people whose names appear on the emergency card or have been authorized by the parent/guardian.

Children that go to after school programs will need a note sent in at the beginning of the year, or program, to notify the school and will need to follow up with subsequent notes for any changes in student's dismissal or routine.

If there is an emergency, a parent or guardian may phone the office during the day with dismissal instructions. Or, if a parent or guardian is picking up a child without prior notification, s/he should report to the office first.

Between 3:05 P.M. and 3:10 P.M., students are moving about the building returning from special classes or preparing for regular dismissal at 3:20 P.M. Please do not request to dismiss a student at this time. Because so many children are in transit, we feel that the safest and most orderly procedure will be for parents to wait until the regular dismissal time at 3:20 P.M.

BLACKBOARD CONNECT PHONE LINE

Families are notified of many school related topics through a notification service called Blackboard Connect. Some examples are unexcused absences, early dismissals, school closings, newsletters and district messages. It is important that the school office has your most current contact information including email and phone number on file so that you will receive all pertinent communication.

BUS SAFETY

Kindergarten through Grade 2 Bus Stop Standard Procedure:

Kindergarteners must be met at their bus stop by a responsible adult. If there is no adult present to retrieve a kindergarten student, the child will be brought back to the school. Students beyond the kindergarten level will be released from the bus unless the bus driver has concern for the child's safety. Bus drivers will have the discretion to determine if a child should be returned to the school.

Grades Kindergarten through Grade 2 Bus Stop Exception:

Occasionally, a child's designated bus stop is in a location that requires an adult to drive to the bus stop to retrieve his or her child (e.g. bus drop off is not in the child's own neighborhood – it may be a parking lot of a business). When this is the case for a student in grades Kindergarten through Grade 2 and the adult is not present at the bus stop, the child will be brought back to the school.

Parents must declare standard five (5) day pick-up and five (5) drop-off locations for their children that will remain in effect for the entire school year. Students are only allowed to ride their assigned bus.

Here are some suggestions to help your children use the bus safely. Please review them with your children periodically.

1. Waiting for the bus:
 - a. Children should stay out of the road except when they must cross the street.
 - b. They should not trespass on private property.
 - c. Younger children who are not attending school should not accompany your child to the bus stop without an adult.
 - d. Children should wait in an orderly manner. Rough behavior or running is dangerous.
 - e. As the bus approaches, they are to line up at least 10 feet off the road and should approach the bus only when the driver has opened the door and signaled to the students that it is safe to approach the bus.
2. Riding the Bus:
 - a. Children should listen carefully to the driver's instructions.
 - b. They should get on the bus quickly and be seated. Children may be expected to sit three in a seat.
 - c. Children are expected to help keep the bus clean. Eating on the bus is not allowed.
 - d. Students should keep all parts of their bodies inside the bus.
 - e. Children must remain in their seats when the bus is moving.
 - f. Children should restrict their talking to those children sitting next to them.
 - g. Shouting is not allowed.
3. Camera usage on all buses: Audio and video cameras may be present on our STGRSD school buses.

When the bus driver reports inappropriate behavior, an administrator will speak to the students. If the behavior continues and a second bus warning is issued, the parent will be notified. If a third bus warning is issued the parent will be notified and the child may be temporarily or permanently removed from the bus. Parents will then be responsible for seeing that the child is transported to school.

CANCELLATIONS AND DELAYS

Closing school because of weather conditions or other emergencies will be broadcast online on the Southwick-Tolland-Granville Regional School District Facebook page, on TV stations WWLP 22 News; Western Mass News CBS 3, ABC 40 and Fox 6; and NECN. Voice and text messages will also be sent via phone to all households via the Blackboard Connect system.

When school opening is delayed, due to inclement weather, the delay is announced over the local radio and television stations, as well as, on the Southwick-Tolland-Granville Regional School District Facebook Page.

1. Busses will run two hours later.
2. School will begin at 11:00 A.M.
3. Lunch will be served at the usual time.
4. Dismissal will be at 3:20 P.M.

CARE OF BOOKS, SUPPLIES AND PUBLIC PROPERTY

Books and supplies are provided at public expense. It is expected that the children will be responsible for the reasonable use of these materials and in the event of loss or damage will pay for full replacement of each item.

Reimbursement is also expected in the event of damage to the buildings, furniture or equipment caused by misconduct or an act, which a given child would be reasonably expected to avoid.

CORI (CRIMINAL OFFENDER RECORD INFORMATION)

The Southwick-Tolland-Granville Regional School District requires CORI checks for the purposes of screening current and otherwise-qualified prospective school-based personnel and volunteers who will have the opportunity for unsupervised contact with children.

DISCIPLINE PROCEDURE

The STGRSD complies with all conditions and procedures outlined in Chapter 222: An act relative to student access to educational services and exclusion from school.

The discipline procedures are designed to cover the general rules and regulations of Woodland School. However, it is not intended to be all inclusive and individual teachers or administration may have their own rules and regulations pertaining to the management of their classes or the school.

In elementary schools most discipline is usually handled by the classroom teachers. If a situation arises that is serious enough for a student to be sent from the room, the student will be sent to the principal's office. The teacher will notify the office that the student is being sent and the reason for his/her removal from the classroom. For more serious infractions, the teacher or administrator will also contact the student's parent/guardian and inform them of the situation.

Below is a list of possible infractions:

1. Talking or fooling around in class
2. Wasting time in class
3. Causing minor disruptions which impede the learning process
4. Chewing gum or eating candy
5. Lack of work completion
6. Breaking classroom regulations
7. Profane, obscene, or other improper language
8. Fighting
9. Any act which imperils or threatens the safety of others
10. Possession of any dangerous weapon or implement
11. Theft or damage to personal property of others
12. Possession of any illegal substance or apparatus
13. Acts of vandalism
14. Starting a fire or pulling a false alarm

19. Police referral

Any student on external or internal suspension will not be allowed to participate in any school activities during period of suspension.

DROP OFF AND PICK UP PROCEDURES

For families transporting their child(ren) to and from school, families will drive down to the school, drive along the last row of parking spots and the transportation department fence, proceed to the end and pull up alongside the curbing. Parents can drop off in the morning 8:45-9:00 AM and pick up in the afternoon, 3:20-3:30 PM.

Students will enter school at the main entrance or middle entrance and will dismiss from the main entrance. We will signal when your child can get out of the vehicle in the morning. Please stay in your car unless your child needs help getting out or into their car seat or seat belt. **Please let buses join the line as they arrive.**

We will continue to use Silent Dismissal as our dismissal program to help with parent pick up.

On the first day of pick up, you will receive a display tag which will be used for future pick-ups. These tags will help us in notifying the classroom teacher when you have arrived for your child(ren). For families with multiple children, one tag includes all children in a family.

EMERGENCY DRILL PROCEDURE

Fire drills at regular intervals are required by law and are an important safety precaution. During a fire drill or other emergency drills, at the first signal given, everyone must obey orders promptly. During a fire drill or evacuation, everyone must clear the building by prescribed routes as quickly as possible. The teacher in each classroom will give students instructions. Any student who endangers safety may be disciplined.

Emergency Lock Down and Evacuation drills are held periodically during the school year and every drill should be treated as if there actually was an emergency. All passing done during drills will be done quickly and quietly to avoid confusion. Pay attention to your teacher so that you will be able to hear emergency instruction. **NOTE:** Parents should set up an emergency procedure so that their child knows what to do and where to go if, due to an emergency, they arrive home when a responsible adult is not there.

In the event of an actual emergency, please do not go to the school. You will receive information via Blackboard Connect notification system.

ENGLISH LANGUAGE LEARNERS PROGRAM (ELL)

Students for whom English is not their primary language have equal rights of access to all courses of study in regular, special, technical and vocational school programs. They also have the right to participate in all school-sponsored activities.

All students entering the Southwick-Tolland-Granville Regional School District who speak a language other than English at home are evaluated for English language proficiency. If services are recommended, parents are advised of their choices. They have the right to accept or reject the services available.

Instruction for English Language Learners (ELL) is provided for all students who have a limited proficiency in English. Services are tailored to the individual language and educational needs of the student. For further information contact the ELL Coordinator.

ETHICS LAW

The Southwick-Tolland-Granville Regional School District discourages gifts to classroom teachers in accordance with M.G.L. c. 268A, section 3.

HANDBOOK ACKNOWLEDGEMENT FORMS

Each parent, guardian and the student him/herself must sign the handbook acknowledgement form, indicating that he/she has received and read a copy. If the signed acknowledgement form is not received by the third week in September, then the school district will nonetheless presume that the parent, guardian and student him/herself has received and read this document.

KINDERGARTEN REGISTRATION

Kindergarten registration takes place in the spring. Parents of prospective kindergarten students are requested to contact Woodland School. To be eligible for Kindergarten, a child must be five years old by September 1st of the year entering. A birth certificate, proof of residency, records of immunizations and a physical examination form, including lead results, from the doctor must be presented at the time of registration. Transfer students may enter school any time during the year upon presentation of proper transfer records.

LOST AND FOUND

It is strongly urged that the parent put their child's name on all outer clothing. The "Lost and Found" is located in the dining room. The large quantities lost each year make it necessary to dispose of items to a local charity periodically.

MEDICAL INFORMATION

School Nurse and Health – The school nurse is available to work with you to accommodate your child's health needs while at school. From cuts, bumps and stomach aches, to chronic health conditions, the nurse is here to assist your child in remaining healthy and productive in school. Feel free to contact the school nurse with any questions, concerns or to obtain necessary forms.

Activity Limitations – If your student is required to have limited physical activity in school, a written statement from the licensed health care provider describing the limitations, must be provided to the school so appropriate arrangements can be made, if necessary.

Emergency Form - Each fall parents will receive a Student Health and Emergency Form. It is essential that the form be completed annually and that the information is current at all times. Medical conditions such as allergies, asthma, epilepsy, diabetes, etc. should be indicated on the form. Please update any changes throughout the year. This form can be downloaded from the District website under Departments, then selecting Health Services.

Field Trips – Permission forms for field trips are sent home by the students’ teachers prior to the field trip. Please complete the form as soon as possible. You must write any medication your child may need in the large box on the Field Trip Form and indicate if you give the teacher permission to administer the medicine on the field trip. Be sure to write any medical condition in the box, also (i.e. diabetes, migraine headaches, motion sickness, reactions to bee stings, etc.). If your child needs to take any medicine, a Physician and Parent Med Consent Form must be on file with the nurse. (This form can be found on the District website under Departments, then select Health Services.) Medications to be taken on the field trip will be delegated to a teacher to administer. It can take some time to make necessary arrangements for your child’s safe enjoyment of a field trip. Your cooperation is essential. Please discuss field trips with the school nurse at any time.

First Aid will be administered for minor injuries received during the school day. When a student becomes ill or is seriously injured, the parent is notified immediately. If a parent cannot be reached in an emergency, the child will be transported to the hospital.

Homebound Tutoring - Parents who expect their child to be absent for an extended period of time due to illness or accident, should contact the Student Services Department about home tutoring.

Immunizations – By law, The Massachusetts Department of Public Health requires that all students be fully immunized prior to school entry. The Massachusetts school immunization requirements are on the District’s website. Physicians are aware of these requirements, as well as, the required time intervals between doses. (Please note that each state has slightly different timetables for immunizations. If your child’s pediatric practice is in another state, make sure your child is compliant with Massachusetts requirements.) The State Department of Public Health mandates the school nurse to review the time intervals between the doses of specific vaccines. If the intervals between doses are outside of the Department of Public Health guidelines, an additional dose of vaccine may be required. Parents will be informed individually if this is necessary. Every child must be properly vaccinated to attend school in Massachusetts. Exemptions may be accepted for medical or religious reasons, and must be made in writing. Children who are homeless are allowed to enter pending verification of immunization.

Enforcement:

1. The school administration (principal, superintendent), in consultation with the school nurse, has the responsibility to refuse school admittance to students who have not received the required immunizations or who are not, otherwise, exempted. Unimmunized, or partially immunized students, whose private physicians certify in writing they are in the process of receiving the required immunizations, shall be allowed to attend school, provided they receive the required immunizations when scheduled. They will be regarded as being in compliance with the law, as long as, they are actively pursuing the receipt of immunizations.
2. It is the responsibility of the school nurse to review the records and inform the parent/guardian if the student is not in compliance. If the parent/guardian has difficulty obtaining the necessary immunizations, a choice of possible resources will be offered. Please refer to M.G.L. Chapter 76, Section 15, any student found to be in non-compliance with the immunization requirements is subject to immediate exclusion from school and shall not be readmitted until the parent or guardian satisfies the requirement of the statute or, in the alternative, provides evidence to substantiate an exemption as described above.

Medical and Dental Appointments should be made, whenever possible, during non-school hours.

Medication Policy – The Southwick-Tolland-Granville Regional School District follows the laws and regulations of the Massachusetts Department of Public Health in the formulation of medication policies to ensure the health and safety of children who need medication during the school day. The following forms must be on file in your child’s health records before any medication can be administered at school or on a field trip.

The forms are available from the nurse or may be downloaded from the District website.

1. A signed consent by parent or guardian to give the medicine.
2. A signed medication order completed by your child's licensed prescriber (physician, nurse practitioner, etc.)

The policies include over-the-counter medicine such as acetaminophen, cough drops and ointments. Medicines must be in a pharmacy or manufacturer-labeled container. Students are not permitted to transport any medicine to or from school. Medicines must be delivered to the school. **It is necessary to obtain new orders and parental permission every year.** Any medications not picked up by the last day of school will be destroyed.

The school nurse may not administer any medications, including over the counter medications, without proper orders and consents. Students are not allowed to carry medications in school, and may be referred for disciplinary action if found with medication. Please plan ahead to meet your child's medication needs. The school nurse is available to help you, if needed.

Our school physician has provided medical directives for our students. See bottom of the Student Health and Emergency Form.

Physical Examinations – State law requires physical examinations of all school children within a year before entry into school, and at intervals of either three or four years thereafter. The Southwick-Tolland-Granville Regional School District requires physical examinations in Grades K, 4, 7 and 10, and for all new students, and because your child's physician has a comprehensive knowledge of the health status of your child, private physician examinations are strongly encouraged. If the school nurse has concerns about a student's health, she may require a student to have an exam to attend school. An exam within a year of entry into school is acceptable.

Mandated Health Screenings – The Massachusetts Department of Health mandates health screenings that are performed during the school year. These include height, weight, vision, hearing and postural or scoliosis screenings. For any vision, hearing or postural screening outside normal limits, a referral will be sent home for further testing.

You have an option to not have your child participate in one or all screenings. You must however, make your decision to "OPT Out" of a screening in writing and send it to your child's school nurse. Otherwise, your child will be automatically screened as per Massachusetts Department of Public Health (DPH) Regulations. "Opting out" only applies to screenings and DOES NOT apply to physical exams. The "OPT Out" option must be made annually (it does not carry over from year to year). The mandated health screening requirements may be located on the District's website.

Wellness Policy – Our District Wellness Policy addresses nutrition standards, nutrition education, physical activity and other school-based activities designed to promote student wellness. It also includes an evaluation component. The complete policy is available on the District website.

When to Keep a Child Home – It is sometimes difficult to decide when a child should remain home from school. Here are some guidelines:

1. Child has vomiting or diarrhea.
2. Fever 100 degrees or higher, to remain home until fever free for 24 hours without the use of fever medications.
3. 24 hours after starting antibiotics, especially after conjunctivitis or strep throat.
4. Child with any contagious illness.
5. Excessive fatigue after illness.
6. When your child's doctor recommends rest at home following an illness, injury, or surgery.
7. After an injury or surgery when narcotic pain medication is still necessary.

Remember to obtain a note for school if your child misses school for any appointment with a doctor, dentist, orthodontist, or mental health provider.

POWDER MILL AND WOODLAND SCHOOLS' PARENT-TEACHER ORGANIZATION: PAWS

The Powder Mill and Woodland Schools' (PAWS) Parent Teacher Organization meetings are held monthly. If you are new to either school or even if you are already familiar with P.T.O. we encourage you to attend our meetings and become active in our school community.

PARENTAL CONCERNS/COMPLAINTS

It is not unusual for questions and/or concerns to arise during the course of a school year. Building a partnership between parents and teachers is the first step in ensuring quality education for our students. Calling or meeting with your child's teacher is the best and most productive way of addressing any issue.

If you have a concern about your child's performance, his or her classroom or academic program, you should contact the following people in this order:

- Speak with the teacher first. Your child's teacher is the person most familiar with your child and the most knowledgeable when it comes to curriculum and grade level concerns. The teacher may also re-recommend meeting with additional school personnel if appropriate.
- If you are not satisfied with the solutions suggested by your child's teacher, contact school administrators. They will meet with you and the teacher to find a mutually acceptable solution to your problem.
- If, after meeting with your child's teacher and the Woodland Administration, you are unable to satisfy your concerns, you may contact the Superintendent of Schools.

PHYSICAL RESTRAINT

The Southwick-Tolland-Granville Regional School District complies with the Department of Education (D.O.E.) restraint regulations, 603 C.M.R. 46.00 et seq., as required by law. These regulations apply not only while attending school, but also at school-sponsored events and activities, whether or not on school property. Copies of this law are available at <http://www.doe.mass.edu/lawsregs/603cmr46.html>, and in the office of the principal.

In Southwick-Tolland-Granville Regional School District schools, we use non-violent restraint such as redirection, escorts to quiet areas, talking to students and other such methods. Physical restraint is only used as a last resort.

PRESCHOOL SCREENING

The Preschool Team offers screening of three and four year old children at least once a month for Southwick, Tolland and Granville families. We also do screenings as the first step in a special needs referral throughout the year. Children are screened in the areas of vision, hearing, speech and language development. Preschoolers, who display some developmental delays based on screening results, are then followed up with a referral from Special Needs in accordance with Chapter 766.

The STGRSD Preschool Program is for students with disabilities. Public schools are required to offer free and appropriate educational services for children ages three to five (and older) who have a disability by state and federal requirements under the Individuals with Disabilities Education Act (IDEA).

The STGRSD Preschool Program is open to a limited number of peer role models/partner slots on a first-come-first-serve-basis. Peer partners are required to be toilet trained. Once slots are full, a wait list is created. Please note transportation is not provided for peer partners.

PROHIBITED ARTICLES

Dangerous weapons, including, but not limited to, a gun or a knife or controlled substances are prohibited. Also prohibited: tobacco products, fireworks, laser pointers, knives, toy guns, skateboards, CD players, hardballs, toys, stuffed animals, handheld gaming systems, chewing gum and anything else that disrupts the educational process. Toys attached to backpacks can be dangerous for students getting on and off the bus. Therefore, these are also prohibited. The school cannot assume responsibility for valuable articles brought in by the children or parents. In general, toys, handheld games, electronic devices, etc. should not be brought to school unless requested by the teacher.

PUBLICITY AUTHORIZATION AND RELEASE

The Southwick-Tolland-Granville Regional School District and Woodland School may release and publish, student work, photographs, motion pictures, video images or other likeness of your child in connection with any and all news releases, public relations or promotional materials or announcements, advertisements, web pages or otherwise, concerning your child's academic honors, sports activities, participation in school-sponsored musical, dramatic or dance-performances, or any other purpose in connection with your child's attendance at Woodland School. If you have any objections to the Publicity Authorization and Release policy, please write to the building principal and your son/daughter will be exempt from this policy.

RECESS

Out-of-doors recess is part of the school program. Children are expected to come to school properly clothed for weather conditions. During inclement weather, and/or when the temperature is below 20°F, recess is held indoors. A written parental request for exclusion from recess will be honored for a reasonable length of time. Extended exclusions require a physician's written statement.

It is strongly recommended that flip flops not be worn to school. The children often twist ankles and stub toes when wearing these on the playground. If they are worn to school, the children are not allowed to use the playscape.

REPORT CARDS - CONFERENCES

Parent/Teacher Conferences are held twice each year. Dates are noted on the school calendar. Report cards are issued four times each year in all grades.

SCHOOL COUNCIL

School Council - The Woodland School Council consists of parents, teachers, administrators, and community representatives, who work together each year as an advisory board to the Principal; the goal of the Council is to continually improve education at Woodland School. The group meets each month. An election for parent representatives is held at the April/May PAWS PTO meeting. Member elections are held every two years. Please refer to the Principal for a current membership list.

SCHOOL LUNCH PROGRAM

Woodland School offers healthy meals every school day. All schools have a lunch program set up under the National School Lunch Program and administered through the Massachusetts State Department of Education and United States Department of Agriculture.

The District uses a Point-of-Sale system. Parents register on-line at www.SchoolCafe.com using information provided to them by the School Nutrition Department. They will be able to pay for meals, as well as see what their child is eating and add any restrictions to sales. Students may also bring checks into school which will be deposited into their Point-of-Sale account if done before 9:30 in the morning; **no money will be accepted at the register during lunch.** No change will be given to students in school; any change will be credited to their account. All purchases made in the cafeteria will be done through the Point-of-Sale, so if your child wants to buy snack, money should be placed in their account as detailed above.

During the school year, when there is a scheduled half-day of school (e.g., Collaboration Day), we will offer a lunch to any student. These bag lunches are served with an entrée, fruit, vegetable and milk. Students will be asked to order in the morning, like usual, and their bagged lunch will be available to pick up in the cafeteria at dismissal. Please see the website for the menu of hot meals offered and for pricing.

All meals offered will be charged according to the standard lunch costs. Please be advised that the menu is subject change without notice.

Students who would like to have breakfast should pick up their breakfast from the Grab & Go Cart, located at arrival entrances, and proceed to their classroom.

Children who carry their own lunch must be sure their lunch box or bag has their name on it. Students should not share any food they bring from home. If a student forgets his/her money or lunch, he/she will be provided with a regular meal, and the charge will be added to the students' lunch account. Students with a balance will only be allowed to debit one full meal per day, per meal service, i.e. one breakfast and one lunch per day.

Information for free or reduced priced lunches is sent home with every student the first week of school. Additionally, if at any point during the school year a family wishes their children to participate, and feels that their income is within the eligibility guidelines, they should request an application from the school office or they can apply confidentially online at www.SchoolCafe.com. Parents will be notified of their children's eligibility by mail within 10 days. See nutrition page for help or links.

Any account with a positive balance at the end of the school year will be rolled into the students' accounts for the next year, regardless of which school they attend in the district. Any questions regarding this policy should be directed to the Director of School Nutrition, Matthew Lillibridge by emailing food@stgrsd.org

GUIDELINES FOR CLASSROOM CELEBRATIONS

The School District Administration has developed and implemented a protocol in an effort to minimize the risk of exposure to allergens that pose a threat to students. The Southwick-Tolland-Granville Regional School District recognizes the increasing prevalence of student allergies and the life-threatening nature of allergies for many students. As a result snacks made at home may not be shared with the students in classrooms.

For any in school celebrations, only wrapped, store-bought foods with the ingredients listed on the label will be distributed. The school principal in collaboration with the school nurse, may make an exception to this in order to approve curriculum based food activities. Alternate activities are strongly encouraged for celebrations. Our mission is to teach students that food shouldn't always be the focus and there are other ways to celebrate. We can have fun without food.

Additionally, some children are allergic to latex balloons. Therefore, latex balloons will not be allowed at school. However, mylar/foil balloons are safe and acceptable.

SPECIAL NEEDS SERVICES

Children with disabilities are provided with a range of services to meet their educational needs. Eligibility for services is determined through an evaluation process in accordance with Massachusetts Chapter 766 Regulations.

Consultation teams have been set up at the four schools in order to explore options and strategies to meet the needs of children who are having academic or social/emotional difficulties. These teams are comprised of Administration, Counselors, Regular and Special Education Teachers. They may refer a child for a special education evaluation if a disability is suspected.

Parental permission must be obtained in order to proceed with an evaluation. Parents are invited to meet with the professionals who evaluate their child and to participate in decision making about their child's educational plan.

Each school offers special education services to help address the individual needs of children with disabilities. These include Speech and Language Therapy, Occupational and Physical Therapies, Vision and Hearing Services, instruction in a Resource Room setting, and assistance within the general classroom. The participation of disabled students in school activities and programs is encouraged, as is their inclusion in appropriate academic classes.

Questions about available services may be addressed to the Principal or to the Director of Student Services.

TITLE I

Title I is a federally funded program designed to support non-proficient students in reading and mathematics.

Instruction is designed to meet the individual needs of students. Progress Reports and Parent Conferences are in conjunction with the regular classroom schedule.

Parents are encouraged to become involved in the program through at-home reading incentive programs, parent workshops and meetings.

The Federal *No Child Left Behind* Act of 2001 requires school districts that receive federal Title I funding to notify parents of their right to know the professional qualifications of the classroom teachers who instruct their child. As a recipient of these funds, Southwick-Tolland-Granville Regional School District will provide you with this information in a timely manner if you request it. Specifically, you have the right to request the following information about each of your child's classroom teachers:

- Whether the teacher meets the state qualifications and licensing criteria for the grades and subjects he or she teaches.
- Whether the teacher is teaching under emergency or provisional status because of special circumstances.
- The teacher's college major, whether the teacher has any advanced degrees, and the field of discipline of the certification or degree.
- Whether paraprofessionals provide services to your child and, if so, their qualifications.

Southwick-Tolland-Granville Regional School District is committed to providing quality instruction for all students and does so by employing the most qualified individuals to teach and support each student in the classroom. If you would like to receive any of the information listed above for your child's teacher, please contact the building Principal.

10/24/2017
6/7/2022**

The Southwick-Tolland-Granville Regional School District is committed to maintaining and promoting an educational environment free from all forms of discrimination, including harassment. The civil rights of all school community members are guaranteed by law, and the protection of those rights is of utmost importance and priority to the District. The members of the school community include the School Committee, employees, administration, faculty, staff, students, volunteers in the schools, and parties contracted to perform work for the Southwick-Tolland-Granville Regional School District.

Such discrimination will not be tolerated. Retaliation against any student or other individual who has complained of discrimination, including harassment, or individuals who have cooperated with an investigation of such a complaint, is also unlawful and will not be tolerated.

The District will promptly investigate, remedy any harm, seek to prevent recurrence of such conduct, and will also develop procedures to accomplish this end. This policy applies to conduct directed toward persons associated with the educational community by all other persons associated with the educational community including, but not limited to, students, District employees, the School Committee, school volunteers, and independent contractors.

I. What Is Discrimination, including Harassment?

Definitions

"Discrimination" and "Harassment" are defined as unwelcome conduct, whether verbal or physical, that is based on any individual's actual or perceived race, color, sex, sexual orientation, gender identity, religion, disability, age, genetic information, active military/veteran status, marital status, familial status, pregnancy or pregnancy-related conditions, homelessness, ancestry, ethnic background, national origin, or any other category protected by state or federal law, Discrimination and/or harassment includes, but is not limited to:

Harassment may include, but is not limited to, any unwelcome, inappropriate, or illegal physical, written, verbal, graphic, or electronic conduct, and that has the intent or effect of creating a hostile education or work environment by limiting the ability of an individual to participate in or benefit from the district's programs and activities or by unreasonably interfering with that individual's education or work environment or, if the conduct were to persist, would likely create a hostile educational or work environment.

"Title IX Sexual Harassment" (effective August 14, 2020) means verbal, physical or other conduct that targets a person based on their sex, and that satisfies one or more of the following:

V. Investigation of Complaints

Upon receipt of a report or complaint of discrimination and/or harassment, the relevant Coordinator(s) should conduct a prompt investigation. The investigation must allow for the complainant, the subject of the complaint, the alleged harasser, and any other appropriate party to provide information, including witnesses or other evidence, relevant to the consideration and resolution of the complaint. The Coordinator(s) will also endeavor to promptly interview and obtain detailed written statements from potential witnesses. If further documentation or information is necessary, the Coordinator(s) will notify the appropriate party, asking that the information be provided within ten (10) school/working days. The Civil Rights Coordinator may also assign a designee to conduct the investigation in consultation with the Civil Rights Coordinator.

The District will take interim steps, as necessary, to ensure the safety and well-being of the complainant and the alleged harasser while the investigation is being conducted. Interim measures are available even if the complainant does not file or continue to pursue a complaint. The Civil Rights Coordinator(s) shall notify the complainant and the alleged harasser of specific types of interim measures available, which may include measures to avoid contact with the other party, allowing employees to change work situations as appropriate, or prohibiting contact between the parties pending the results of the District's investigation. At any time, a complainant or the alleged harasser may request either orally or in writing to the Civil Rights Coordinator that specific interim measures be taken pending the outcome of the investigation.

A written determination regarding the complaint and any resolution will be provided by the Civil Rights Coordinator to the complainant and the alleged harasser once the investigation is complete. The determination of whether the District's antidiscrimination policy has been violated will be based upon a preponderance of the evidence standard.

The complainant or the alleged harasser may request reconsideration of the determination and/or resolution of a complaint by notifying the Superintendent in writing or verbally within seven (7) school/working days of receipt of the written determination of the Civil Rights Coordinator. The Superintendent or his/her designee will respond to such request with notice to both parties within (30) thirty school/working days of receipt of the request for reconsideration; his/her decision is final.

If a violation is found to have occurred, the District will take steps to prevent recurrence of the violation and correct its discriminatory effect on the person(s) affected. Such steps may include appropriate disciplinary action, counseling, development of a safety plan and other remedies, as appropriate.

VI. Consequences of Violating Policy - Discipline & Discharge

Any employee who violates this policy will be subject to disciplinary action consistent with the contractual provisions governing his/her employment. In appropriate circumstances, the District may also refer the matter to law enforcement officials for possible prosecution.

Any student who violates this policy will be subject to disciplinary action, which may range from detention, suspension from schools, or expulsion from school. (Note: students with disabilities will be subject to the applicable disciplinary procedures set forth in the Students' Rights and Responsibilities District handbook, which adhere to Individuals with Disabilities Education Act and Section 504 of Rehabilitation Act of 1973.) In appropriate circumstances, the District may also refer the matter to law enforcement officials for possible prosecution.

VII. Confidentiality

Investigations of discrimination, including harassment complaints shall be conducted in such a manner as to disclose information only to those with a need to know or those who may have information pertinent to the investigation. Please note, some level of disclosure may be necessary in the course of conducting interviews in connection with investigation of any complaint under this policy. The District shall endeavor to keep such information as confidential as it can without compromising the thoroughness of the investigation.

VIII. State and Federal Authorities

In addition to the process described above, the complainant may, at any time, file a complaint with the U.S. Department of Education Office for Civil Rights, Massachusetts Commission Against Discrimination, Massachusetts Department of Elementary and Secondary Education, or other appropriate federal or state agency charged with enforcement of state and federal laws prohibiting discrimination, including harassment based on membership in a protected class.

The Southwick-Tolland-Granville Regional School Committee and the Southwick-Tolland-Granville Regional School District are committed to maintaining an education and work environment for all school community members that is free from all forms of harassment, including sexual harassment. The members of the school community include the School Committee, employees, administration, faculty, staff, students, volunteers in the schools, and parties contracted to perform work for the Southwick-Tolland-Granville Regional School District.

Sexual harassment is unwelcome conduct of a sexual nature. The definition includes unwelcome conduct on the basis of sex that is so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the school's education program or activity it also, includes unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, or physical conduct of a sexual nature. Sexual harassment includes conduct by an employee conditioning an educational benefit or service upon a person's participation in unwelcome sexual conduct, often called quid pro quo harassment and, sexual assault as the Federal Clery Act defines that crime. Sexual violence is a form of sexual harassment. Sexual violence, as the Office of Civil Rights (OCR) uses the term, refers to physical sexual acts perpetrated against a person's will or where a person is incapable of giving consent (e.g., due to the student's age or use of drugs or alcohol, or because an intellectual or other disability prevents the student

from having the capacity to give consent). A number of different acts fall into the category of sexual violence, including rape, sexual assault, sexual battery, sexual abuse and sexual coercion.

Massachusetts General Laws Ch. [119, Section 51 A](#), requires that public schools report cases of suspected child abuse, immediately orally and file a report within 48 hours detailing the suspected abuse to the Department of Children and Families. For the category of sexual violence, in addition to Section 51A referrals these offences and any other serious matters shall be referred to local law enforcement.

While it is not possible to list all those additional circumstances that may constitute sexual harassment, the following are some examples of conduct, which if unwelcome, may constitute sexual harassment, depending on the totality of the circumstances, including the severity of the conduct and its pervasiveness:

- Unwelcome sexual advances-whether they involve physical touching or not;
- Sexual epithets, jokes, written or oral references to sexual conduct, gossip regarding one's sex life; comment on an individual's body, comment about an individual's sexual activity, deficiencies, or prowess;
- Displaying sexually suggestive objects, pictures, cartoons;
- Unwelcome leering, whistling, brushing against the body, sexual gestures, suggestive or insulting comments;
- Inquiries into one's sexual experiences; and,
- Discussion of one's sexual activities.

The legal definition of sexual harassment is broad and in addition to the above examples, other sexually oriented conduct, whether it is intended or not, that is unwelcome and has the effect of creating an environment that is hostile, offensive, intimidating, to male, female, or gender non-conforming students or employees may also constitute sexual harassment.

Because the District takes allegations of harassment, including sexual harassment, seriously, we will respond promptly to complaints of harassment including sexual harassment, and following an investigation where it is determined that such inappropriate conduct has occurred, we will act promptly to eliminate the conduct and impose corrective action as is necessary, including disciplinary action where appropriate.

Please note that while this policy sets forth our goals of promoting an environment that is free of harassment including sexual harassment, the policy is not designed or intended to limit our authority to discipline or take remedial action for conduct which we deem unacceptable, regardless of whether that conduct satisfies the definition of harassment or sexual harassment.

Retaliation against a complainant, because they have filed a harassment or sexual harassment complaint or assisted or participated in a harassment or sexual harassment investigation or proceeding, is also prohibited. A student or employee who is found to have retaliated against another in violation of this policy will be subject to disciplinary action up to and including student suspension and expulsion or employee termination.

The complainant does not have to be the person at whom the unwelcome sexual conduct is directed. The complainant, regardless of gender, may be a witness to and personally offended by such conduct.

NOTICE OF SEXUAL HARASSMENT

The regulations require a school district to respond when the district has actual notice of sexual harassment. School districts have actual notice when an allegation is made known to any school

employee. Schools must treat seriously all reports of sexual harassment that meet the definition of harassment and the conditions of actual notice and jurisdiction as noted whether or not the complainant files a formal complaint. Holding a school liable under Title IX can occur only when the school knows of sexual harassment allegations and responds in a way that is deliberately indifferent (clearly unreasonable in light of known circumstances). Schools are required to investigate every formal complaint and respond meaningfully to every known report of sexual harassment.

The regulation highlights the importance of supportive measures designed to preserve or restore access to the school's education program or activity, with or without a formal complaint. Where there has been a finding of responsibility, the regulation would require remedies designed to restore or preserve access to the school's education program or activity.

REPORTING

Any person may file a report of sex discrimination, including sexual harassment (whether or not the person reporting is the person alleged to be the victim of conduct that could constitute sex discrimination or sexual harassment), at any time either in person, by mail, by telephone, or by electronic mail, using the contact information listed for the Title IX Coordinator, or by any other means that results in the Title IX Coordinator receiving the person's verbal or written report. However, if a person files a false complaint in bad faith, knowingly and intentionally, they will be subject to discipline.

Title IX Coordinator:

Jenny Sullivan, Director of Curriculum and Instruction, 86 Powder Mill Road, Southwick, MA 01077, (413) 569-5391 jsullivan@stgrsd.org

The contact information for the Title IX Coordinators will always be prominently displayed on the school's website.

INVESTIGATIONS

The School will investigate and adjudicate formal complaints of sexual harassment using a grievance process that incorporates due process principles, treats all parties fairly, and reaches reliable responsibility determinations. The school's grievance process will:

- Give both parties written notice of the allegations, an equal opportunity to select an advisor of the party's choice at the party's own expense (who may be, but does not need to be, an attorney), and an equal opportunity to submit and review evidence throughout the investigation;
- Use trained Title IX personnel to objectively evaluate all relevant evidence without prejudice of the facts at issue and free from conflicts of interest or bias for or against either party;
- Protect parties' privacy by requiring a party's written consent before using the party's medical, psychological, or similar treatment records during a grievance process;
- Obtain the parties' voluntary, written consent before using any kind of "informal resolution" process, such as mediation or restorative justice, and not use an informal process where an employee allegedly sexually harassed a student;
- Apply a presumption that the respondent is not responsible during the grievance process (often called a "presumption of innocence"), so that the school bears the burden of proof and the standard of evidence is applied correctly;
- Use the preponderance of the evidence standard for all complaints of harassment on the basis of sex, regardless of whether the complaint is against students or district employees;
- Ensure the decision-maker is not the same person as the investigator and/or the Title IX Coordinator (i.e., no "single investigator models");

- Parties may submit written questions for the other parties and witnesses to answer;
- Protect all complainants from inappropriately being asked about prior sexual history (“rape shield”)
- Send both parties a written determination regarding responsibility explaining how and why the decision-maker reached conclusions;
- Effectively implement remedies for a complainant if a respondent is found responsible for sexual harassment;
- Offer both parties an equal opportunity to appeal;
- Protect any individual, including complainants, respondents, and witnesses, from retaliation for reporting sexual harassment or participating (or refusing to participate) in any Title IX grievance process;
- Make all materials used to train Title IX personnel publicly available on the school’s website or, if the school does not maintain a website, make these materials available upon request for inspection by members of the public; and
- Document and keep records of all sexual harassment reports and investigations for at least seven years.

RECORD KEEPING

Schools must create and maintain records documenting every Title IX sexual harassment complaint. Records relating to complaints of sexual harassment must be kept in accordance with the records retention schedule. Such records include: records of a school’s investigation (including complaints (formal and informal), notices, the determination, investigative report, disciplinary measures or remedies, etc.); records of any appeals and materials associated with the appeal; records of any supportive measures taken in response to a complaint of sexual harassment (even if the complainant does not file a formal complaint); records of any informal resolution process; all materials used to train Title IX Coordinators, Investigators, decision makers, and those facilitating an informal resolution. The training materials must be kept on the School’s website.

RETALIATION IS PROHIBITED

Any person who experiences retaliation for exercising their rights under Title IX can file a retaliation complaint with the Title IX Coordinator. The school will keep the names/identity of parties and witnesses confidential unless such disclosure is required under another law, or is necessary to conduct a thorough grievance procedure.

SUPPORTIVE MEASURES

When alleged sexual harassment is reported, the Title IX Coordinator must inform the victim to their right of supportive measures even if no formal complaint is filed. The school must consider the alleged victim’s wishes with respect to supportive measures. Supportive measures for those involved in the sexual harassment complaint process may include: counseling, extending deadlines, modifications of work and/or class schedules, school escort services, increased school security and/or monitoring, mutual restrictions on contact between the individuals involved through a safety plan.

Supportive measures will be kept confidential whether they are provided to the alleged victim or accused person to the extent the confidentiality will not interfere with the supportive measure offered.

This policy, or a summary thereof that contain the essential policy elements shall be distributed by the Southwick-Tolland-Granville Regional School District to its students and employees and each parent or guardian shall sign that they have received and understand the policy.

Please note that the following entities have specified time limits for filing a claim.

The Complainant may also file a complaint with:

Boston, MA 02108.

The District is committed to providing a safe environment in schools during the ongoing COVID-19 pandemic. Maintaining a safe environment is critical to the District's ability to ensure students remain in a full-time classroom learning environment.

According to public health experts, one of the best ways to stop the spread of coronavirus and to keep members of our school community safe is the use of face masks or face coverings. Therefore, in accordance with guidance and recommendations from the Center for Disease Control (CDC), the Department of Elementary and Secondary Education (DESE) and the Massachusetts Department of Public Health (DPH), the following requirements are in place until further notice.

- A face covering that covers the nose and mouth is strongly recommended to be worn by individuals who remain unvaccinated or are otherwise immunocompromised in school buildings, and on school grounds, even when social distancing is observed.
- Individuals who are vaccinated are not required to wear a mask, but may do so if desired.
- **Students and staff returning from 5 day quarantine following a positive COVID test must follow strict mask use, other than when eating, drinking, or outside, and conduct active monitoring for symptoms, through day 10 of exposure.**
- **Masks will be required in all school health offices.**

CODE: BUS STOP PROCEDURE FOR ELEMENTARY STUDENTS

Category: Students

Adopted: 5/17/16

File No.: EEAED

Revised: 11/05/2018

K – 2 Bus Stop Standard Procedure:

The health and safety of young children is a primary concern of the Southwick Tolland Granville Regional School District. Therefore, no Preschool, Kindergarten or Special Needs Child (as identified) will be left at a bus stop unless there is a responsible adult present who will assume all responsibility for the child. A parent/guardian may submit a note to dismiss a child to an older sibling or to another adult. If there is no sibling or responsible adult present to retrieve the child, the child will be brought back to the school. Students beyond the kindergarten level will be released from the bus unless the bus driver has concern for the child's safety. Bus drivers will have the discretion to determine if a child should be returned to the school.

Grades K-2 Bus Stop Exception:

Occasionally, a child's designated bus stop is in a location that requires an adult to drive to the bus stop to retrieve his or her child (e.g., bus drop off is not in the child's own neighborhood – it may be a parking lot of a business). When this is the case for a student in grades K-2 and a responsible adult is not present at the bus stop, the child will be brought back to the school; unless a parent/guardian submits a note to dismiss a child to an older sibling or to another adult who will assume all responsibility for the child.

In the event no parent or designee is at the bus stop the procedure will be:

1. The bus driver will contact the district and may bring the child back to the school
2. The school will call the parent/guardian or emergency contact
3. If the parent has not been reached after a reasonable amount of time, the police will be notified.
4. The police and/or school personnel will remain with the child until a responsible adult/guardian is reached.

Recordings used for said purpose shall be retained by the District until the final resolution of any discipline/prosecution, including the time period for appeal or a court ordered retention period (if any). Recordings not used for discipline, law enforcement or court action will be erased and the recorded media reused at the direction of the Superintendent or designee. The Superintendent or designee will be responsible for maintaining a log of the date and names of all individuals who review a recording.

CODE: FOOD ALLERGY POLICY

Category: UPPORT SERVICES

Adopted: 10/2/07

File No.: EFAB

Revised:

The Southwick-Tolland-Granville Regional School District recognizes the increasing prevalence of student allergies and the life-threatening nature of allergies for many students. The school district administration has developed and implemented a policy and protocol to minimize the risk of exposure to allergens that pose a threat to students, to educate all members of the school community on management of student allergies, and to plan for the needs of students with allergies. The schools are committed to working with allergic students and their parents to address the students’ emotional and social needs in addition to their health needs.

Food allergies can be life threatening. The risk of accidental exposure to foods can be reduced in the school setting if schools work with students, parents, and physicians to minimize risks and provide a safe educational environment for food-allergic students.

Family’s responsibility

- Notify the school of the child’s allergies each new school year.
- Work with the school team to develop a plan that accommodates the child’s needs throughout the school including classroom, in the cafeteria, during school sponsored activities, and on the school bus, as well as a Food Allergy Action Plan.
- Provide written medical documentation, instructions, and medications as directed by a physician, using the Food Allergy Action Plan as a guide. Include a photo of a child on a written form.
- Provide properly labeled medications and replace medications after use or upon expiration.
- Encourage parents to have allergic child wear Medic Alert necklace or bracelet.
- Educate the child in the self-management of their food allergy including:
 - safe and unsafe foods
 - strategies for avoiding exposure to unsafe foods

- symptoms of allergic reactions
 - how and when to tell an adult they may be having an allergy-related problem
 - how to read food labels (age appropriate)
- Review policies/procedures with the school staff, the child’s physician, and the child after a reaction has occurred.
 - Provide emergency contact information
 - Parents are strongly encouraged to inform the bus or van driver, and any substitute driver when possible, about their child’s allergy.

School’s responsibility

- Be knowledgeable about and follow applicable federal laws including ADA, IDEA, Section 504, and FERPA and any state laws or district policies that apply.
- Review the health records submitted by parents and physicians.
- Include food-allergic students in school activities. Students should not be excluded from school activities solely based on their food allergy.
- Assure that all staff who interact with the student on a regular basis (including bus, van, and substitute drivers) understand food allergy, can recognize symptoms, knows what to do in an emergency, and works with other school staff to eliminate the use of food allergens in the allergic student’s meals, educational tools, arts and crafts projects, or incentives.
- All staff members who interact with the student on a regular basis will be trained on the management of student allergies. The training will address prevention efforts, information about common allergens, recognition of signs of an allergic reaction including anaphylaxis, and the emergency response plan. The training will be provided annually at the start of the school year.
- Appropriate staff members will be trained regarding the administration of an Epi-pen, as outlined in the Department of Public Health regulations. All staff members will be informed of the location of the Epi-pens.
- Work with the district transportation administrator to assure that school bus/van driver training includes symptom awareness and what to do if a reaction occurs.
- Enforce a “no eating” policy on school buses. Exceptions will be provided for those students with diabetes who may need a snack to treat a hypoglycemic episode or for circumstances where students are traveling for long periods of time. Students will be informed of this policy at the beginning of each school year, and said policy will be included in each school handbook.
- Discuss field trips with the family of food allergic child to plan appropriate strategies for managing the food allergy.
- Follow federal/state/district laws and regulations regarding sharing medical information about the student.
- Take threats or harassment against allergic child seriously.

- Substitute teachers, when applying for employment, will be provided information on the management of student allergies. This information will address prevention efforts, information about common allergies, recognition of signs of an allergic reaction including anaphylaxis, and the emergency response plan.
- An Individual Health Care Plan and Allergy Action Plan that addresses management will be developed for each student with an allergy. A copy of the Allergy Action Plan will be provided to the classroom teacher and substitutes for all preschool to grade 5 students and to all core subject teachers for middle school students. The protocol will address how much information about student allergies will be provided to other personnel, such as specialists, as needed. The implementation of the District protocol and of the individual plan for each allergic student requires a team approach and cooperation among administrators, teachers and other staff members, parents, and the student as appropriate.

Student's responsibility

- Should not trade food with others.
- Should not eat anything with unknown ingredients or known to contain any allergen.
- Should be proactive in the care and management of their food allergies and reactions based on their developmental level.
- Should notify an adult immediately if they eat something they believe may contain food to which they are allergic.

Classroom management procedures

- Appropriate accommodations may be made in the classroom.
- Procedures will address education of parents and student and planning for special events involving food. The protocol will allow for age-appropriate classroom rules. For preschool to grade 4 students, the classroom teacher, in collaboration with the nurse and with input from parents of the food allergic child, will develop classroom specific protocol regarding management of food in the classroom.

Kitchen and cafeteria procedures

- All kitchen staff will only use latex-free gloves
- The school kitchen will prepare all products in a manner that will minimize the risk of cross contamination of foods. The preparation area and all utensils will be washed in hot, soapy water immediately after the completion of the task.
- All food products will be clearly labeled as to ingredients.
- Peanut/nut-free table (or areas of tables) will be provided as needed and will be clearly identified. Allergy tables are to be positioned in a manner that minimizes the isolation of allergic students. When feasible, other students will be encouraged to sit at allergen-free tables if appropriate measures are in place to minimize cross-contamination of the allergen-free tables.
- The staff on lunch duty will ensure that the allergen-free table(s) and chairs will be washed before lunches begin and after each group finishes. The same tables will be used each day and will be clearly marked as allergen-free. Volunteers and/or substitutes will be informed which tables are allergen-free.
- Staff and volunteers on lunch duty shall monitor the students' compliance with the food allergy protocol at allergen-free table(s). They should also be aware of any bullying or teasing behavior toward a food-allergic student and report any such incidents to the administrator.

- Students will be discouraged from sharing any food or utensils throughout the cafeteria.

Procedure for handling epinephrine

- Each school must maintain a current supply of epinephrine by auto-injector (Epi-pens) and must comply with all Department of Public Health regulations for administration, storage, and record-keeping concerning epinephrine.
- The school nurse shall register with the Department of Public Health, and shall train other school personnel to administer epinephrine in accordance with 105 CMR 210.
- All staff members will be informed of the location of the Epi-pens.

Emergency response procedures

- All staff members supervising students with life-threatening allergies must have means of communication to call for assistance.
- The school nurse or another school staff member trained to administer epinephrine in accordance with 105 CMR 210 must be available in each school during the school day and must accompany food allergic student on field trips. The protocol must provide for the management of anaphylaxis in individuals with unknown allergies, including an authorization for administration of epinephrine by the school nurse signed by the school physician.

The implementation of the District protocol and of the individualized plan for each allergic student requires a team approach and cooperation among administrators, teachers and other staff members, parents, and the student as appropriate.

CODE: UNPAID MEAL CHARGE POLICY

Category: Support Services

Adopted: 5/21/2020

File No.: EFDA

Revised:

The School Committee is committed to providing students with healthy, nutritious meals each day so they can focus on school work, while also maintaining the financial integrity of meal programs and minimizing any impact on students with unpaid meal charges (i.e. purchases of meals made against an account with an insufficient balance). However, unpaid meal charges can place a significant financial burden on the School District, as the school nutrition operation is intended to be a self-supporting program within the District and operational deficits must be funded by the general fund or other financial resources of the District. The purpose of this policy is to ensure compliance with federal reporting requirements of the USDA Child Nutrition Program, as well as provide oversight and accountability for the collection of outstanding student meals account balances.

The provisions of this policy pertain to regular priced school meals only.

Meal Charges and Balances

Students will pay for meals at the regular rate approved by the School Committee and for their meal status (regular, reduced-price, or free) each day. Payment options will be delineated in student handbooks and provided to parents of incoming students. All students will be assigned an account by the

School Nutrition Office. After a student's account reaches zero or enters the negative, the student's parent/guardian will be notified by e-mail or phone call that funds must be deposited to avoid interruption to meal purchases. Student's with balances at or below \$0.00 will not be allowed to purchase "a la carte" items including, but not limited to, a second entrée, snack, ice cream, or an additional beverage. For students in grades Pre-K through 6, the student will still be allowed to purchase a qualifying reimbursable meal, and that meal will continue to be charged to the student's account at the standard meal rate based on their meal status. For students in grades 7 through 12, the student will be allowed to purchase a qualifying reimbursable meal until the student's meal account reaches the negative value equivalent to five (5) regular qualifying reimbursable meals. Students in grades 7 through 12 with account balances at or below the negative value equivalent to five (5) regular qualifying reimbursable meals who attempt to purchase meals shall be denied at the point of sale.

Payments

Parents/guardians are responsible for all meal payments to the School Nutrition Program. Notices of low or deficit balances will be sent directly to parents/guardians via email or regular postal mail at regular intervals during the school year. At no time shall any staff member give payment-due notices or account statements to students unless a student is known to be an emancipated minor who is fully responsible for themselves, or is over the age of 18. If parents/guardians have questions or concerns regarding student purchases and/or account balances, they should contact the School Nutrition Office.

Parents/guardians must pay for meals in advance. Further details are available on the District's website and in student handbooks. Sufficient funds should be maintained in student accounts to minimize the possibility that a student may be without a sufficient balance on any given day. At the conclusion of the school year any remaining funds for a particular student, whether positive or negative, will be carried over to the next school year.

All school cafeterias will utilize computerized point-of-sale register systems that maintain records of all monies deposited and spent for each student and those records shall be available to parents through an online account or by speaking with the school's kitchen manager or the Director of School Nutrition. The point-of-sale system shall be designed to prevent direct identification of a student's meal status. Parents/guardians will receive notification of low-balance accounts via email or regular postal mail on a weekly basis, if applicable. For accounts with persistent negative balances, parents/guardians will be contacted by phone by the School Nutrition Office. Accounts that remain at a negative balance for 30-days or more will be referred to the District's Business Office for further collection efforts.

Refunds

Refunds of account balances for withdrawn and graduated students require a written request by the parent/guardian. Parents/guardians of graduated students also have the option to transfer funds to a sibling's account or to donate the balance to another student's account with a written request to the Director of School Nutrition.

Delinquent Accounts/Collections

Accounts that remain in a delinquent status may result in a student's loss of access to extra-curricular school services, especially those that are fee based. Graduating seniors may lose the ability to participate in certain graduation-related activities.

The Superintendent of Schools shall ensure that there are appropriate and effective collection procedures and internal controls within the School District's Business Office that meet the requirements of law.

If a student is without a lunch and his/her meals account is in a delinquent status on a consistent basis, the school administration may investigate the situation more closely and take further action as necessary. If evidence of financial hardship exists or is suspected, parents/guardians will be encouraged to pursue eligibility for free or reduced price meals for their child. Each school handbook shall contain detailed instructions for parental assistance.

Policy Communications

This policy shall be communicated to all related staff and families at the beginning of each school year and to families transferring to the District during the school year.

The School Committee supports the right of students, employees, and community members to have reasonable access to various information formats and believes it is incumbent upon users to utilize this privilege in an appropriate manner.

Safety Procedures and Guidelines

The Superintendent, in conjunction with the Director of Technology, shall develop and implement appropriate procedures to provide guidance for access to digital resources. Guidelines shall address teacher supervision of student computer or tablet use, ethical use of digital resources and issues of privacy versus administrative review of electronic files and communications. In addition, guidelines shall prohibit utilization of digital resources for prohibited or illegal activities and for the use of other programs with the potential of damaging or destroying programs or data.

Internet safety measures shall be implemented that effectively address the following:

- Controlling access by minors to inappropriate matter on the Internet as defined by the Children's Internet Protection Act (CIPA) and the Children's Online Privacy Protection Act (COPPA);
- Safety and security of minors when they are using e-mail, instant messaging applications, and other forms of direct electronic communications;

- Unauthorized disclosure, use and dissemination of personal information regarding minors.

The School District shall provide reasonable public notice to address and communicate its internet safety measures.

Empowered Digital Use

All students and faculty must agree to and sign an Empowered Digital Use form prior to the student or staff member being granted independent access to digital resources and district networks. The required form, which specifies guidelines for using digital resources and district networks, must be signed by the parent or legal guardian of minor students (those under 18 years of age) and also by the student. This document shall be kept on file as a legal, binding document. In order to modify or rescind the agreement, the student's parent/guardian (or the student who is at least 18 years old) must provide the Director of Technology with a written request.

All guests will be prompted to, and must accept, the district's Access to Digital Resources Policy before accessing the district network.

Disregard of Rules and Responsibility for Damages

Individuals who refuse to sign required Empowered Digital Use documents or who violate district rules governing the use of district technology or networks shall be subject to loss or restriction of the privilege of using equipment, software, information access systems, and network

Individuals shall reimburse the district for repair or replacement of district property lost, stolen, damaged, or vandalized while under their care.

File No.: IJNDB

Adopted: 6/7/05

Revised: 5/21/2019

Purpose

The School Committee recognizes the need for students to be prepared to contribute to and excel in a connected, global community. To that end, the District provides ongoing student instruction that develops digital citizenship skill sets for using technology as a tool. Information and communication technology are an integrated part of our curriculum across subjects and grades in developmentally appropriate ways and are aligned with the Massachusetts Curriculum Frameworks and standards, including seeking knowledge and understanding; thinking critically and solving problems; listening, communicating, and interacting effectively; and engaging and competing in a global environment.

Availability

The Superintendent or designee shall implement, monitor, and evaluate the District's system/network for instructional and administrative purposes.

All users shall acknowledge that they understand that using digital devices, whether personal or school owned, as well as the school District network is a privilege and when using them in accordance with School District guidelines users will retain that privilege.

The Superintendent or designee shall develop and implement administrative guidelines, regulations, procedures, and user agreements, consistent with law and policy, which shall include but not be limited to the following:

- Digital devices, software, and networks shall be used in school for educational purposes and activities.

- The District will comply with all relevant privacy laws relating to personal information that is disseminated using the District's system/network (including home/mobile phone numbers, mailing addresses, and passwords).
- Individuals will show respect for themselves and others when using technology including social media. (CROSS REF: IJNDD Policy on Social Media)
- Users shall give acknowledgement to others for their ideas and work.
- Users shall report inappropriate use of technology immediately.
- The Network is the property of the STGRSD and its storage systems are therefore subject to inspection by the administration at any time. As such, users should be aware that routine maintenance and monitoring of the system may lead to discovery that the user has violated or is violating the STGRSD Empowered Digital Use District Policy, and/or the law. System users should not have an expectation of privacy to the contents of their personal files on the Network.
- If there is suspicion that a user has violated the Empowered Digital Use District Policy or the law an individual search will be conducted. The nature of the investigation will be in the context of the nature of the alleged violation.

These procedures shall be reviewed annually by District administration together with students and teachers and shall provide a springboard for teaching and learning around topics such as Internet safety, digital citizenship, and ethical use of technology.

Parent/Guardian Notification

The STGRSD Empowered Digital Use Policy establishes expectations for appropriate behavior when using District technology. There is a wide range of material available on the Internet, some of which may not be in concert with the particular values of the families of students. It is not practically possible for the STGRSD to monitor and enforce a wide range of social values in student use of the Internet. Further, the District recognizes that parents/guardians bear primary responsibility for communicating their particular set of family values to their children. The District will encourage parents/guardians to specify to their children what material they believe is and is not acceptable for their children to access through the Network. The District will utilize an Empowered Digital Use Form to inform students about what type of materials and behaviors are acceptable and expected. STGRSD will also provide students with instruction about personal safety and well-being while using the Internet and technology through the Massachusetts Digital Literacy and Computer Science curriculum.

District Limitation of Liability

The STGRSD makes no warranties of any kind, either expressed or implied, that the functions or the services provided by or through its Network will be error free or without defect. The District will not be responsible for any damages users may suffer, including but not limited to loss of data, interruptions of service, or physical, psychological, or monetary damages. The District is not responsible for the accuracy or quality of the information obtained through or stored on the system. The District will not be responsible for unauthorized financial obligations arising through the use of the system.

When inappropriate use of computers and websites is discovered, the School Principals and Superintendent will promptly bring that inappropriate use to the attention of the District employee and may consider and apply disciplinary action up to and including termination.

McKinney Vento Homeless Assistance Act

In compliance with the federal McKinney-Vento Homeless Education Assistance Act the STGRSD will immediately enroll homeless students in school, even if they do not have the documents usually required for enrollment, such as school records, medical records or proof of residency. If a homeless child or youth arrives without immunizations or medical records, the parent/guardian will be referred to the STGRSD Homeless Education Liaison. The Homeless Education Liaison will have the responsibility to obtain relevant academic records, immunizations and/or medical records and to ensure that homeless students are attending school while the records are obtained.

It is the policy of the STGRSD that a child is homeless if living in one of the following situations:

- In a shelter, motel, vehicle or campground

- In an abandoned building or trailer
- Doubled-up with friends or relatives

If a child lives in any of the situations noted above, the STGRSD Homeless Education Liaison will:

- Help to immediately enroll the child in school
- Assist the child in staying in their old school or the school closest to where they are presently staying
- Put transportation in place to and from school
- Ensure that the child gets automatic free breakfast and lunch

CODE: STUDENT ABSENCES AND EXCUSES

Category: Students

Adopted: 10/4/05

File No.: JH

Revised: 10/21/14

Regular and punctual school attendance is essential for success in school. The Committee recognizes that parents of children attending our schools have special rights as well as responsibilities, one of which is to ensure that their children attend school regularly, in accordance with state law.

Therefore, students may be excused temporarily from school attendance for the following reasons: illness or quarantine; bereavement or serious illness in family; weather so inclement as to endanger the health of the child; and observance of major religious holidays.

A child may also be excused for other exceptional reasons with approval of the Principal or designee.

A student's understanding of the importance of day-to-day schoolwork is an important factor in the shaping of his character. Parents can help their children by not allowing them to miss school needlessly.

Accordingly, parents will provide a written explanation for the absence or tardiness of a child. This will be required in advance for types of absences where advance notice is possible.

In instances of chronic or irregular absence reportedly due to illness, the school administration may request a physician's statement certifying such absences to be justified.

Student Absence Notification Program

Each Principal or designee will notify a student's parent/guardian within 3 days of the student's absence in the event the parent/guardian has not informed the school of the absence.

Each Principal or designee shall meet with any student, and that student's parent/guardian, who has missed five (5) or more unexcused school days (a school day shall be equal to two (2) or more class periods in the same day) in a school year. The meeting shall be to develop action steps to improve student attendance and shall be developed jointly by the Principal or designee, the student, and the student's parent/guardian. The parties may seek input from other relevant school staff and/or officials from relevant public safety, health and human service, housing, and nonprofit agencies.

Dropout Prevention

No student who has not graduated from high school shall be considered permanently removed from school unless the Principal or designee has sent notice to a student, and that student's parent/guardian, who has been absent from school for ten (10) consecutive days of unexcused absence. The notice shall be sent within five (5) days of the tenth consecutive day of absence and shall offer at least 2 dates and times within the next ten (10) days for an exit interview with the Superintendent or designee, the student, and the student's parent/guardian. The notice shall be in both English and the primary language of the home, if applicable.

The notice shall include contact information for scheduling the exit interview and shall indicate the parties shall reach an agreement on the date/time of the interview within the ten (10) day timeframe. The timeframe may be extended at the request of the parent/guardian and no extension shall exceed 14 days.

The Superintendent or designee may proceed with any interview without a parent/guardian present, provided the Superintendent or designee has documented a good faith effort to include the parent/guardian.

The Superintendent or designee shall convene a team of school staff to participate in the exit interview and shall provide information to the student and, if applicable, the student's parent/guardian on the detrimental effects of early withdrawal from school and the alternative education programs and services available to the student.

CODE: STUDENT RIGHTS AND RESPONSIBILITIES

Category: Students

Adopted: 10/4/05

File No.: JI

Revised:

The school committee has the responsibility to afford students the rights that are theirs by virtue of guarantees offered under the federal and state constitutions and statutes. In connection with rights there are responsibilities that must be assumed by students.

Among these rights and responsibilities are the following:

1. Civil rights – including the rights to equal educational opportunity and freedom from discrimination; the responsibility not to discriminate against others.
2. The right to attend free public schools; the responsibility to attend school regularly and to observe school rules essential for permitting others to learn at school.
3. The right to due process of law with respect to suspension, expulsion, and decisions the student believes injures his rights.
4. The right to free inquiry and expression; responsibility to observe reasonable rules regarding these rights.
5. The right of privacy, which includes privacy in respect to the student's school records.

It is the school committee's belief that as part of the educational process students should be made aware of their legal rights and of the legal authority of the school committee to make, and delegate authority to its staff to make, rules regarding the orderly operation of the schools.

Students have the right to know the standards of behavior that are expected of them, and the consequences of misbehavior.

The rights and responsibilities of students, including standards of conduct, will be made available to students and their parents through handbooks distributed annually.

LEGAL REFS.: M.G.L. 71:37H; 71:82 through 71:86

CODE: STUDENT CONDUCT

Category: Students

Adopted: 10/4/05

File No.: JIC

Revised: 10/21/14, 4/24/2018

The School Committee believes that all students deserve every opportunity to achieve academic success in a safe, secure learning environment. Good citizenship in schools is based on respect and consideration for the rights of others. Students will be expected to conduct themselves in a way that the rights and privileges of others are not violated. They will be required to respect constituted authority, to conform to school rules and to those provisions of law that apply to their conduct.

Each Principal or designee shall include prohibited actions in the student handbook or other publication and made available to students and parents.

Principals/designee and staff shall not use academic punishment of any form as a consequence to inappropriate behaviors/actions by students.

The Principal or designee may, as a disciplinary measure, remove a student from privileges, such as extracurricular activities and attendance at school-sponsored events, based on the student's misconduct. Such a removal is not subject to the remainder of this policy, law, or regulation.

Suspension

In every case of student misconduct for which suspension may be imposed, a Principal or designee shall consider ways to re-engage the student in learning; and avoid using long-term suspension from school as a consequence until alternatives have been tried. Alternatives may include the use of evidence-based strategies and programs such as mediation, conflict resolution, restorative justice, and positive behavioral interventions and supports.

Notice of Suspension

Except for emergency removal or an in-school suspension of less than 10 days, a Principal or designee must provide the student and the parent oral and written notice, and provide the student an opportunity for a hearing and the parent an opportunity to participate in such hearing before imposing suspension as a consequence for misconduct. The Principal or designee shall provide both oral and written notice to the student and parent(s) in English and in the primary language of the home if other than English. The notice shall include the rights enumerated in law and regulation. To conduct a hearing without a parent present, the Principal or designee must be able to document reasonable efforts to include the parent.

Emergency Removal

A Principal or designee may remove a student from school temporarily when a student is charged with a disciplinary offense and the continued presence of the student poses a danger to persons or property, or materially and substantially disrupts the order of the school, and, in the Principal's or designee's judgment, there is no alternative available to alleviate the danger or disruption.

The Principal or designee shall immediately notify the Superintendent in writing of the removal including a description of the danger presented by the student.

The temporary removal shall not exceed two (2) school days following the day of the emergency removal, during which time the Principal or designee shall: Make immediate and reasonable efforts to orally notify the student and the student's parent of the emergency removal, the reason for the need for emergency removal, and the other matters required in the notice; Provide written notice to the student and parent as required above; Provide the student an opportunity for a hearing with the Principal or designee that complies with applicable regulations, and the parent an opportunity to attend the hearing, before the expiration of the two (2) school days, unless an extension of time for hearing is otherwise agreed to by the Principal or designee, student, and parent; render a decision orally on the same day as the hearing, and in writing no later than the following school day, which meets the requirements of applicable law and regulation.

A Principal or designee shall also ensure adequate provisions have been made for the student's safety and transportation prior to removal.

In School Suspension – Not More Than 10 Days Consecutively or Cumulatively

The principal or designee may use in-house suspension as an alternative to a short-term suspension. It is the principal's responsibility to inform the student of the disciplinary charge and to provide the student the opportunity to dispute the charges and explain the circumstances. If the principal determines that the student committed the offense, the principal must inform the student of the length of the suspension which may not exceed ten days cumulatively or consecutively, in a school year.

It is the principal's, or designee's, responsibility to orally inform the parent of the disciplinary offense, the reasons for concluding that the student committed the infraction and the length of the in-school suspension.

The principal must also invite the parent/guardian to a meeting to discuss the student's academic performance and behavior, strategies for student engagement, and possible responses to the behavior. The principal needs to schedule the parent/guardian meeting for the day of the suspension or as soon as possible, and must document at least two attempts to reach the parent for the purpose of orally informing the parent. Additionally, the principal must send written notice to the student and the parent/guardian about the in-school suspension, inviting the parent to a meeting if such meeting has not occurred, which must be delivered on the day of the suspension.

Principal's or Designee's Hearing – Short Term Suspension of up to 10 Days

The hearing with the Principal or designee shall be to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student committed the disciplinary offense, and if so, the consequences for the infraction.

At a minimum, the Principal or designee shall discuss the disciplinary offense, the basis for the charge, and any other pertinent information.

The student also shall have an opportunity to present information, including mitigating facts, that the Principal or designee should consider in determining whether other remedies and consequences may be appropriate as set forth in law and regulation.

The Principal or designee shall provide the parent, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the Principal should consider in determining consequences for the student.

The Principal or designee shall, based on the available information, including mitigating circumstances, determine whether the student committed the disciplinary offense, and, if so, what remedy or consequence will be imposed.

The Principal or designee shall notify the student and parent of the determination and the reasons for it, and, if the student is suspended, the type and duration of suspension and the opportunity to make up assignments and such other school work as needed to make academic progress during the period of removal, as required by law and regulation. The determination shall be in writing and may be in the form of an update to the original written notice.

If the student is in a public preschool program or in grades K through 3, the Principal or designee shall send a copy of the written determination to the Superintendent and explain the reasons for imposing an out-of-school suspension, before the short-term suspension takes effect.

Principal's or Designee's Hearing – Long Term Suspension of more than 10 days but less than 90 days (consecutive or cumulative)

The hearing with the Principal or designee shall be to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student committed the disciplinary offense, and if so, the consequences for the infraction.

At a minimum, in addition to the rights afforded a student in a short-term suspension hearing, the student shall have the following rights: In advance of the hearing, the opportunity to review the student's record and the documents upon which the Principal or designee may rely in making a determination to suspend the student or not; The right to be represented by counsel or a lay person of the student's choice, at the student's/parent's expense; The right to produce witnesses on his or her behalf and to present the student's explanation of the alleged incident, but the student may not be compelled to do so; The right to cross-examine witnesses presented by the school district; The right to request that the hearing be recorded by the Principal or designee, and to receive a copy of the audio recording upon request. If the student or parent requests an audio recording, the Principal or designee shall inform all participants before the hearing that an audio record will be made and a copy will be provided to the student and parent upon request.

The Principal or designee shall provide the parent, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the Principal or designee should consider in determining consequences for the student.

The Principal or designee shall, based on the evidence, determine whether the student committed the disciplinary offense, and, if so, after considering mitigating circumstances and alternatives to suspension as required by law and regulation, what remedy or consequence will be imposed, in place of or in addition to a long-term suspension. The Principal or designee shall send the written determination to the student and parent by hand-delivery, certified mail, first-class mail, email to an address provided by the parent for school communications, or any other method of delivery agreed to by the Principal or designee and the parent.

If the Principal or designee decides to suspend the student, the written determination shall: Identify the disciplinary offense, the date on which the hearing took place, and the participants at the hearing; Set out the key facts and conclusions reached by the Principal or designee; Identify the length and effective date of the suspension, as well as a date of return to school; Include notice of the student's opportunity to receive education services to make academic progress during the period of removal from school as required by law and regulation; Inform the student of the right to appeal the Principal's or designee's decision to the Superintendent or designee,

but only if the Principal or designee has imposed a long-term suspension. Notice of the right of appeal shall be in English and the primary language of the home if other than English, and shall include the following information: The process for appealing the decision, including that the student or parent must file a written notice of appeal with the Superintendent within five (5) calendar days of the effective date of the long-term suspension; provided that within the five (5) calendar days, the student or parent may request and receive from the Superintendent an extension of time for filing the written notice for up to seven (7) additional calendar days; and that the long-term suspension will remain in effect unless and until the Superintendent decides to reverse the Principal's or designee's determination on appeal.

If the student is in a public preschool program or in grades K through 3, the Principal or designee shall send a copy of the written determination to the Superintendent and explain the reasons for imposing an out-of-school suspension before the suspension takes effect.

Superintendent's Hearing

A student who is placed on long-term suspension following a hearing with the Principal or designee shall have the right to appeal the Principal's or designee's decision to the Superintendent.

The student or parent shall file a notice of appeal with the Superintendent within the time period noted above (see Principal or designee's hearing – Suspension of more than 10 days). If the appeal is not timely filed, the Superintendent may deny the appeal, or may allow the appeal in his or her discretion, for good cause.

The Superintendent shall hold the hearing within three (3) school days of the student's request, unless the student or parent requests an extension of up to seven (7) additional calendar days, in which case the Superintendent shall grant the extension.

The Superintendent shall make a good faith effort to include the parent in the hearing. The Superintendent shall be presumed to have made a good faith effort if he or she has made efforts to find a day and time for the hearing that would allow the parent and Superintendent to participate. The Superintendent shall send written notice to the parent of the date, time, and location of the hearing.

The Superintendent shall conduct a hearing to determine whether the student committed the disciplinary offense of which the student is accused, and if so, what the consequence shall be. The Superintendent shall arrange for an audio recording of the hearing, a copy of which shall be provided to the student or parent upon request. The Superintendent shall inform all participants before the hearing that an audio record will be made of the hearing and a copy will be provided to the student and parent upon request. The student shall have all the rights afforded the student at the Principal's or designee's hearing for long-term suspension.

The Superintendent shall issue a written decision within five (5) calendar days of the hearing which meets the requirements of law and regulation. If the Superintendent determines that the student committed the disciplinary offense, the Superintendent may impose the same or a lesser consequence than the Principal or designee, but shall not impose a suspension greater than that imposed by the Principal's or designee's decision. The decision of the Superintendent shall be the final decision of the school district with regard to the suspension.

Expulsion

Expulsion is defined as the removal of a student from school for more than ninety (90) school days, indefinitely, or permanently as allowed by law for possession of a dangerous weapon; possession of a controlled substance; assault on a member of the educational staff; or a felony charge or felony delinquency complaint or conviction, or adjudication or admission of guilt with respect to such felony, if a Principal or designee determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school.

Any student alleged to have committed one of these acts shall be afforded the same due process rights as for a long term suspension. Any student expelled from school for such an offense shall be afforded an opportunity to receive educational services and make academic progress.

Academic Progress

Any student who is suspended or expelled shall have the opportunity to earn credits, make up assignments, tests, papers, and other school work as needed to make academic progress during the period of his or her removal from the classroom or school. The Principal or designee shall inform the student and parent of this opportunity in writing, in English and in the primary language of the home, when such suspension or expulsion is imposed.

Any student who is expelled or suspended from school for more than ten (10) consecutive days, whether in school or out of school, shall have an opportunity to receive education services and make academic progress toward meeting state and local requirements, through the school-wide education service plan.

The Principal or designee shall develop a school-wide education service plan describing the education services that the school district will make available to students who are expelled or suspended from school for more than ten (10) consecutive days. The plan shall include the process for notifying such students and their parents of the services and arranging such services. Education services shall be based on, and be provided in a manner consistent with, the academic standards and curriculum frameworks established for all students under the law.

The Principal or designee shall notify the parent and student of the opportunity to receive education services at the time the student is expelled or placed on long-term suspension. Notice shall be provided in English and in the primary language spoken in the student's home if other than English, or other means of communication where appropriate. The notice shall include a list of the specific education services that are available to the student and contact information for a school district staff member who can provide more detailed information.

For each student expelled or suspended from school for more than ten (10) consecutive days, whether in-school or out-of-school, the school district shall document the student's enrollment in education services. For data reporting purposes, the school shall track and report attendance, academic progress, and such other data as directed by the Department of Elementary and Secondary Education.

Reporting

The school district shall collect and annually report data to the DESE regarding in-school suspensions, short- and long-term suspensions, expulsions, emergency removals, access to education services, and such other information as may be required by the DESE.

The Principal or designee of each school shall periodically review discipline data by selected student populations, including but not limited to race and ethnicity, gender, socioeconomic status, English language learner status, and student with a disability status in accordance with law and regulation.

The responsibility for the dress and appearance of the students will rest with individual students and parents/guardians.

They have the right to determine how the student will dress providing that attire is not destructive to school property, complies with requirements for health and safety, and does not cause disorder or disruption. The administration is authorized to take action in instances where individual dress does not meet the stated requirements.

This does not mean that student, faculty, or parent groups may not recommend appropriate dress for school or special occasions. It means that students will not be prevented from attending school or a school function, or otherwise be discriminated against, so long as their dress and appearance meet the requirements set forth above.

BUS REGULATIONS

Transportation by school bus to and from school is a privilege for all pupils who qualify according to the Rules and Regulations of the School Committee and the Laws of the Commonwealth of Massachusetts. The school bus is an extension of the school itself and rules regarding behavior are the same as in school. It should be understood that the right of a pupil to transportation to and from school is a qualified right dependent on good behavior. Some of the following regulations are supported by State Law, violations to parts of the following rules are punishable by fines:

1. On roads and highways where there are no sidewalks, students walk on the side facing traffic to and from a bus stop.
2. Students must be on time at pick-up point, the bus stop, five minutes before the regular pick-up time. Dogs should be restrained in homes until after bus leaves in the morning.
3. While waiting for the bus, students do not run, push, or play games. They must respect other people's property.
4. Students must be courteous! They will not push or shove on entering or leaving the bus. They will leave the bus promptly at their destination.
5. When crossing the highway after alighting from the bus, students cross only after the driver signals that it is safe to cross. They will pass ten feet in front of the bus and look for the traffic in both directions before crossing the highway.
6. Students will take their seats promptly on entering the bus and remain in it until they arrive at their destination.
7. Students will ride only on their assigned bus; seats may be assigned by the Bus Driver.
8. Students will not use profane, loud, or boisterous talk or make other noises that might distract the driver in whose hands are the lives of all children.
9. Students will be respectful to the bus driver. He/She has a very important task to perform and he/she needs help. His/Her eyes and ears need to be focused on the road in order to drive safely to and from school.
10. The school bus is a "classroom on wheels." Students will conduct themselves as they would in school. On the bus there will be no fighting or roughhousing, no insubordination, swearing or obscene gestures, no possession, consumption or sale of drugs or alcohol or any types of behavior where other school disciplinary conduct rules and regulations may apply.
11. Students will not enter into conversation with the driver while the bus is in motion, but will report any emergency to him/her at once!

12. No senior high school student at any time may ride home from school on an afternoon elementary or middle school bus without permission of his/her principal or assistant principal.
13. Students do not bring animals, pets, explosives, weapons of any sort, or large objects on the school bus.
14. Students keep their backpacks, books, musical instruments, and athletic equipment out of the aisles. They keep the bus neat and do not mark, cut, or break any part of the bus.
15. Students do not throw anything in the bus or out the windows. They do not put their hands, arms, or other parts of their body out the windows or rear exit door of the bus at any time.
16. Generally, there will be no eating or drinking on the bus. When eating and/or drinking on the bus is permitted it will be at the discretion of the bus driver.

The school administration may deprive pupils of the privilege of riding the school bus for a reasonable length of time if the pupils violate these rules. In all cases, a report must be made to the parents.

STGRSD Summary for Parents/Guardians for Handbooks

On May 3, 2010, Governor Patrick signed an Act Relative to Bullying in Schools. This new law prohibited bullying and retaliation in all public and private schools, and requires schools and school districts to take certain steps to address bullying incidents.

This plan is updated to reflect M.G.L. c. 71, § 37O as amended by Chapter 86 of the Acts of 2014 and Sections 72-74 of Chapter 38 of the Acts of July 2013, which changed the definition of “perpetrator” to include “a member of a school staff, including, but not limited to an educator, administrator, school, nurse, cafeteria worker, custodian, bus driver, athletic coach, advisor to an extracurricular activity or paraprofessional.” The amendment also made the plan applicable to school staff, including but not limited to, the individual listed in the amended perpetrator definition.

These requirements are included in the district’s Bullying Prevention and Intervention Plan (“the Plan”). The Plan includes the requirements of the law, and information about the policies and procedures that the school or school district will follow to prevent bullying and retaliation, and to respond to it when it occurs.

This Plan will be reviewed biennially by the Superintendent and/or her/his designee, as mandated by M.G.L. c. 71, § 37O (5) (d). Consultation will include, at a minimum, notice on the STGRSD website, and a public comment period prior to adoption.

Definition of Terms

In order to work as collaboratively and as efficaciously as possible and to prevent and intervene on all acts of bullying, it is essential for school personnel, students, parents or guardians, law enforcement agencies, and other interested parties to use common language.

Aggressor, as defined in M.G. L. c.71, §37O, is a student or a member of a school staff including, but not limited to, and educator, administrators, school nurse, cafeteria worker, custodian, bus driver, athletic coach, advisor to an extracurricular activity, or paraprofessional who engages in bullying or retaliation towards a student.

Bullying, as defined in M.G.L. c. 71, § 37O, is the repeated use by one or more students or a member of a school staff of a written, verbal, or electronic expression or a physical act or gesture or any combination thereof, directed at a target that:

1. Causes physical or emotional harm to the target or damage to the target’s property;
2. Places the target in reasonable fear of harm to himself or herself or of damage to his or her property;
3. Creates a hostile environment at school for the target;
4. Infringes on the rights of the target at school; or
5. Materially and substantially disrupts the education process or the orderly operation of a school.

Cyber-bullying, is bullying through the use of technology or electronic devices such as telephones, cell phones, computers, and the Internet. It includes, but is not limited to, email, instant messages, text messages, and Internet postings. See M.G.L. c. 71, § 37O for the legal definition of cyberbullying.

Hostile environment, as defined in M.G.L. c. 71, § 37O, is a situation in which bullying causes the school environment to be permeated with intimidation, ridicule, or insult that is sufficiently severe or pervasive to alter the conditions of a student's education.

Retaliation is any form of intimidation, reprisal, or harassment directed against a student who reports bullying, provides information during an investigation of bullying, or witnesses or has reliable information about bullying.

School Staff includes, but is not limited to, educators, administrators, counselors, school nurses, cafeteria workers, custodians, bus drivers, and athletic coaches, advisors to extracurricular activities, support staff, or paraprofessionals.

Target is a student against whom bullying, cyberbullying, or retaliation has been perpetrated.

Prohibition against Bullying

Bullying is prohibited:

- on school grounds,
- on property immediately adjacent to school grounds,
- at a school-sponsored or school-related activity, function, or program, whether it takes place on or off school grounds,
- at a school bus stop, on a school bus or other vehicle owned, leased, or used by a school district or school,
- through the use of technology or an electronic device that is owned, leased or used by a school district or school (for example, on a school computer or over the Internet using a school computer),
- at any program or location that is not school-related, or through the use of personal technology or electronic devices, if the bullying creates a hostile environment at school for the target, infringes on the rights of the target at school, or materially and substantially disrupts the education process or the orderly operation of a school.
- Nothing contained herein shall require schools to staff any non-school related activities, functions, or programs.

Retaliation against a person who reports bullying, provides information during an investigation of bullying, or witnesses or has reliable information about bullying is prohibited.

Reporting Bullying

To support efforts to respond promptly and effectively to bullying and retaliation, the STGRSD has policies and procedures in place for receiving and responding to reports of bullying or retaliation. These

policies and procedures will ensure that members of the school community – students, parents, and staff – know what will happen when incidents of bullying occur.

Reporting bullying or retaliation

Reports of bullying or retaliation may be made by staff, students, parents or guardians, or others, and may be oral or written. Oral reports made by or to a staff member must be recorded in writing. All employees are required to report immediately to the principal or designee any instance of bullying or retaliation the staff member becomes aware of or witnesses. Reports made by students, parents or guardians, or other individuals who are not school or district staff members, may be made anonymously. The school or district will make a variety of reporting resources available to the school community including, but not limited to, an Incident Reporting Form and each school’s telephone number.

Use of an Incident Reporting Form is not required as a condition of making a report. The school or district will: 1) include a copy of the Incident Reporting Form in the beginning of the year packets for students and parents or guardians; 2) make it available in the school’s main office, the counseling office, the school nurse's office, and other locations determined by the principal or designee; and 3) post it on the district’s website. The Incident Reporting Form will be made available in the most prevalent language(s) of origin of students and parents or guardians.

School staff members must report immediately to the principal or his/her designee if they witness or become aware of bullying or retaliation. Staff members include, but are not limited to, educators, administrators, counselors, school nurses, cafeteria workers, custodians, bus drivers, athletic coaches, advisors to an extracurricular activity, and paraprofessionals.

When the school principal or his/her designee receives a report, he or she shall promptly conduct an investigation. If the school principal or designee determines that a violation of the district’s anti-bullying policy has occurred he or she shall (i) notify the parents or guardians of the target, and to the extent consistent with state and federal law, notify them of the action taken to prevent any further acts of bullying or retaliation; (ii) notify the parents or guardians of the aggressor; (iii) take appropriate disciplinary action; and (iv) notify the local law enforcement agency if the school principal or designee believes that criminal charges may be pursued against the aggressor.

Professional Development for School and District Staff

The STGRSD will provide ongoing professional development to increase the skills of all staff members to prevent, identify, and respond to bullying.

The School committee recognizes that today's society is different from previous generations. Cell phones and portable communication devices (PCDs) play an important part in employee and student safety and communications. Cell phones and PCDs are defined as current and emerging technologies that are wireless units that send and/or receive electronic communications in an analog or digital data transmission. The possession or use of cell phones and PCDs are prescribed for employees and students as follows:

Employees

1. Employees of Southwick-Tolland-Granville Regional School District are granted permission to possess and use cell phones and PCDs in the official job capacity consistent with their job descriptions.
2. Employees who own a personal cell phone and /or PCD must ensure that the device does not ring or interrupt the academic classroom environment or the job performance of the employee. Employees must take pro-active steps to ensure that the cell phones do not ring during their instructional hours and meetings which are obligations of the job.

Students

1. Students may possess and carry cell phones and PCDs; however, these units must be "off and away" during the academic school day to ensure that disruptions and interference of the instructional and academic climate of the school do not occur. Only high school students may use cell phones during lunch blocks and passing times.

2. Non high school students may not use or operate cell phones or PCDs during the school day. The “school day” is defined as once the first hour starts and throughout the day until the last period is over.
3. The school administration may, in its sole discretion, grant exceptions for cell phones and PCD use based upon critical need and appropriate documentation.
4. STGRSD School Administration will take possession of any cell phones or PCD’s used during the school day and follow disciplinary action as outlined in the student handbook. Cell phones and PCD’s will be returned only to a parent or guardian.

Revised: 12/7/2021

Southwick-Tolland-Granville Regional School District is committed to ensuring the health and safety of all our students. The following concussion policy is in compliance with the MIAA policy and with the Commonwealth of Massachusetts General Law (105 CMR 201): Head Injuries and Concussions in Extracurricular Athletic Activities.

The Athletic Director of Southwick Regional School shall be the person responsible for the implementation of these polices and protocols for all high school athletics.

As specified in the law, the athletic department shall require annual training in the prevention and recognition of sports-related head injury and keep documentation of said training on file for the following persons:

- Athletic Director
- Certified Athletic Trainers
- Coaches
- Volunteers
- School Physicians
- School Nurses
- Marching band directors
- Intramural supervisors
- Parents of a student who participates in athletics
- Students who participate in athletics

(Parents and students will sign off that they have received the materials at the mandatory information meeting)

Coaches, trainers, and volunteers will be responsible for teaching proper form, technique, and skills that minimize the risk for sports related head injury.

Parents must provide information regarding any prior head injury, including concussions, on the athletics emergency medical form and must inform the school of any head injury or concussion that may occur outside of school. Parents and students must fill out all appropriate forms, including a sports physical examination, in order to be deemed eligible to participate in athletics.

The following procedures will be followed in the event an athlete is suspected to have suffered a concussion:

- The athlete will be removed from participation and will not be allowed to return that day
- When available, the athletic trainer will conduct an evaluation and assessment of the concussion. The athletic trainer will then notify the parents/guardians and recommend referral to a physician if they suspect a concussion. If the athletic trainer is not available (i.e. away games), the coach will notify the parents/guardians and recommend that the athlete see their Primary Care Physician or another health care professional.
- The athletic trainer or coach will notify the athletic director and school nurse and fill out the Concussion Reporting Form.
- The school nurse will contact the athlete's teachers and guidance counselor to make any academic accommodations necessary.
- The athlete will only be allowed to return to play after being cleared by the medical provider that diagnosed the concussion, and after completion of the prescribed Return to Play Protocol (see "Return to Play Protocol" in the Athletic Handbook) conducted by the athletic trainer or, if no athletic trainer is available, the designee of the Athletic Director.

A copy of this policy will be made available in the Southwick Regional School handbook, the Southwick Regional School Athletics handbook, and on the school district webpage.

CODE: STUDENT CONDUCT

Adopted: 10/4/05

Revised: 10/21/14

The Massachusetts General Laws require the School Committee to adopt written policies, rules and regulations not inconsistent with law, which may relate to study, discipline, conduct, safety and welfare of all students, or any classification thereof, enrolled in the public schools of the District.

The implementation of the general rules of conduct is the responsibility of the Principal and the professional staff of the building. In order to do this, each school staff in the District shall develop specific rules not inconsistent with the law nor in conflict with School Committee policy. These building rules shall be an extension of the District policies by being more specific as they relate to the individual schools.

The purpose of disciplinary action is to restore acceptable behavior. When disciplinary action is necessary, it shall be administered with fairness and shall relate to the individual needs and the individual circumstances.

Students violating any of the policies on student conduct and control will be subject to disciplinary action. The degree, frequency, and circumstances surrounding each incident shall determine the method used in enforcing these policies. Most of the situations which require disciplinary action can be resolved within the confines of the classroom or as they occur by reasonable but firm reprimand, and/or by teacher conferences with the student and/or parents or guardians.

If a situation should arise in which there is no applicable written policy, the staff member shall be expected to exercise reasonable and professional judgment.

CODE: PHYSICAL RESTRAINT OF STUDENTS

Adopted: 12/4/01

File No.: JKAA

**Revised: 11/02/2015;
5/5/2020**

Maintaining an orderly, safe environment conducive to learning is an expectation of all staff members of the school district. Further, students of the district are protected by law from the unreasonable use of physical restraint. Such restraint shall be used only in emergency situations of last resort after other lawful and less intrusive alternatives have failed or been deemed inappropriate, and with extreme caution.

When an emergency situation arises, and physical restraint is the only option deemed appropriate to prevent a student from injuring himself or herself, another student or school community member, a teacher or employee or agent of the school district may use such reasonable force needed to protect students, other persons or themselves from assault or imminent, serious, physical harm. The definitions of forms of restraint shall be as defined in 603CMR 46.02.

The use of mechanical restraint, medication restraint, and seclusion is prohibited. Physical restraint, including prone restraint where permitted under 603 CMR 46.03, shall be considered an emergency procedure of last resort and shall be prohibited except when a student's behavior poses a threat of assault, or imminent, serious, physical harm to themselves and/or others and the student is not responsive to verbal directives or other lawful and less intrusive behavior interventions are deemed inappropriate.

The Superintendent, or designee, will develop procedures identifying:

- Appropriate responses to student behavior that may require immediate intervention;
- Methods of preventing student violence, self-injurious behavior, and suicide including crisis planning and de-escalation of potentially dangerous behaviors among groups of students or individuals;
- Descriptions and explanations of alternatives to physical restraint as well as the school's method of physical restraint for use in emergency situations;
- Descriptions of the school's training and procedures to comply with reporting requirements; including, but not limited to making reasonable efforts to orally notify a parent/guardian of the use of restraint within 24 hours of its imposition;
- Procedures for receiving and investigating complaints;
- Methods for engaging parents/guardians in discussions about restraint prevention and use of restraint solely as an emergency procedure;
- A statement prohibiting: medication restraint, mechanical restraint, prone restraint unless permitted by 603 CMR 46.03(1)(b), seclusion, and the use of physical restraint in a manner inconsistent with 603 CMR 46.00,
- A process for obtaining Principal approval for a time out exceeding 30 minutes.

Each building Principal will identify staff members to serve as a school-wide resource to assist in ensuring proper administration of physical restraint. These staff members will participate in an in-depth training program in the use of physical restraint.

In addition, each staff member will be trained regarding the school's physical restraint policy and accompanying procedures. The Principal will arrange training to occur in the first month of each school year, or for staff hired after the beginning of the school year, within a month of their employment.

Physical restraint is prohibited as a means of punishment, or as a response to destruction of property, disruption of school order, a student's refusal to comply with a school rule or staff directive, or verbal threats that do not constitute a threat of imminent, serious physical harm to the student or others.

Physical restraint is prohibited when it is medically contraindicated for reasons including, but not limited to, asthma, seizures, a cardiac condition, obesity, bronchitis, communication-related disabilities, or risk of vomiting;

The use of "time out" procedures during which a staff member remains accessible to the student shall not be considered "seclusion restraint".

This policy and its accompanying procedures shall be reviewed and disseminated to staff annually and made available to parents/guardians of enrolled students. The Superintendent shall provide a copy of the Physical Restraint regulations to each Principal, who shall sign a form acknowledging receipt thereof.

PHYSICAL EXAMS

Regular physical exams are important for all children and adolescents, especially those who do not have primary care providers. The objective is to identify and follow up on any health conditions that may interfere with learning. M.G.L. c. 71, s. 57 and related amendments and regulations (105 CMR 200.000-200.920) require physical exams of school children within six months before entry into school or during the first year after entrance, and at intervals of either three or four years after. The Southwick-Tolland-Granville Regional School District requires physical exams for grades kindergarten, four, seven and ten.

In addition, physical examinations are required annually before participation in competitive sports. A student in the Southwick-Tolland-Granville Regional School District must pass a physical examination within thirteen months of the start of each season. Students who meet this criteria at the start of the season will remain eligible for that season. Physical examinations must be performed by a duly registered physician, physician's assistant or nurse practitioner.

ACTIVITY LIMITATIONS

If a student is required to have limited physical activity in school, a written statement from the licensed health care provider describing the limitations must be provided to the school so appropriate arrangements can be made if necessary.

VISION, HEARING, WEIGHT AND HEIGHT

Screenings will be performed annually on each student according to DPH guidelines with recommendations for further evaluation made to parents/guardians as indicated.

POSTURAL SCREENING

Postural screening will be done annually on all students in grades 5-9.

The School Committee recognizes the need for student fees to fund certain school activities. It also recognizes that some students may not be able to pay these fees. No student will be denied access into any program because of inability to pay these supplementary charges.

A school may exact a fee or charge only upon Board approval. The schools, however, may:

- Charge students enrolled in certain courses for the cost of materials used in projects that will become the property of the student.
- Charge for lost and damaged books, materials, supplies, and equipment

Students who are indigent are exempt from paying fees. However, indigent students are not exempt from charges for lost and damaged books, locks, materials, supplies, and equipment.

All student fees and charges, both optional and required, will be listed and described annually in each school's student handbook or in some other written form and distributed to each student. The notice will advise students

that fees are to be paid and of the penalties for their failure to pay them. Permissible penalties include the withholding of report cards until payment is made or denial of participation in extra class activities while the student is enrolled in this District.

Any fee or charge due to any school in the District and not paid at the end of the school year will be carried forward to the next succeeding school year, as such debts are considered to be debts of the student to the District and not to a particular school.

In order to provide students with appropriate instruction and educational services, it is necessary for the school system to maintain extensive and sometimes personal information about them and their families. It is essential that pertinent information in these records be readily available to appropriate school personnel, be accessible to the student's parents or legal guardian and/or the student in accordance with law, and yet be guarded as confidential information.

The Superintendent will provide for the proper administration of student records in keeping with state and federal requirements, and shall obtain a copy of the state student records regulations (603 CMR 23.00). The temporary record of each student enrolled on or after June 2002 will be destroyed no later than seven years after the student transfers, graduates or withdraws from the School District. Written notice to the eligible student and his/her parent of the approximate date of destruction of the temporary record and their right to receive the information in whole or in part, shall be made at the time of such transfer, graduation, or withdrawal. 603 CMR 23.00 is promulgated by the Board of Education pursuant to its powers under M.G.L.c.71, s.34D which directs that the board of education shall adopt regulations relative to the maintenance of student records by the public elementary and secondary schools of the commonwealth, and under M.G.L.c.71, s.34F which directs that the board of education shall adopt regulations relative to the retention, duplication and storage of records under the control of school committees, and except as otherwise required by law may authorize the periodic destruction of any such records at reasonable times. 603 CMR 23.00 was originally promulgated on February 10, 1975, and was reviewed and amended in June 1995. 603 CMR is in conformity with federal and state statutes regarding maintenance of and access to student records, and are to be construed harmoniously with such statutes.

Application of Rights

603 CMR 23.00 is promulgated to insure parents and students rights of confidentiality, inspection, amendment, and destruction of students' records and to assist local school systems in adhering to the law. 603 CMR 23.00 should be liberally construed for these purposes.

1. These rights shall be the rights of the student upon reaching 14 years of age or upon entering the ninth grade, whichever comes first. If a student is under the age of 14 and has not yet entered the ninth grade, these rights shall belong to the students' parent.
2. If a student is from 14 through 17 years or has entered the ninth grade, both the student and his/her parent, or either one acting alone, shall exercise these rights.
3. If a student is 18 years of age or older, he/she alone shall exercise these rights, subject to the following. The parent may continue to exercise the rights until expressly limited by such student. Such student may limit the rights and provisions of 603 CMR 23.00 which extend to his/her parent, except the right to inspect the student record, by making such request in writing to the school principal or superintendent of schools who shall honor such request and retain a copy of it in the student record. Pursuant to M.G.L. c.71, s.34E, the parent of a student may inspect the student record regardless of the student's age.
4. Notwithstanding 603 CMR 23.01(1) and 23.01(2), nothing shall be construed to mean that a school committee cannot extend the provisions of 603 CMR 23.00 to students under the age of 14 or to students who have not yet entered the ninth grade.

Definition of Terms

The various terms as used in 603 CMR 23.00 are defined below:

Access: shall mean inspection or copying of a student record, in whole or in part.

Authorized school personnel: shall consist of three groups:

1. School administrators, teachers, counselors and other professionals who are employed by the school committee or who are providing services to the student under an agreement between the school committee and a service provider, and who are working directly with the student in an administrative, teaching, counseling and/or diagnostic capacity. Any such personnel who are not employed directly by the school committee shall have access only to the student record information that is required for them to perform their duties.
2. Administrative office staff and clerical personnel, including operators of data processing equipment or equipment that produces microfilm/microfiche, who are either employed by the school committee or are employed under a school committee service contract, and whose duties require them to have access to

student records for purposes of processing information for the student record. Such personnel shall have access only to the student record information that is required for them to perform their duties.

3. The evaluation team evaluates a student.

Eligible student: shall mean any student who is 14 years of age or older or who has entered 9th grade, unless the school committee acting pursuant to 603 CMR 23.01(4) extends the rights and provisions of 603 CMR 23.00 to students under the age of 14 or to students who have not yet entered 9th grade.

Parent: shall mean a student's father or mother, or guardian, or person or agency legally authorized to act on behalf of the child in place of or in conjunction with the father, mother, or guardian. Any parent who by court order does not have physical custody of the student, is considered a non-custodial parent for purposes of M.G.L. c. 71, s.34H and 603 CMR 23.00. This includes parents who by court order do not reside with or supervise the student, even for short periods of time.

The term as used in 603 CMR 23.00 shall not include a person about whom a school committee maintains information relative only to the person's employment by the school committee.

The student record: shall consist of the transcript and the temporary record, including all information, recording and computer tapes, microfilm, microfiche, or any other materials, regardless of physical form or characteristics concerning a student that is organized on the basis of the student's name or in a way that such student may be individually identified, and that is kept by the public schools of the Commonwealth. The terms as used in 603 CMR 23.00 shall mean all such information and materials regardless of where they are located, except for the information and materials specifically exempted by 603 CMR 23.04.

The temporary record: shall consist of all the information in the student record which is not contained in the transcript. This information clearly shall be of importance to the educational process. Such information may include standardized test results, class rank (when applicable), extracurricular activities, and evaluations by teachers, counselors, and other school staff.

Third party: shall mean any person or private or public agency, authority, or organization other than the eligible student, his/her parent, or authorized school personnel.

Log of Access: A log shall be kept as part of each student's record. If parts of the student record are separately located, a separate log shall be kept with each part. The log shall indicate all persons who have obtained access to the student record, stating: the name, position and signature of the person releasing the information; the name, position and, if a third party, the affiliation if any, of the person who is to receive the information; the date of access; the parts of the record to which access was obtained; and the purpose of such access. Unless student record information is to be deleted or released, this log requirement shall not apply to:

- (b) Administrative office staff and clerical personnel under 603 CMR 23.02(9)(b), who add information to or obtain access to the student record; and
- (c) School nurses who inspect the student health record.

Access of Third Parties. Except for the provisions of 603 CMR 23.07(4)(a) through 23.07(4)(h), no third party shall have access to information in or from a student record without the specific, informed written consent of the eligible student or the parent. When granting consent, the eligible student or parent shall have the right to designate which parts of the student record shall be released to the third party. A copy of such consent shall be retained by the eligible student or parent and a duplicate placed in the temporary record. Except for the information described in 603 CMR 23.07(4)(a), personally identifiable information from a student record shall only be released to a third party on the condition that he/she will not permit any other third party to have access to such information without the written consent of the eligible student or parent.

- (a) A school may release the following directory information: a student's name, address, telephone listing, date and place of birth, major field of study, dates of attendance, weight and height of members of athletic teams, class, participation in officially recognized activities and sports, degrees, honors and awards, and post-high school plans without the consent of the eligible student or parent; provided that the school gives public notice of the types of information it may release under 603 CMR 23.07 and allows eligible students and parents a reasonable time after such notice to request that this information not be released without the prior consent of the eligible student or parent. Such notice may be included in the routine information letter required under 603 CMR 23.10.

As required by M.G.L. c. 71, § 34H, a non-custodial parent may have access to the student record in accordance with the following provisions.

- (a) A non-custodial parent is eligible to obtain access to the student record unless the school or district has been given documentation that:

 - 2. The parent has been denied visitation, or
 - 3. The parent's access to the student has been restricted by a temporary or permanent protective order, unless the protective order (or any subsequent order modifying the protective order) specifically allows access to the information contained in the student record, or

- (b) The school shall place in the student's record documents indicating that a non-custodial parent's access to the student's record is limited or restricted pursuant to 603 CMR 23.07(5)(a).
- (c) In order to obtain access, the non-custodial parent must submit a written request for the student record to the school principal.
- (d) Upon receipt of the request the school must immediately notify the custodial parent by certified and first class mail, in English and the primary language of the custodial parent, that it will provide the non-custodial parent with access after 21 days, unless the custodial parent provides the principal with documentation that the non-custodial parent is not eligible to obtain access as set forth in 603 CMR 23.07 (5)(a).
- (e) The school must delete all electronic and postal address and telephone number information relating to either work or home locations of the custodial parent from student records provided to non-custodial parents. At least once during every school year, the school shall publish and distribute to students and their parents in their primary language a routine information letter informing them of the following:

- a. The standardized testing programs and research studies to be conducted during the year and other routine information to be collected or solicited from the student during the year.
- b. The general provisions of 603 CMR 23.00 regarding parent and student rights, and that copies of 603 CMR 23.00 are available to them from the school.

CODE: VISITORS TO THE SCHOOLS

Revised:

The School Committee encourages parents and guests to visit classrooms to observe and learn about the instructional program taking place in our schools. Such visits can prove most beneficial in promotion of greater school-home cooperation and community understanding of how we carry out the school system’s mission and goals.

The following guidelines to classroom and school visits should be followed:

1. For security purposes it is requested that all visitors report to the Principal’s Office upon entering and leaving the building and sign a log showing arrival and departure times. Teachers are encouraged to ask visitors if they have registered in the principal’s office. Visitors must wear visible “Visitor” badges at all times.
2. The building principal has the authority to determine the number, times, and dates of observations by visitors. This will be done in consultation with staff members so as to give adequate notice to the staff members of the impending visits.
3. Under ordinary circumstances, classroom observations will be strongly discouraged during the first three weeks of school in September and during the month of June.
4. Any student who wishes to have a guest in school **MUST** ask permission of one of the administrative staff **24 HOURS** in advance of the proposed visit. If permission is granted, the guest is expected to follow the standards of behavior expected of all students. Upon arrival the guest must register in the office. DISTRICT PROCEDURES

DISCIPLINE OF STUDENTS WITH DISABILITIES (IEP/504)

Procedures for suspensions of students with disabilities when suspensions exceed 10 consecutive school days or a pattern has developed for suspensions exceeding 10 cumulative days; responsibilities of the Team; responsibilities of the district.

1. A suspension of longer than 10 consecutive days or a series of suspensions that are shorter than 10 consecutive days but constitute a pattern are considered to represent a change in placement.
2. When a suspension constitutes a change of placement of a student with disabilities, district personnel, the parent, and other relevant members of the Team, as determined by the parent and the district, convene within 10 days of the decision to suspend to review all relevant information in the student's file, including the IEP/504, any teacher observations, and any relevant information from the parents, to determine whether the behavior was caused by or had a direct and substantial relationship to the disability or was the direct result of the district's failure to implement the IEP/504 – "a manifestation determination."
3. If district personnel, the parent, and other relevant members of the Team determine that the behavior is NOT a manifestation of the disability, then the suspension or expulsion may go forward consistent with policies applied to any student without disabilities, except that the district must still offer:
 - a. services to enable the student, although in another setting, to continue to participate in the general education curriculum and to progress toward IEP/504 goals; and
 - b. as appropriate, a functional behavioral assessment and behavioral intervention services and modifications, to address the behavior so that it does not recur.
4. Interim alternative educational setting. Regardless of the manifestation determination, the district may place the student in an interim alternative educational setting (as determined by the Team) for up to 45 school days
 - a. on its own authority if the behavior involves weapons or illegal drugs or another controlled substance or the infliction of serious bodily injury on another person while at school or a school function or, considered case by case, unique circumstances; or
 - b. on the authority of a hearing officer if the officer orders the alternative placement after the district provides evidence that the student is "substantially likely" to injure him/herself or others.

Characteristics. In either case, the interim alternative education setting enables the student to continue in the general curriculum and to continue receiving services identified on the IEP/504, and provides services to address the problem behavior.

5. If district personnel, the parent, and other relevant members of the Team determine that the behavior IS a manifestation of the disability, then the team completes a functional behavioral assessment and behavioral intervention plan if it has not already done so. If a behavioral intervention plan is already in place, the Team reviews and modifies it, as necessary, to address the behavior. Except when he or she has been placed in an interim alternative educational setting in accordance with part 4, the student returns to the original placement unless the parents and district agree otherwise or the hearing officer orders a new placement.
6. Not later than the date of the decision to take disciplinary action, the school district notifies the parents of that decision and provides them with the written notice of procedural safeguards. If the parent chooses to appeal or the school district requests a hearing because it believes that maintaining the student's current

placement is substantially likely to result in injury to the student or others, the student remains in the disciplinary placement, if any, until the decision of the hearing officer or the end of the time period for the disciplinary action, whichever comes first, unless the parent and the school district agree otherwise.

Procedural requirements applied to students not yet determined to be eligible for special education.

1. If, prior to the disciplinary action, a district had knowledge that the student may be a student with a disability, then the district makes all protections available to the student until and unless the student is subsequently determined not to be eligible. The district may be considered to have prior knowledge if:
 - a. The parent had expressed concern in writing; or
 - b. The parent had requested an evaluation; or
 - c. District staff had expressed directly to the special education director or other supervisory personnel specific concerns about a pattern of behavior demonstrated by the student.

The district may not be considered to have had prior knowledge if the parent has not consented to evaluation of the student or has refused special education services, or if an evaluation of the student has resulted in a determination of ineligibility.

2. If the district had no reason to consider the student disabled, and the parent requests an evaluation subsequent to the disciplinary action, the district must have procedures consistent with federal requirements to conduct an expedited evaluation to determine eligibility.
3. If the student is found eligible, then he/she receives all procedural protections subsequent to the finding of eligibility.

I. ATTENDANCE

Massachusetts's law requires that schools be in session 180 days per year. In accordance with the General Laws of the State of Massachusetts, Chapter 76, Section 1, every child between the minimum ages, as established by the Board of Education, shall attend a public day school or some other school approved by the School Committee for the number of days as required by the Board of Education. Also, Chapter 76, Section 2 states that: "Every person having control of a child shall ensure their attendance for the number of days as required by the Board of Education."

The above provisions clearly specify that a student must attend school every day that school is in session unless the student has a legitimate excused absence. It is the parents'/guardians' sole responsibility to see to it that their son/daughter is in school.

The school administration discourages students missing school for family vacations. Clearly, missed teacher presentations, lectures, classroom discussions, laboratory experiments, and such cannot be made up as homework. However, the reality exists that parents do take their children out of school for such trips and these absences will count against the attendance policy. When this occurs, the following procedures will be used:

- The parent(s) / guardian(s) will contact the administration in advance of the planned vacation.
- The student will be held responsible for making specific arrangements with their teacher(s) for assignments. Work will be offered to students upon their return from an absence from school. Please do not expect teachers to prepare student assignments in advance of your child's trip. All work will be offered to the student upon the return of the student to class. Full credit will be given for completed work.

BLACKBOARD CONNECT PHONE LINE

Families are notified of many school related topics through a notification service called Blackboard Connect. Some examples are unexcused absences, early dismissals, school closings, newsletters and district messages.

It is important that the school office has your most current contact information including email and phone number on file so that you will receive all pertinent communication.

DROP OFF AND PICK UP PROCEDURES

There are two drop-off locations, one for third and fourth graders and their siblings, and the second for all other students. Please have your Silent Dismissal number displayed on the passenger side of your dashboard, hanging from your rear view mirror, or in your passenger side window. When you arrive, students should be ready to get out of the car. Make sure they know how to remove their seat belt, open the car door, and shut the door behind them. Adults should not be exiting their vehicles.

Auditorium Door: Third and fourth graders and their siblings will be dropped off and picked up outside of the auditorium. Parents will enter the Feeding Hills Road lot, follow the arrows to serpentine through the parking area, dropping off or picking their child(ren) at the covered entrance.

Front Loop – Main Office Door: All other families will be dropped off and picked up outside of the main office. Parents will enter the front loop from the south side taking a right turn. Do not block traffic on Powder Mill Road by waiting to take a left turn into the loop. Remind your child they can get out of the car anywhere along the front of the building. Please do not let them wait until they are directly in front of the door.

Drop off will be between 8:05 - 8:15 each morning. Pick up will be from 2:40 - 2:55.

If children attend the Rec Center in the mornings (before school) or in the afternoons (after school), they will be admitted /dismissed through an exchange between the school staff and the Rec Center staff at the Superintendent's entrance.

EARLY DISMISSAL

If a child needs to be dismissed at any time during the day, a parent must send in a note with their child in the morning and come to the office and sign out the child. The student will be called to the office for dismissal. An emergency card is

maintained for each child in the school. Students will be released only to the people whose names appear on the emergency card or have been authorized by the parent/guardian.

END OF DAY DISMISSAL

Children will ride their assigned bus each day unless they are a pick-up. Parents of children who will be picked up, will need to send a note into the office each day their child is not riding their assigned bus home. Parents who are picking up students in grades 3 & 4 and their siblings will do so at the auditorium door, students in grades 5 & 6 will be picked up outside the main office entrance.

If children attend the Rec Center in the afternoons (after school), they will be dismissed through an exchange between the school staff and the Rec Center staff. Parents who wish their child to be dismissed as a “walker” will need to send in a note indicating such; without a note, the child will be dismissed through their usual dismissal routine (e.g. assigned bus or as a pick-up).

Between 2:20 p.m. and 2:40 p.m., students are moving about the building returning from special classes or preparing for regular dismissal at 2:40 p.m. Please do not request to dismiss a student at this time. Because so many children are in transit, we feel that the safest and most orderly procedure will be for parents to wait until the regular dismissal time at 2:40 p.m.

You must take your normal bus home. Any exception to this (i.e. walking home) will not be allowed unless a note is received from your parent/guardian – signed in advance by the assistant principal or designee.

NOTIFICATION OF ABSENCES

If your child is absent from school, please:

- Call - 569-5951. Please give your child's full name, the date of the absence and the reason your child is not in school. If you are requesting homework, a call must be placed in the morning. Homework can be picked up in the office at the end of the school day or sent home with another student.
- If the child will be out an extended time, please let the Office know. Otherwise, a phone call must be made to the school each day your child is absent.
- If a phone call or direct communication was not made, **a written note must be sent to the school within 2 days of the absence.**
- If your child has been absent due to illness and you have seen your physician, please provide the school with documentation from medical personnel.

Twenty absences per year will be considered excessive and may jeopardize a student's promotional status and may result in submission of a report to the Department of Children and Families.

NOTIFICATION OF EXCESSIVE ABSENCE AND APPEALS

1. When a student has been absent five (5) days in a half year or ten (10) days in a year, the parent or guardian will be mailed a notice of this occurrence.
2. When a student has violated the Attendance Policy by being absent ten (10) or more days for any reason, other than medical, in either half year or twenty (20) or more days in a year, the parent/guardian will be notified of the potential impact on the report card; a mandatory conference (e.g. phone; meeting) will be scheduled with the Principal and parents.
3. **A PARENT/GUARDIAN must notify the Administration of a desire to appeal in writing within five (5) school days of receiving a notice of the attendance violation to request an appeal of failing grades.**

The Appeal process will consist of the Principal (or designee) and at the discretion of the Administration, as deemed appropriate. Parents/guardians may present their appeal for a change of grades at the informal meeting. The parent/guardian will be informed of the date and time of a meeting to address the request. An Appeal will consider:

1. Information presented
2. Documentation from medical personnel
3. The overall student attendance record

4. Other information deemed appropriate by the Administration

The decision of the Appeals Board is final

5. The Appeal may override the Attendance Policy

6. The decisions of the Appeal will be rendered within five (5) school days of the appeals meeting

*FOR MORE INFORMATION ABOUT ATTENDANCE SEE DISTRICT POLICY AT THE BACK OF THE HANDBOOK.

SCHOOL CANCELLATIONS AND DELAYS

Closing school because of weather conditions or other emergencies will be broadcast online on the Southwick-Tolland-Granville Regional School District Facebook page, on TV stations WWLP 22 News, Western Mass News CBS 3, ABC 40 and Fox 6, and NECN. Voice and text messages will also be sent via phone to all households via the ConnectEd system.

When a delay of school is called:

1. Busses will run two hours later.
2. School will begin at 10:05 a.m.
3. Lunch will be served at the usual time.
4. Dismissal will be at 2:40 p.m.

TARDINESS

Students must be in their classroom at 8:15 a.m. when Powder Mill School begins. A student must attend school at least half a day to be considered present. A late arriving child should sign in at the office with a parent. The child may then go directly to their classroom. Students who have been tardy for three (3) unexcused times in a marking term will be given a warning and a letter will be sent home. When a student is tardy five (5) times a school adjustment counselor will contact the parent and after ten (10) times the parent will be contacted for a meeting with administration.

WALKERS AND BICYCLES

Children who walk to school should stay on the sidewalks or walk on the left side facing traffic if there are no sidewalks. There is a school crossing guard at a strategic location. Children are to cross the intersection where there is a crossing guard. The riding of bicycles are permitted but other wheeled vehicles (e.g. skateboards; wheelies) are prohibited. **No student is permitted to ride a bicycle on school grounds or to or from school without wearing an approved protective helmet. Bicycles need to be stored in the bike rack located by the cafeteria and locked by its owner.**

II. SCHOOL NURSE AND HEALTH

The school nurse is available to work with you to accommodate your child's health needs while at school. From cuts and bumps and stomach aches, to chronic health conditions, the nurse is here to assist your child in remaining healthy and productive in school. Feel free to contact the school nurse with any questions, concerns or to obtain necessary forms.

ACTIVITY LIMITATIONS

If your student is required to have limited physical activity in school, a written statement from the licensed health care provider describing the limitations, must be provided to the school so appropriate arrangements can be made, if necessary.

EMERGENCY CARD

Each fall parents will receive a Student Health and Information Emergency Form. It is essential that the form be completed annually, and that the information is current at all times. Medical conditions such as allergies, asthma, epilepsy, diabetes, etc. should be indicated on the card. Please update any changes throughout the year. This form can be downloaded from the district website.

FIELD TRIPS

Permission forms for field trips are sent home by the students' teachers prior to the trip. Please complete the form as soon as possible. You must write any medical conditions and medications your child may need on the field trip form and indicate if you give the teacher permission to administer the medicine on the field trip. If your child needs to take any medicine, a physician order and parental consent must be on file with the nurse. Medications to be taken on the trip will be delegated to a teacher to administer. It can take some time to make necessary arrangements for your child's safe enjoyment of a field trip. Your cooperation is essential. Please discuss field trips with the school nurse at any time.

FIRST AID

First Aid will be administered for minor injuries received during the school day. When a student becomes ill or is seriously injured, the parent is notified immediately. If a parent cannot be reached in an emergency, the child will be transported to the hospital.

HOMEBOUND TUTORING

Parents who expect their child to be absent for an extended period of time due to illness or accident, should contact the Student Services Department about home tutoring.

IMMUNIZATIONS

By law, the Massachusetts Department of Public Health requires that all students be fully immunized prior to school entry. The Massachusetts school immunization requirements are on the District's website. Physicians are aware of these requirements as well as the required time intervals between doses. (Please note that each state has slightly different timetables for immunizations. If your child's pediatric practice is in another state, make sure your child is compliant with Massachusetts requirements). The State Department of Public Health mandates the school nurse to review the time intervals between the doses of specific vaccines. If the intervals between doses are outside of the Department of Public Health guidelines an additional dose of a vaccine may be required. Parents will be informed individually if this is necessary. Every child must be properly vaccinated to attend school in Massachusetts. Exemptions may only be accepted for medical or religious reasons and must be made in writing. Children who are homeless are allowed to enter pending verification of immunization.

Enforcement:

1. The school administration (principal, superintendent), in consultation with the school nurse, has the responsibility to refuse school admittance to students who have not received the required immunizations or who are not otherwise exempted. Unimmunized or partially immunized students whose private physician certifies in writing that they are in the process of receiving the required immunizations, shall be allowed to attend school provided they receive the required immunizations when scheduled. They will be regarded as being in compliance with the law as long as they are actively pursuing the receipt of the immunizations.
2. It is the responsibility of the school nurse to review the records and to inform the parent/guardian if the student is not in compliance. If the parent/guardian has difficulty obtaining the necessary immunizations, a choice of possible resources will be offered. (Please refer to M.G.L. Chapter 76, Section 15.) Any student found to be in non-compliance with the immunization requirements is subject to immediate exclusion from school and shall not be readmitted until the parent or guardian satisfies the requirement of the statute or, in the alternative, provides evidence to substantiate an exemption as described above.

MANDATED HEALTH SCREENINGS

The Massachusetts Department of Health mandates health screenings that are performed during the school year. These include height, weight, vision, hearing and postural or scoliosis screenings. For any vision, hearing, or postural screening outside normal limits, a referral will be sent home for further testing.

You have an option to not have your child participate in one or all screenings. You must however, make your decision to "OPT Out" of a screening in writing and send it to your child's school nurse. Otherwise, your child will be automatically screened as per Massachusetts Department of Public Health (DPH) Regulations. "Opting out" only applies to screenings

and DOES NOT apply to physical exams. The “OPT Out” option must be made annually (it does not carry over from year to year). The mandated health screening requirements may be located on the District’s website.

MEDICAL AND DENTAL APPOINTMENTS

Medical and dental appointments should be made, whenever possible, during non-school hours.

MEDICATION POLICY

The Southwick Regional School District follows the laws and regulations of the Massachusetts Department of Public Health in the formulation of medication policies to ensure the health and safety of children who need medication during the school day. The following forms must be on file in your child’s health records before any medication can be administered at school or on a field trip.

The forms are available from the nurse or may be downloaded from the district website.

1. A signed consent by parent or guardian to give medicine.
2. A signed medication order completed by your child’s licensed prescriber (physician, nurse practitioner, etc.).

The policies include over the counter medications such as acetaminophen, cough drops and ointments. Medicines must be in a pharmacy or manufacturer-labeled container. Students are not permitted to transport any medicine to or from school. Medicines must be delivered and picked up by a responsible adult. No more than a thirty-day supply should be delivered to the school. **It is necessary to obtain new orders and parental permission every year.** Any medications not picked up by the last day of school will be destroyed.

The school nurse may not administer any medications, including over the counter medications, without proper orders and consents. Students are not allowed to carry medications in school and may be referred for disciplinary action if found with medication. Please plan ahead to meet your child’s medication needs. The school nurse is available to help you if needed. Our school physician has provided medical directives for our students in grades 6-12. See the back of the emergency form.

PHYSICAL EXAMINATIONS

State law requires physical examinations of all school children within a year before entry into school, and at intervals of either three or four years thereafter. The Southwick Regional School District requires physical examinations in grades K, 4, 7 and 10, and for all new students. Because your child’s physician has a comprehensive knowledge of the health status of your child, private physician examinations are strongly encouraged. If the school nurse has concerns about a student’s health, she may require a student to have an exam to attend school. An exam within a year of entry into school is acceptable.

WELLNESS POLICY

Our district Wellness Policy addresses nutrition standards, nutrition education, physical activity, and other school-based activities designed to promote student wellness. It also includes an evaluation component. A Wellness Policy Introduction pamphlet is available at PMS. The complete policy is available on the District website.

WHEN TO KEEP A CHILD HOME

It is sometimes difficult to decide when a child should remain home from school. Here are some guidelines:

1. Child has vomiting or diarrhea.
2. Fever 100 degrees or higher, to remain home until fever free for 24 hours without the use of fever medications.
3. 24 hours after starting antibiotics, especially after conjunctivitis or strep throat.
4. Child with any contagious illness.
5. Excessive fatigue after illness.
6. When your child’s doctor recommends rest at home following an illness, injury, or surgery.
7. After an injury or surgery when narcotic pain medication is still necessary.

Remember to obtain a note for school if your child misses school for any appointment with a doctor, dentist, orthodontist, or mental health provider.

III. ACADEMICS

COUNSELING AND GUIDANCE SERVICES

Guidance counseling services are available at Powder Mill School. Primary responsibilities include the following:

2. To monitor students' academic progress.
3. To help students understand their emotional and social development and its effect upon their lives.
4. To help students understand the world of work so that they may begin to explore areas of occupational interest.
5. To work with teaching teams to provide quality education for children.
6. To work with parents and social agencies as appropriate to foster student improvement. To be a resource for parents regarding problem solving and parenting support for their child.
7. To work with the Student Services Department and to participate in evaluations on an as needed basis.
8. Develop, organize, and interpret results of appropriate testing programs required by the State and district as well as those used by the school for its special purposes.
9. Organize and implement appropriate orientation programs for incoming 3rd graders and outgoing 6th graders.

ENGLISH LANGUAGE LEARNERS PROGRAM (ELL)

Students, for whom English is not their primary language, have equal rights of access to all courses of study in regular, special, technical and vocational school programs. They also have the right to participate in all school-sponsored activities.

All students entering the Southwick-Tolland-Granville Regional School District who speak a language other than English at home are evaluated for English language proficiency. If services are recommended, parents are advised of their choices. They have the right to accept or reject the services available. Instruction for English Language Learners (ELL) is provided for all students who have a limited proficiency in English. Services are tailored to the individual language and educational needs of the student. For further information contact the ELL Coordinator.

ACADEMIC GRADES

Grades are one form of communication among students, parents and the school. They are a measure of the student's academic progress based upon set criteria. They become a part of a student's permanent record card.

A report card, taken in its entirety, is the result of the teachers' endeavors to evaluate the whole child. The evaluation of skills, effort and progress will be based upon a child's educational and behavioral development.

GRADING SCALE

A+ = 97-100	C+ = 77-79
A = 93-96	C = 73-76

HOMEWORK GUIDELINES

These guidelines are to help parents, students, and teachers understand the purpose, consequences, and reasons for homework. If you wish to communicate any questions, concerns, or comments about homework, please contact your child's teacher.

All teachers have email addresses and voice mail extensions and can easily be contacted regarding homework assignments.

There are purposes for giving homework at Powder Mill School:

- It can foster student initiative, independence, and responsibility.
- It can be of value in supplementing and reinforcing work done in school.
- Homework can bring the home and school together in a common bond.

Feel free to answer your child's questions and explain or demonstrate a process that is posing a problem for your child. However, keep in mind that it is your child's homework, not yours. Your role is one of helping, advising, and planning for a time and place, rather than one of actually doing the work.

Students need a clear understanding of why and how homework is given. They need to understand the consequences and grading implications if it is not done when required. At Powder Mill School homework is not used for punishment. This is not consistent with the purpose for which homework is intended. Homework may be graded or commented on each time it is given. Grading is one form of evaluation. Comments on students' homework are also a beneficial form of feedback for students.

The following guidelines have been established to assist both teachers and parents to monitor homework. Generally, students should spend this much time each night completing homework assignments. This is only a guide.

The guidelines are as follows:

Grade 3	30 – 45 minutes each night
Grade 4	30 – 45 minutes each night

Grade 5 45 – 60 minutes each night

Grade 6 45 – 60 minutes each night

Students may receive homework 2 times a week in ELA and 2 times a week in Math.

Homework may consist of:

- A spiral back activity to keep prior learning fresh.
- 1 or 2 rich questions that involve problem solving.
- Test practice that requires students to show work.
- Nightly independent reading practice with a response to text.

Individual students may be excused from specific daily assignments for very special circumstances. Parents should send in a note explaining why the student was not able to complete the assignment. Perhaps an illness, death in the family, or important family activity interfered with schoolwork. The teacher will take this into consideration on an individual basis.

REPORT CARDS – CONFERENCES

Parent/Teacher Conferences are held twice each year. Dates are noted on the school calendar. Report cards are issued four times a year for all grades.

SPECIAL EDUCATION

Children with disabilities are provided with a range of services to meet their educational needs. Eligibility for services is determined through an evaluation process in accordance with Massachusetts Chapter 766 Regulations.

Consultation teams have been set up at the three schools in order to explore options and strategies to meet the needs of children who are having academic or social/emotional difficulties. These teams are comprised of administration, guidance, regular and special education teachers. They may refer a child for a special education evaluation if a disability is suspected.

Parental permission must be obtained in order to proceed with an evaluation. Parents are invited to meet with the professionals who evaluate their child and to participate in decision making about their child’s educational plan.

Each school offers special education services to help address individual needs of children with disabilities. These include speech and language therapy, occupational and physical therapies, vision and hearing services, instruction in a “Pull-Out” room setting, and assistance within the general classroom. The participation of disabled students in school activities and programs is encouraged as is their inclusion in appropriate academic classes. Questions about available services may be addressed to the Principal or to the Director of Student Services, 569-0111.

IV. GENERAL STUDENT INFORMATION

ANIMALS IN SCHOOL

Animals may only be brought to school in accordance with District policy IMG Animals in Schools. A copy of that policy is available in the District policy manual on the website: www.stgrsd.org. Pets should not be brought to school during dismissal and or drop-off.

AUDITORIUM AND ASSEMBLY RULES

Assembly programs are an important aspect of our school programs. Often, they supplement instruction in the classroom or are of high interest and offer different experiences to expand one’s mind. Expectations for student behavior, attendance and participation are the same as they are within our classrooms.

COMPUTER/INTERNET USE

The use of the Internet is a privilege, not a right, and inappropriate use will result in a cancellation of those privileges and disciplinary action up to and including suspension. Each student who is given Internet access privileges or receives an account will be part of a discussion with a district faculty member pertaining to the proper use of the Internet. Since the

computers are school property, administration reserves the right to inspect computer files at any time. Please reference the full district policy at back of handbook.

CORI CHECKS (CRIMINAL OFFENDER RECORD INFORMATION)

The Southwick-Tolland-Granville Regional School District requires CORI checks for the purposes of screening current and otherwise-qualified prospective school-based personnel and volunteers who will have the opportunity for unsupervised contact with children. All chaperones must have a CORI check for field trips.

EMERGENCY DRILL PROCEDURE

Fire drills at regular intervals are required by law and are an important safety precaution. During a fire drill or other emergency drills, at the first signal given, everyone must obey orders promptly. During a fire drill or evacuation, everyone must clear the building by prescribed routes as quickly as possible. The teacher in each classroom will give students instructions. Any student who endangers safety may be disciplined.

Emergency Lock Down and Evacuation drills are held periodically during the school year and every drill should be treated as if there actually was an emergency. All passing done during drills will be done quickly and quietly to avoid confusion. Pay attention to your teacher so that you will be able to hear emergency instruction. **NOTE:** Parents should set up an emergency procedure so that their child knows what to do and where to go if, due to an emergency, they arrive home when a responsible adult is not there.

In the event of an actual emergency, please do not go to the school. You will receive information via Blackboard Connect notification system.

ETHICS LAW

The Southwick-Tolland-Granville Regional School District discourages gifts to classroom teachers in accordance with M.G.L. c. 268A, section 3.

LOCKERS AND PADLOCKS

You will be assigned a locker in which to keep personal property and materials related to school life. You are expected to bring all school materials to school with you and to be responsible for them. **All large belongings must be left in locker (i.e., backpacks, coats, saddlebags, large pocketbooks, etc.).** It is required that students keep lockers free from stickers, tape and/or other material that may cause damage to the finish of the lockers. Items which are not necessary for school or are illegal are not allowed in school. Lockers and personal belongings will be searched by the principal or his/her designee if there is reasonable suspicion that there is something illegal, dangerous, or disruptive to the operation of the school.

Students are responsible for care and maintenance of assigned locks and lockers. Locks will be assigned to fifth and sixth grade students only. Damaged or **lost locks** must be replaced at the student's expense. Students are encouraged not to share their lock combination with peers.

LOCKERS, SEARCHES AND SEIZURES

Students may be assigned lockers, laboratory tables, desks and similar property of the school system for their use while in school. Property of the school department assigned to a student for his/her use during the school year is subject to inspection and search at any time for any reason. If an illegal substance/object, or evidence of activity which violates the law or the disciplinary code, is found during any inspection or search, it will be confiscated, and appropriate action will be taken against the student.

In addition, professional and administrative personnel may search a student's belongings (e.g., clothes, backpack, handbag, wallet, etc.) or to search the student when a staff person has reasonable cause to believe that the student has an illegal substance/object, or evidence of activity which violates the law or disciplinary code. If an illegal substance/object, or evidence of activity which violates the law or the disciplinary code, is found during any search, it will be confiscated, and appropriate action will be taken against the student.

Mass searching of lockers may be conducted by the administration if the safety and well-being of the student body and building is in jeopardy. The administration of the school may search a student's locker, if a search is considered necessary to maintain the integrity of the school environment and to protect other students.

In the best interest of student-administrative relationships and in the spirit of due process, the following should be taken into account when making a search of the student and/or his property.

- a. if possible, the student should be present when making the search;
- b. a third party (a witness) should be present; and
- c. an attempt should be made to secure prior student consent.

A search may be made by a police officer with a valid warrant or in connection with a valid arrest. However, if police are involved, parents should be notified, the Principal or his designated representative from the school should be present at the time of the search. A complete report of the incident together with witnesses and other pertinent information should be immediately recorded.

LOST AND FOUND

There will be a lost and found located in the cafeteria. If you have lost a valuable object, including your books, report it at once to the office. The school suggests you do not bring valuables or large sums of money to school. Loss of personal or school-issued property is the responsibility of the individual student. Be certain to clearly mark all possessions brought to school. Lost articles which are not claimed within a reasonable time will be given to a charitable organization.

MEALS

Children need healthy meals to learn. Powder Mill offers healthy meals every school day. All schools have a hot lunch program set up under the National School Lunch Program and administered through the Massachusetts State Department of Education and United States Department of Agriculture.

The District uses a Point-of-Sale system. Parents register on-line at www.SchoolCafe.com using information provided to them by the School Nutrition Department. They will be able to pay for meals, as well as see what their child is eating and add any restrictions to sales. Students may also bring checks into school which will be deposited into their Point-of-Sale account if done before 9:30 in the morning; **no money will be accepted at the register during lunch**. No change will be given to students in school; any change will be credited to their account. All purchases made in the cafeteria will be done through the Point-of-Sale, so if your child wants to buy snack, money should be placed in their account as detailed above.

During the school year, when there is a scheduled half-day of school (e.g., Collaboration Day), we will offer a lunch to any student. These bag lunches are served with an entrée, fruit, vegetable and milk. Students will be asked to order in the morning, like usual, and their bagged lunch will be available to pick up in the cafeteria at dismissal. Please see the website for the menu of hot meals offered and for pricing. All meals offered will be charged according to the standard lunch costs. Please be advised that the menu is subject change without notice.

Students who would like to have breakfast should pick up their breakfast from the Grab & Go Cart, located at arrival entrances, and proceed to their classroom.

Children who carry their own lunch must be sure their lunch box or bag has their name on it. Students should not share any food they bring from home. If a student forgets his/her money or lunch, he/she will be provided with a regular meal, and the charge will be added to the students' lunch account. Students with a balance will only be allowed to debit one full meal per day, per meal service, i.e. one breakfast and one lunch per day.

Information for free or reduced priced lunches is sent home with every student the first week of school. Additionally, if at any point during the school year a family wishes their children to participate, and feels that their income is within the eligibility guidelines, they should request an application from the school office or they can apply confidentially online at www.SchoolCafe.com. Parents will be notified of their children's eligibility by mail within 10 days. See nutrition page for help or links.

Any account with a positive balance at the end of the school year will be rolled into the students' accounts for the next year, regardless of which school they attend in the district. Any questions regarding this policy should be directed to the Director of School Nutrition, Matthew Lillibridge by emailing food@stgrsd.org

EVALUATION/OBSERVATION PROCEDURE

Southwick-Tolland-Granville encourages the involvement of parents and community members in the education of our students. The district has a duty to protect the safety and confidentiality of its students, as well as to ensure that the educational process is not unnecessarily disrupted. As a result, certain rules and procedures must be followed to ensure that visits are beneficial to the visitors and not harmful to the students or the educational process. The STGRSD Evaluation/Observation form allows a parent/guardian, consultant or evaluator to observe a student or program. These are available by contacting the building principal.

PARENTAL CONCERNS AND COMPLAINTS

It is not unusual for questions and/or concerns to arise during the course of a school year. Building a partnership between parents and teachers is the first step in ensuring quality education for our students. Calling or meeting with your child's teacher is the best and most productive way of addressing any issue.

If you have a concern about your child, you should contact the following people in this order:

1. Speak with the teacher first. Your child's teacher is the person most familiar with your child and the most knowledgeable when it comes to curriculum and grade level concerns. The teacher may also recommend meeting with additional school personnel if appropriate.
2. If you are not satisfied with the solutions suggested by your child's teacher, contact school administrators. They will meet with you and the teacher to find a mutually acceptable solution to your problem.
3. If, after meeting with your child's teacher and the Powder Mill Administration, you are unable to satisfy your concerns, you may contact the Superintendent of Schools.

PARENT TEACHER ORGANIZATION

The Powder Mill and Woodland Schools' (PAWS) Parent Teacher Organization meetings are held monthly. If you are new to our school or even if you are already familiar with P.T.O. we encourage you to attend our meetings and become active in our school community.

PUBLICITY AUTHORIZATION AND RELEASE

The Southwick-Tolland-Granville Regional School District and Powder Mill School may release and publish student work, photographs, motion pictures, video images or other likeness of your child in connection with any and all news releases, public relations or promotional materials or announcements, advertisements, web pages or otherwise, concerning your child's academic honors, sports activities, participation in school-sponsored musical, dramatic or dance-performances, or any other purpose in connection with your child's attendance at Powder Mill School. If you have any objections to Publicity Authorization and Release policy, please write to the building principal and your son/daughter will be exempt from this policy.

RECESS

Outdoor recess is part of the school program. Children are expected to come to school properly clothed for weather conditions. During inclement weather, and/or when the temperature is below 20°F, recess is held indoors. Recess exclusions require a physician's written statement.

It is strongly recommended that flip flops not be worn to school. The children often twist ankles and stub toes when wearing these on the playground. If they are worn to school, the children are not allowed to use the playscape.

SCHOOL COUNCIL

The School Council consists of parents, teachers, administrators, and community representatives, who work together each year as an advisory board to the Principal. This council works to continually improve education at Powder Mill School. The group meets each month. An election for parent representatives is held at the April/May P.T.O. meeting. Member elections are held every two years. Please refer to the Principal for a current membership list.

SCHOOL PROPERTY

Damage to a school building is a violation of M.G.L. Chapter 266, Section 98. Books and supplies are provided at public expense. It is expected that the children will be responsible for the reasonable use of these materials and in the event of

loss or damage will pay for full replacement of each item. Reimbursement is also expected in the event of damage to the buildings, furniture or equipment caused by misconduct or an act, which a given child would be reasonably expected to avoid.

SUBSTITUTE TEACHERS

Substitute teachers are our guests and help the school day proceed productively. Students have the responsibility to represent themselves and the school in a positive way. They are expected to be polite and helpful to the substitutes. All school rules apply when substitutes are in the classroom.

TEACHER QUALIFICATIONS

The Federal *No Child Left Behind* Act of 2001 requires school districts that receive Federal Title I funding to notify parents of their right to know the professional qualifications of the classroom teachers who instruct their child.

As a recipient of these funds, Southwick-Tolland-Granville Regional District will provide you with this information in a timely manner if you request it. Specifically, you have the right to request the following information about each of your child's classroom teachers:

- Whether the teacher meets the state qualifications and licensing criteria for the grades and subjects he/she teaches.
- Whether the teacher is teaching under emergency or provisional status because of special circumstances.
- The teacher's college major, whether the teacher has any advanced degrees, and the field of discipline of the certification or degree.
- Whether paraprofessionals provide services to your child and, if so, their qualifications.

The Southwick-Tolland-Granville Regional School District is committed to providing quality instruction for all students and does so by employing the most qualified individuals to teach and support each student in the classroom.

VOLUNTEER PROGRAM

Volunteers play an important role throughout our school. Some volunteers assist in classrooms by helping small groups or individual students with reading or mathematics projects. Others work in our library helping children check out books each week and re-shelving those that are returned. For those parents who cannot come to school, there are often projects that can be completed at home. If you would like to be a part of this exciting program, please contact your classroom teacher or call us at the school office at 569-5951. You must complete a CORI form to be a volunteer or chaperone.

V. STUDENT CONDUCT AND DISCIPLINE

The Southwick-Tolland-Granville Regional School District complies with all conditions and procedures outlined in Chapter 222: An Act relative to student access to education services and exclusion from school.

BUS BEHAVIOR

Parents must declare standard pick-up and drop-off locations for their children that will remain in effect for the school year. You must take your normal bus home and get on and off at your assigned stop. If you wish to request a different a.m. pick-up and/or drop-off location, the designated location must remain the same Monday through Friday. Any exception to this (i.e. walking home) will not be allowed unless a note is received from your parent/guardian - signed in advance and received by the Office. Reference full district policy at back of handbook.

Here are some suggestions to help your children use the bus safely. Please review them with your children periodically.

1. Waiting for the bus:
 - a. Children should stay out of the road except when they must cross the street.
 - b. They should not trespass on private property.
 - c. Younger children who are not attending school should not accompany your child to the bus stop without an adult.
 - d. Children should wait in an orderly manner. Rough behavior or running is not allowed at the bus stop.
 - e. As the bus approaches, they are to line up at least 10 feet off the road and should approach the bus only when the driver has opened the door.

2. Riding the Bus:

- a. Children should listen carefully to the driver's instructions.
- b. They should get on the bus quickly and be seated. Children may be expected to sit three in a seat.
- c. Children are expected to help keep the bus clean. Eating on the bus is not allowed.
- d. Students should keep all parts of their bodies inside the bus.
- e. Children must remain in their seats when the bus is moving.
- f. Children should restrict their talking to only those children sitting next to them. Shouting is not allowed.

3. Camera usage on all buses: Audio and video cameras may be present on our STGRSD school buses.

When the bus driver reports inappropriate behavior, an administrator will speak to the students. If the behavior continues and a second bus warning is issued, the parent will be notified, and the child will serve 1 session in the time-out room during recess. If a 3rd bus warning is issued the parent will be notified and the child may be temporarily or permanently removed from the bus. Parents will then be responsible for seeing that the child is transported to school.

INFORMATION FOR STUDENTS ABOUT SCHOOL DISCIPLINE

Learning occurs everywhere and at all times; however, formal education, a most essential part of that learning, occurs best in an environment free of distraction, fear or discomfort. The main goal in school is education. We believe that each student and each teacher have the following rights:

1. To work in pleasant, safe, and comfortable surroundings.
2. Freedom from insulting or abusive treatment from others.
3. To have an atmosphere that encourages learning.

Effective discipline is created by policy and action and has a positive effect on both student and teacher. The focus is upon helping the student to direct his/her efforts effectively toward educational growth. Discipline provides direction as well as limits and frees the student to learn and the teacher to teach.

Students and parents alike should also understand that our rules are based on policies established by the Southwick-Tolland-Granville Regional School Committee. Several are printed at the end of this handbook. They should be carefully reviewed by both students and their parents.

ENFORCEMENT OF DISCIPLINE REGULATIONS

Enforcement of the regulations is the responsibility of all staff members. All rules will be enforced, and consequences will be directly related to the frequency and severity of actions. When determining disciplinary consequences, developmental differences of Powder Mill students will be taken into consideration.

Infractions

Teachers are expected to handle situations such as:

1. Arriving late for class
2. Arriving for class unprepared
3. Chewing gum or eating candy
4. Causing minor disruptions
5. Profane, obscene, or other improper language
6. Disrespect or insubordination
7. Defiant behavior

Students will be referred to administration for these or other significant infractions:

1. Threatening, intimidating or harassing others
2. Abusive language

3. Serious incidents of fighting
4. Any act which threatens the safety of others
5. Possession of any dangerous weapon or implement
6. Theft or damage to personal property of others
7. Possession of any illegal substance or apparatus
8. Acts of vandalism
9. Starting a fire or pulling a false alarm

The student will be immediately isolated from the student body and the parent will be called to the school to take the student home. Student will be allowed back in school after a meeting is held with school administration. Any work missed during the suspension period must be done at home and turned in to the teacher the morning the student returns. Failure to do so will result in a zero for the work.

POWDER MILL SCHOOL THREE STRIKES PLAN

Time Out/Detention Procedure

1. Teacher will assign Time Out/Detention and record the action.
2. If the student does not attend the assigned Time Out/Detention, the teacher will reassign the Time Out/Detention and administration will assign a secondary Time Out/Detention and the parent will be notified.

What Happens During Time Out/ Detention?

A Time Out/Detention for a violation of the classroom policy is an assigned period of time with the student in which there is direct supervision with teacher or administrator. A Time Out/Detention will be assigned during recess, lunch or after school. A requirement of the Time Out/Detention will be for the student to process the behavior.

Students assigned a Time Out/Detention will report to the staff member in charge. Students are expected to be quiet and working for the entire session.

Repetitive Behaviors

If a student receives **three behavioral Time Outs/Detentions within the same term**, then the following actions will be taken:

1. All documentation must be forwarded to the main office and reviewed by administration.
2. Administration will notify teacher of the decision to move forward, request further clarification, or return file.
3. If a decision is made to move forward, a mandatory meeting between the teacher, parent, student and administrator will be held. During this meeting:
 - The teacher will present the parent with a clear description of the student's behavior in the classroom and methods of intervention attempted at the classroom level.
 - The administrator, teacher and parent will discuss the future expectations placed upon the student when he/she re-enters the classroom.
 - Both the student and parent will be informed that, for the balance of the marking term, the next action taken with respect to the student's misbehavior will be an internal suspension.

FIRES AND FALSE ALARMS

Deliberately starting a fire or pulling a false alarm is not only a dangerous act but is against the law. The safety of fellow students, staff, and firefighters are at stake.

RULES:

1. Students will not willfully start a fire within the school building or on school grounds.
2. Students may not pull or call in a false alarm.

ANY STUDENT CAUGHT STARTING A FIRE OR PUTTING IN A FALSE ALARM MUST HAVE HIS/HER NAME TURNED OVER TO THE POLICE AND FIRE DEPARTMENTS, WHO IN TURN, MUST PROSECUTE THE CASE IN JUVENILE COURT. THE RESULT COULD BE A CONVICTION AND A FINE. IN ADDITION, THE STUDENT WILL BE SUSPENDED FROM SCHOOL.

PHYSICAL RESTRAINT

The Southwick-Tolland-Granville Regional School District complies with the Department of Education (D.O.E.) restraint regulations, 603 C.M.R. 46.00 et seq., as required by law. These regulations apply not only while attending school, but also at school-sponsored events and activities, whether or not on school property. Copies of this law are available at <http://www.doe.mass.edu/lawsregs/603cmr46.html>, and in the office of the principal.

In Southwick-Tolland-Granville Regional School District schools, we use non-violent restraint such as redirection, escorts to quiet areas, talking to students and other such methods. Physical restraint is only used as a last resort.

PLAGIARISM

Any student found engaging in cheating (e.g., copying from another student's assignment, term paper, quiz or exam) will receive a zero grade. Written work copied verbatim from source books, periodicals, or any other source, without being given proper documentation is considered plagiarism and will not be accepted. Any student who willingly allows his written assignment, term paper, quiz or exam to be copied, will also receive a zero grade for that assignment, term paper, quiz or exam.

Consequences: Teacher action.

The Assistant Principal and your parents will be informed.

You will not receive credit on the quiz or test.

You may be assigned a detention.

Also prohibited are tobacco products, fireworks, laser pointers, knives, toy guns, skateboards, CD players, hardballs, toys, stuffed animals, handheld gaming systems, chewing gum and anything else that disrupts the educational process. Toys attached to backpacks can be dangerous for students getting on and off the bus. Therefore, these are also prohibited.

CODE: NON-DISCRIMINATION POLICY INCLUDING HARASSMENT AND RETALIATION

Category: Foundations and Basic Commitments

Adopted: 3/9/05

File No.: AC

Revised: 2/7/2017;

10/24/2017;

The Southwick-Tolland-Granville Regional School District is committed to maintaining and promoting an educational environment free from all forms of discrimination, including harassment. The civil rights of all school community members are guaranteed by law, and the protection of those rights is of utmost importance and priority to the District. The members of the school community include the School Committee, employees, administration, faculty, staff, students, volunteers in the schools, and parties contracted to perform work for the Southwick-Tolland-Granville Regional School District.

The Southwick-Tolland-Granville Regional School District does not exclude from participation, deny the benefits of the Southwick-Tolland-Granville Regional School District from or otherwise discriminate against, individuals on the basis of race, color, sex, sexual orientation, gender identity, religion, disability, age, genetic information, active military/veteran status, marital status, familial status, pregnancy, or pregnancy-related condition, homelessness, ancestry, ethnic background, national origin, or any other category protected by state or federal law in the administration of its educational and employment policies, or in its programs and activities. Such discrimination will not be tolerated. Retaliation against any student or other individual who has complained of discrimination, including harassment, or individuals who have cooperated with an investigation of such a complaint, is also unlawful and will not be tolerated.

The District will promptly investigate, remedy any harm, seek to prevent recurrence of such conduct, and will also develop procedures to accomplish this end. This policy applies to conduct directed toward persons associated with the educational community by all other persons associated with the educational community including, but not limited to, students, District employees, the School Committee, school volunteers, and independent contractors.

I. What Is Discrimination, including Harassment?

Definitions

"Discrimination" and "Harassment" are defined as unwelcome conduct, whether verbal or physical, that is based on any individual's actual or perceived race, color, sex, sexual orientation, gender identity, religion, disability, age, genetic information, active military/veteran status, marital status, familial status, pregnancy or pregnancy-related conditions, homelessness, ancestry, ethnic background, national origin, or any other category protected by state or federal law, Discrimination and/or harassment includes, but is not limited to:

- Verbal abuse or insults about, directed at, or made in the presence of, an individual or group described above.
- Any action or speech that contributes to, promotes or results in a hostile or discriminatory environment to an individual or group described above
- Any action or speech that is sufficiently severe, pervasive or persistent that it either (i) interferes with or limits the ability of an individual or group described above to participate in or benefit from employment or a program or activity of the Southwick-Tolland-Granville Regional School District; or (ii) creates an intimidating, threatening or abusive educational or working environment.

Harassment may include, but is not limited to, any unwelcome, inappropriate, or illegal physical, written, verbal, graphic, or electronic conduct, and that has the intent or effect of creating a hostile education or work environment by limiting the ability of an individual to participate in or benefit from the district's programs and activities or by unreasonably interfering with that individual's education or work environment or, if the conduct were to persist, would likely create a hostile educational or work environment.

"Title IX Sexual Harassment" (effective August 14, 2020) means verbal, physical or other conduct that targets a person based on their sex, and that satisfies one or more of the following:

- A school employee conditioning educational benefits or services on participation in unwelcome sexual conduct (i.e., quid pro quo);
- Any unwelcome conduct that a reasonable person would find so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the school's educational program or activity;
- Any instance of "sexual assault", "dating violence", "domestic violence", or "stalking", as those terms are defined by the Clery Act (20 U.S.C. 1092(f)(6)(A)(v)) and the Violence Against Women Act (34 U.S.C. 12291(a)(8), (10) & (30)).

Allegations of Title IX Sexual Harassment shall be reported and investigated pursuant to the Southwick-Tolland-Granville Regional School District Protocol for Investigating Sexual Harassment and Retaliation Pursuant to Title IX. Please also see Policy ACAB.

II. Responsibilities of all Persons Associated with Educational Community

Each member of the educational community is personally responsible for ensuring that his/her conduct does not in any way harass or discriminate against any other person that he/she has contact with in the performance of his/her duties or studies or while acting as a member of the school community. In addition, each member of the educational community is required to fully cooperate in any investigation of alleged discrimination, including harassment. Further, District employees are obligated to intervene and stop any discrimination, including harassment they witness and to immediately report to the appropriate party instances of discrimination, including harassment that are reported to them or of which they otherwise learn.

The Civil Rights Coordinator is responsible for receiving reports and complaints of violations of this Policy. Individuals may file a report or complaint of discrimination, including harassment, with the Civil Rights Coordinator and/or Title IX Coordinators if the complaint involves sexual harassment. If the complaint involves allegations of discrimination based on disability, the person filing the complainant also has the option to file his/her complaint with the building level 504 coordinator. A report or complaint of a violation involving the Civil Rights Coordinator(s) and/or Title IX Coordinators should be filed with the Superintendent. A report or complaint of violation involving the Superintendent should be filed with the Committee.

The Civil Rights and Title VI Coordinator:

Section 504/Title II Coordinator:

Jenny Sullivan, Director of Curriculum and Instruction, 86 Powder Mill Road, Southwick, MA 01077, (413) 569-5391
jsullivan@stgrsd.org

An individual can contact any of the above listed Coordinators to file a report/complaint as well as to seek assistance in the filing of a report/complaint. If a report/complaint is filed, the person should provide the Coordinator(s) with any documentation (emails, notes, pictures, etc.) or other information in support of the allegation of discrimination, including harassment.

V. Investigation of Complaints

Upon receipt of a report or complaint of discrimination and/or harassment, the relevant Coordinator(s) should conduct a prompt investigation. The investigation must allow for the complainant, the subject of the complaint, the alleged harasser, and any other appropriate party to provide information, including witnesses or other evidence, relevant to the consideration

and resolution of the complaint. The Coordinator(s) will also endeavor to promptly interview and obtain detailed written statements from potential witnesses. If further documentation or information is necessary, the Coordinator(s) will notify the appropriate party, asking that the information be provided within ten (10) school/working days. The Civil Rights Coordinator may also assign a designee to conduct the investigation in consultation with the Civil Rights Coordinator.

The District will take interim steps, as necessary, to ensure the safety and well-being of the complainant and the alleged harasser while the investigation is being conducted. Interim measures are available even if the complainant does not file or continue to pursue a complaint. The Civil Rights Coordinator(s) shall notify the complainant and the alleged harasser of specific types of interim measures available, which may include measures to avoid contact with the other party, allowing employees to change work situations as appropriate, or prohibiting contact between the parties pending the results of the District's investigation. At any time, a complainant or the alleged harasser may request either orally or in writing to the Civil Rights Coordinator that specific interim measures be taken pending the outcome of the investigation.

A written determination regarding the complaint and any resolution will be provided by the Civil Rights Coordinator to the complainant and the alleged harasser once the investigation is complete. The determination of whether the District's antidiscrimination policy has been violated will be based upon a preponderance of the evidence standard.

The complainant or the alleged harasser may request reconsideration of the determination and/or resolution of a complaint by notifying the Superintendent in writing or verbally within seven (7) school/working days of receipt of the written determination of the Civil Rights Coordinator. The Superintendent or his/her designee will respond to such request with notice to both parties within (30) thirty school/working days of receipt of the request for reconsideration; his/her decision is final.

If a violation is found to have occurred, the District will take steps to prevent recurrence of the violation and correct its discriminatory effect on the person(s) affected. Such steps may include appropriate disciplinary action, counseling, development of a safety plan and other remedies, as appropriate.

VI. Consequences of Violating Policy - Discipline & Discharge

Any employee who violates this policy will be subject to disciplinary action consistent with the contractual provisions governing his/her employment. In appropriate circumstances, the District may also refer the matter to law enforcement officials for possible prosecution.

Any student who violates this policy will be subject to disciplinary action, which may range from detention, suspension from schools, or expulsion from school. (Note: students with disabilities will be subject to the applicable disciplinary procedures set forth in the Students' Rights and Responsibilities District handbook, which adhere to Individuals with Disabilities Education Act and Section 504 of Rehabilitation Act of 1973.) In appropriate circumstances, the District may also refer the matter to law enforcement officials for possible prosecution.

VII. Confidentiality

Investigations of discrimination, including harassment complaints shall be conducted in such a manner as to disclose information only to those with a need to know or those who may have information pertinent to the investigation. Please note, some level of disclosure may be necessary in the course of conducting interviews in connection with investigation of any complaint under this policy. The District shall endeavor to keep such information as confidential as it can without compromising the thoroughness of the investigation.

VIII. State and Federal Authorities

In addition to the process described above, the complainant may, at any time, file a complaint with the U.S. Department of Education Office for Civil Rights, Massachusetts Commission Against Discrimination, Massachusetts Department of Elementary and Secondary Education, or other appropriate federal or state agency charged with enforcement of state and federal laws prohibiting discrimination, including harassment based on membership in a protected class.

File No.: ACAB

Revised: 11/5/2018, 8/18/2020

The Southwick-Tolland-Granville Regional School Committee and the Southwick-Tolland-Granville Regional School District are committed to maintaining an education and work environment for all school community members that is free from all forms of harassment, including sexual harassment. The members of the school community include the School Committee, employees, administration, faculty, staff, students, volunteers in the schools, and parties contracted to perform work for the Southwick-Tolland-Granville Regional School District.

Sexual harassment is unwelcome conduct of a sexual nature. The definition includes unwelcome conduct on the basis of sex that is so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the school's education program or activity it also, includes unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, or physical conduct of a sexual nature. Sexual harassment includes conduct by an employee conditioning an educational benefit or service upon a person's participation in unwelcome sexual conduct, often called quid pro quo harassment and, sexual assault as the Federal Clery Act defines that crime. Sexual violence is a form of sexual harassment. Sexual violence, as the Office of Civil Rights (OCR) uses the term, refers to physical sexual acts perpetrated against a person's will or where a person is incapable of giving consent (e.g., due to the student's age or use of drugs or alcohol, or because an intellectual or other disability prevents the student from having the capacity to give consent). A number of different acts fall into the category of sexual violence, including rape, sexual assault, sexual battery, sexual abuse and sexual coercion.

Massachusetts General Laws Ch. [119, Section 51 A](#), requires that public schools report cases of suspected child abuse, immediately orally and file a report within 48 hours detailing the suspected abuse to the Department of Children and Families. For the category of sexual violence, in addition to Section 51A referrals these offences and any other serious matters shall be referred to local law enforcement.

While it is not possible to list all those additional circumstances that may constitute sexual harassment, the following are some examples of conduct, which if unwelcome, may constitute sexual harassment, depending on the totality of the circumstances, including the severity of the conduct and its pervasiveness:

- Unwelcome sexual advances-whether they involve physical touching or not;
- Sexual epithets, jokes, written or oral references to sexual conduct, gossip regarding one's sex life; comment on an individual's body, comment about an individual's sexual activity, deficiencies, or prowess;
- Displaying sexually suggestive objects, pictures, cartoons;
- Unwelcome leering, whistling, brushing against the body, sexual gestures, suggestive or insulting comments;
- Inquiries into one's sexual experiences; and,
- Discussion of one's sexual activities.

The legal definition of sexual harassment is broad and in addition to the above examples, other sexually oriented conduct, whether it is intended or not, that is unwelcome and has the effect of creating an environment that is hostile, offensive, intimidating, to male, female, or gender non-conforming students or employees may also constitute sexual harassment.

Because the District takes allegations of harassment, including sexual harassment, seriously, we will respond promptly to complaints of harassment including sexual harassment, and following an investigation where it is determined that such inappropriate conduct has occurred, we will act promptly to eliminate the conduct and impose corrective action as is necessary, including disciplinary action where appropriate.

Please note that while this policy sets forth our goals of promoting an environment that is free of harassment including sexual harassment, the policy is not designed or intended to limit our authority to discipline or take remedial action for conduct which we deem unacceptable, regardless of whether that conduct satisfies the definition of harassment or sexual harassment.

Retaliation against a complainant, because they have filed a harassment or sexual harassment complaint or assisted or participated in a harassment or sexual harassment investigation or proceeding, is also prohibited. A student or employee who is found to have retaliated against another in violation of this policy will be subject to disciplinary action up to and including student suspension and expulsion or employee termination.

The complainant does not have to be the person at whom the unwelcome sexual conduct is directed. The complainant, regardless of gender, may be a witness to and personally offended by such conduct.

NOTICE OF SEXUAL HARASSMENT

The regulations require a school district to respond when the district has actual notice of sexual harassment. School districts have actual notice when an allegation is made known to any school employee. Schools must treat seriously all reports of sexual harassment that meet the definition of harassment and the conditions of actual notice and jurisdiction as noted whether or not the complainant files a formal complaint. Holding a school liable under Title IX can occur only when the school knows of sexual harassment allegations and responds in a way that is deliberately indifferent (clearly unreasonable in light of known circumstances). Schools are required to investigate every formal complaint and respond meaningfully to every known report of sexual harassment.

The regulation highlights the importance of supportive measures designed to preserve or restore access to the school's education program or activity, with or without a formal complaint. Where there has been a finding of responsibility, the regulation would require remedies designed to restore or preserve access to the school's education program or activity.

REPORTING

Any person may file a report of sex discrimination, including sexual harassment (whether or not the person reporting is the person alleged to be the victim of conduct that could constitute sex discrimination or sexual harassment), at any time either in person, by mail, by telephone, or by electronic mail, using the contact information listed for the Title IX Coordinator, or by any other means that results in the Title IX Coordinator receiving the person's verbal or written report. However, if a person files a false complaint in bad faith, knowingly and intentionally, they will be subject to discipline.

Title IX Coordinator:

Jenny Sullivan, Assistant Superintendent of Curriculum and Instruction, 86 Powder Mill Road, Southwick, MA 01077, (413) 569-5391 jsullivan@stgrsd.org

The contact information for the Title IX Coordinators will always be prominently displayed on the school's website.

INVESTIGATIONS

The School will investigate and adjudicate formal complaints of sexual harassment using a grievance process that incorporates due process principles, treats all parties fairly, and reaches reliable responsibility determinations. The school's grievance process will:

- Give both parties written notice of the allegations, an equal opportunity to select an advisor of the party's choice at the party's own expense (who may be, but does not need to be, an attorney), and an equal opportunity to submit and review evidence throughout the investigation;
- Use trained Title IX personnel to objectively evaluate all relevant evidence without prejudgment of the facts at issue and free from conflicts of interest or bias for or against either party;
- Protect parties' privacy by requiring a party's written consent before using the party's medical, psychological, or similar treatment records during a grievance process;
- Obtain the parties' voluntary, written consent before using any kind of "informal resolution" process, such as mediation or restorative justice, and not use an informal process where an employee allegedly sexually harassed a student;
- Apply a presumption that the respondent is not responsible during the grievance process (often called a "presumption of innocence"), so that the school bears the burden of proof and the standard of evidence is applied correctly;
- Use the preponderance of the evidence standard for all complaints of harassment on the basis of sex, regardless of whether the complaint is against students or district employees;
- Ensure the decision-maker is not the same person as the investigator and/or the Title IX Coordinator (i.e., no "single investigator models");
- Parties may submit written questions for the other parties and witnesses to answer;
- Protect all complainants from inappropriately being asked about prior sexual history ("rape shield")
- Send both parties a written determination regarding responsibility explaining how and why the decision-maker reached conclusions;
- Effectively implement remedies for a complainant if a respondent is found responsible for sexual harassment;
- Offer both parties an equal opportunity to appeal;
- Protect any individual, including complainants, respondents, and witnesses, from retaliation for reporting sexual harassment or participating (or refusing to participate) in any Title IX grievance process;
- Make all materials used to train Title IX personnel publicly available on the school's website or, if the school does not maintain a website, make these materials available upon request for inspection by members of the public; and
- Document and keep records of all sexual harassment reports and investigations for at least seven years.

RECORD KEEPING

Schools must create and maintain records documenting every Title IX sexual harassment complaint. Records relating to complaints of sexual harassment must be kept in accordance with the records retention schedule. Such records include: records of a school's investigation (including complaints (formal and informal), notices, the determination, investigative report, disciplinary measures or remedies, etc.); records of any appeals and materials associated with the appeal; records of any supportive measures taken in response to a complaint of sexual harassment (even if the complainant does not file a formal complaint); records of any informal resolution process; all materials used to train Title IX Coordinators, Investigators, decision makers, and those facilitating an informal resolution. The training materials must be kept on the School's website.

RETALIATION IS PROHIBITED

Any person who experiences retaliation for exercising their rights under Title IX can file a retaliation complaint with the Title IX Coordinator. The school will keep the names/identity of parties and witnesses confidential unless such disclosure is required under another law, or is necessary to conduct a thorough grievance procedure.

SUPPORTIVE MEASURES

When alleged sexual harassment is reported, the Title IX Coordinator must inform the victim to their right of supportive measures even if no formal complaint is filed. The school must consider the alleged victim's wishes with respect to supportive measures. Supportive measures for those involved in the sexual harassment complaint process may include: counseling, extending deadlines, modifications of work and/or class schedules, school escort services, increased school security and/or monitoring, mutual restrictions on contact between the individuals involved through a safety plan.

Supportive measures will be kept confidential whether they are provided to the alleged victim or accused person to the extent the confidentiality will not interfere with the supportive measure offered.

This policy, or a summary thereof that contain the essential policy elements shall be distributed by the Southwick-Tolland-Granville Regional School District to its students and employees and each parent or guardian shall sign that they have received and understand the policy.

Please note that the following entities have specified time limits for filing a claim.

The Complainant may also file a complaint with:

The District is committed to providing a safe environment in schools during the ongoing COVID-19 pandemic. Maintaining a safe environment is critical to the District's ability to ensure students remain in a full-time classroom learning environment.

According to public health experts, one of the best ways to stop the spread of coronavirus and to keep members of our school community safe is the use of face masks or face coverings. Therefore, in accordance with guidance and recommendations from the Center for Disease Control (CDC), the Department of Elementary and Secondary Education (DESE) and the Massachusetts Department of Public Health (DPH), the following requirements are in place until further notice.

A face covering that covers the nose and mouth is strongly recommended to be worn by individuals who remain unvaccinated or are otherwise immunocompromised in school buildings, and on school grounds, even when social distancing is observed.

Individuals who are vaccinated are not required to wear a mask, but may do so if desired.

Students and staff returning from 5 day quarantine following a positive COVID test must follow strict mask use, other than when eating, drinking, or outside, and conduct active monitoring for symptoms, through day 10 of exposure.

Masks will be required in all school health offices.

**CODE: BUS STOP PROCEDURE FOR ELEMENTARY
STUDENTS**

Category: Students

File No.: EEAED

Adopted: 5/17/16

Revised: 11/05/2018

K – 2 Bus Stop Standard Procedure:

The health and safety of young children is a primary concern of the Southwick Tolland Granville Regional School District. Therefore, no Preschool, Kindergarten or Special Needs Child (as identified) will be left at a bus stop unless there is a responsible adult present who will assume all responsibility for the child. A parent/guardian may submit a note to dismiss a child to an older sibling or to another adult. If there is no sibling or responsible adult present to retrieve the child, the child will be brought back to the school. Students beyond the kindergarten level will be released from the bus unless the bus driver has concern for the child's safety. Bus drivers will have the discretion to determine if a child should be returned to the school.

Grades K-2 Bus Stop Exception:

Occasionally, a child's designated bus stop is in a location that requires an adult to drive to the bus stop to retrieve his or her child (e.g., bus drop off is not in the child's own neighborhood – it may be a parking lot of a business). When this is the case for a student in grades K-2 and a responsible adult is not present at the bus stop, the child will be brought back to the school; unless a parent/guardian submits a note to dismiss a child to an older sibling or to another adult who will assume all responsibility for the child.

In the event no parent or designee is at the bus stop the procedure will be:

1. The bus driver will contact the district and may bring the child back to the school
2. The school will call the parent/guardian or emergency contact
3. If the parent has not been reached after a reasonable amount of time, the police will be notified.
4. The police and/or school personnel will remain with the child until a responsible adult/guardian is reached.

This authority shall extend additionally to all vehicles contracted by the District for the transportation of its students.

The presence of video and audio recording devices on school transportation vehicles shall be announced by signage displayed prominently on the vehicle. The District may access recordings for the purpose of investigating complaints against students, staff, and the public. Recordings may be used as evidence in the discipline/prosecution of students, staff and the public. Recordings used for said purpose shall be retained by the District until the final resolution of any discipline/prosecution, including the time period for appeal or a court ordered retention period (if any). Recordings not used for discipline, law enforcement or court action will be erased and the recorded media reused at the direction of the Superintendent or designee. Access to recordings shall be limited to the following individuals, unless expressly granted to another by the Superintendent of Schools.

A recording shall only be viewed if there is a report of a

serious incident as determined by the Superintendent or designee, or a complaint relative to conduct. The Superintendent or designee will be responsible for maintaining a log of the date and names of all individuals who review a recording. *Video and audio recordings used as part of disciplinary or other proceedings regarding students shall be considered an educational record for purposes of the Family Educational Rights and Privacy Act (“FERPA”). Release of such video and audio recordings will only occur pursuant to disclosure requirements of FERPA and such recordings may not be released to parents without the express, written permission of the parents of all identifiable students. CODE: FOOD ALLERGY POLICY
Category: SUPPORT SERVICES
File No.: EFAB

Adopted: 10/2/07
Revised:

The Southwick-Tolland-Granville Regional School District recognizes the increasing prevalence of student allergies and the life-threatening nature of allergies for many students. The school district administration has developed and implemented a policy and protocol to minimize the risk of exposure to allergens that pose a threat to students, to educate all members of the school community on management of student allergies, and to plan for the needs of students with allergies. The schools are committed to working with allergic students and their parents to address the students’ emotional and social needs in addition to their health needs.

Food allergies can be life threatening. The risk of accidental exposure to foods can be reduced in the school setting if schools work with students, parents, and physicians to minimize risks and provide a safe educational environment for food-allergic students.

Family’s responsibility

- Notify the school of the child’s allergies each new school year.
- Work with the school team to develop a plan that accommodates the child’s needs throughout the school including classroom, in the cafeteria, during school sponsored activities, and on the school bus, as well as a Food Allergy Action Plan.
- Provide written medical documentation, instructions, and medications as directed by a physician, using the Food Allergy Action Plan as a guide. Include a photo of a child on a written form.
- Provide properly labeled medications and replace medications after use or upon expiration.
- Encourage parents to have allergic child wear Medic Alert necklace or bracelet.
- Educate the child in the self-management of their food allergy including:
 - ❖ safe and unsafe foods
 - ❖ strategies for avoiding exposure to unsafe foods
 - ❖ symptoms of allergic reactions
 - ❖ how and when to tell an adult they may be having an allergy-related problem
 - ❖ how to read food labels (age appropriate)
- Review policies/procedures with the school staff, the child’s physician, and the child after a reaction has occurred.
- Provide emergency contact information
- Parents are strongly encouraged to inform the bus or van driver, and any substitute driver when possible, about their child’s allergy.

School’s responsibility

- Be knowledgeable about and follow applicable federal laws including ADA, IDEA, Section 504, and FERPA and any state laws or district policies that apply.
- Review the health records submitted by parents and physicians.
- Include food-allergic students in school activities. Students should not be excluded from school activities solely based on their food allergy.
- Assure that all staff who interact with the student on a regular basis (including bus, van, and substitute drivers) understand food allergy, can recognize symptoms, knows what to do in an emergency, and works with other school staff to eliminate the use of food allergens in the allergic student’s meals, educational tools, arts and crafts projects, or incentives.
- All staff members who interact with the student on a regular basis will be trained on the management of student allergies. The training will address prevention efforts, information about common allergens, recognition of signs

of an allergic reaction including anaphylaxis, and the emergency response plan. The training will be provided annually at the start of the school year.

- Appropriate staff members will be trained regarding the administration of an Epi-pen, as outlined in the Department of Public Health regulations. All staff members will be informed of the location of the Epi-pens.
- Work with the district transportation administrator to assure that school bus/van driver training includes symptom awareness and what to do if a reaction occurs.
- Enforce a “no eating” policy on school buses. Exceptions will be provided for those students with diabetes who may need a snack to treat a hypoglycemic episode or for circumstances where students are traveling for long periods of time. Students will be informed of this policy at the beginning of each school year, and said policy will be included in each school handbook.
- Discuss field trips with the family of food allergic child to plan appropriate strategies for managing the food allergy.
- Follow federal/state/district laws and regulations regarding sharing medical information about the student.
- Take threats or harassment against allergic child seriously.
- Substitute teachers, when applying for employment, will be provided information on the management of student allergies. This information will address prevention efforts, information about common allergies, recognition of signs of an allergic reaction including anaphylaxis, and the emergency response plan.
- An Individual Health Care Plan and Allergy Action Plan that addresses management will be developed for each student with an allergy. A copy of the Allergy Action Plan will be provided to the classroom teacher and substitutes for all preschool to grade 5 students and to all core subject teachers for middle school students. The protocol will address how much information about student allergies will be provided to other personnel, such as specialists, as needed. The implementation of the District protocol and of the individual plan for each allergic student requires a team approach and cooperation among administrators, teachers and other staff members, parents, and the student as appropriate.

Student's responsibility

- Should not trade food with others.
- Should not eat anything with unknown ingredients or known to contain any allergen.
- Should be proactive in the care and management of their food allergies and reactions based on their developmental level.
- Should notify an adult immediately if they eat something, they believe may contain food to which they are allergic.

Classroom management procedures

- Appropriate accommodations may be made in the classroom.
- Procedures will address education of parents and student and planning for special events involving food. The protocol will allow for age-appropriate classroom rules. For preschool to grade 4 students, the classroom teacher, in collaboration with the nurse and with input from parents of the food allergic child, will develop classroom specific protocol regarding management of food in the classroom.

Kitchen and cafeteria procedures

- All kitchen staff will only use latex-free gloves
- The school kitchen will prepare all products in a manner that will minimize the risk of cross contamination of foods. The preparation area and all utensils will be washed in hot, soapy water immediately after the completion of the task.
- All food products will be clearly labeled as to ingredients.
- Peanut/nut-free table (or areas of tables) will be provided as needed and will be clearly identified. Allergy tables are to be positioned in a manner that minimizes the isolation of allergic students. When feasible, other students will be encouraged to sit at allergen-free tables if appropriate measures are in place to minimize cross-contamination of the allergen-free tables.
- The staff on lunch duty will ensure that the allergen-free table(s) and chairs will be washed before lunches begin and after each group finishes. The same tables will be used each day and will be clearly marked as allergen-free. Volunteers and/or substitutes will be informed which tables are allergen-free.
- Staff and volunteers on lunch duty shall monitor the students' compliance with the food allergy protocol at allergen-free table(s). They should also be aware of any bullying or teasing behavior toward a food-allergic student and report any such incidents to the administrator.
- Students will be discouraged from sharing any food or utensils throughout the cafeteria.

Procedure for handling epinephrine

- Each school must maintain a current supply of epinephrine by auto-injector (Epi-pens) and must comply with all Department of Public Health regulations for administration, storage, and record-keeping concerning epinephrine.
- The school nurse shall register with the Department of Public Health, and shall train other school personnel to administer epinephrine in accordance with 105 CMR 210.
- All staff members will be informed of the location of the Epi-pens.

Emergency response procedures

- All staff members supervising students with life-threatening allergies must have means of communication to call for assistance.
- The school nurse or another school staff member trained to administer epinephrine in accordance with 105 CMR 210 must be available in each school during the school day and must accompany food allergic student on field trips. The protocol must provide for the management of anaphylaxis in individuals with unknown allergies, including an authorization for administration of epinephrine by the school nurse signed by the school physician.

The implementation of the District protocol and of the individualized plan for each allergic student requires a team approach and cooperation among administrators, teachers and other staff members, parents, and the student as appropriate.

CODE: UNPAID MEAL CHARGE POLICY

Category: Support Services

Adopted: 5/21/2020

File No.: EFDA

Revised:

The School Committee is committed to providing students with healthy, nutritious meals each day so they can focus on school work, while also maintaining the financial integrity of meal programs and minimizing any impact on students with unpaid meal charges (i.e. purchases of meals made against an account with an insufficient balance). However, unpaid meal charges can place a significant financial burden on the School District, as the school nutrition operation is intended to be a self-supporting program within the District and operational deficits must be funded by the general fund or other financial resources of the District. The purpose of this policy is to ensure compliance with federal reporting requirements of the USDA Child Nutrition Program, as well as provide oversight and accountability for the collection of outstanding student meals account balances.

The provisions of this policy pertain to regular priced school meals only.

Meal Charges and Balances

Students will pay for meals at the regular rate approved by the School Committee and for their meal status (regular, reduced-price, or free) each day. Payment options will be delineated in student handbooks and provided to parents of incoming students. All students will be assigned an account by the School Nutrition Office. After a student's account reaches zero or enters the negative, the student's parent/guardian will be notified by e-mail or phone call that funds must be deposited to avoid interruption to meal purchases. Student's with balances at or below \$0.00 will not be allowed to purchase "a la carte" items including, but not limited to, a second entrée, snack, ice cream, or an additional beverage. For students in grades Pre-K through 6, the student will still be allowed to purchase a qualifying reimbursable meal, and that meal will continue to be charged to the student's account at the standard meal rate based on their meal status. For students in grades 7 through 12, the student will be allowed to purchase a qualifying reimbursable meal until the student's meal account reaches the negative value equivalent to five (5) regular qualifying reimbursable meals. Students in grades 7 through 12 with account balances at or below the negative value equivalent to five (5) regular qualifying reimbursable meals who attempt to purchase meals shall be denied at the point of sale.

Payments

Parents/guardians are responsible for all meal payments to the School Nutrition Program. Notices of low or deficit balances will be sent directly to parents/guardians via email or regular postal mail at regular intervals during the school year. At no time shall any staff member give payment-due notices or account statements to students unless a student is known to be an emancipated minor who is fully responsible for themselves, or is over the age of 18. If parents/guardians have questions or concerns regarding student purchases and/or account balances, they should contact the School Nutrition Office.

Parents/guardians must pay for meals in advance. Further details are available on the District’s website and in student handbooks. Sufficient funds should be maintained in student accounts to minimize the possibility that a student may be without a sufficient balance on any given day. At the conclusion of the school year any remaining funds for a particular student, whether positive or negative, will be carried over to the next school year.

All school cafeterias will utilize computerized point-of-sale register systems that maintain records of all monies deposited and spent for each student and those records shall be available to parents through an online account or by speaking with the school’s kitchen manager or the Director of School Nutrition. The point-of-sale system shall be designed to prevent direct identification of a student’s meal status. Parents/guardians will receive notification of low-balance accounts via email or regular postal mail on a weekly basis, if applicable. For accounts with persistent negative balances, parents/guardians will be contacted by phone by the School Nutrition Office. Accounts that remain at a negative balance for 30-days or more will be referred to the District’s Business Office for further collection efforts.

Refunds

Refunds of account balances for withdrawn and graduated students require a written request by the parent/guardian. Parents/guardians of graduated students also have the option to transfer funds to a sibling’s account or to donate the balance to another student’s account with a written request to the Director of School Nutrition.

Delinquent Accounts/Collections

Accounts that remain in a delinquent status may result in a student’s loss of access to extra-curricular school services, especially those that are fee based. Graduating seniors may lose the ability to participate in certain graduation-related activities.

The Superintendent of Schools shall ensure that there are appropriate and effective collection procedures and internal controls within the School District’s Business Office that meet the requirements of law.

If a student is without a lunch and his/her meals account is in a delinquent status on a consistent basis, the school administration may investigate the situation more closely and take further action as necessary. If evidence of financial hardship exists or is suspected, parents/guardians will be encouraged to pursue eligibility for free or reduced price meals for their child. Each school handbook shall contain detailed instructions for parental assistance

Policy Communications

This policy shall be communicated to all related staff and families at the beginning of each school year and to families transferring to the District during the school year.

To accommodate the rights and interests of all parties mentioned above, including the interests of the Southwick-Tolland-Granville Regional School District and to provide high quality Chapter 74 programming to the students residing in our district, the following policy/procedure is adopted.

The Southwick-Tolland-Granville Regional School District recognizes the right of a student residing in any of the three towns that together constitute our regional school district, to attend a training school in the Commonwealth of Massachusetts in accordance with M.G.L. c. 74 Sec. 7. Additionally, the Regional School District identifies the Career

Technical Education Collaborative at the Lower Pioneer Valley Collaborative as the District's preferred high school for students who seek the educational opportunity stated in the above statute.

A student residing in any of the three towns that constitute the Southwick-Tolland-Granville Regional School District who seeks to be admitted to a high school for a Chapter 74 approved vocational technical education program may apply to any high school that offers a Chapter 74 approved vocational technical education program in which that student is interested. A student's request for non-resident tuition and transportation under the Chapter 74 vocational tuition and transportation option shall be submitted to the Superintendent of Schools by not later than April 1 of the year prior to matriculation, for the Superintendent's consideration based on pertinent criteria, including the availability of the same or substantially similar program at a high school closer to the student's residence or consistent with the District's stated preferred vocational technical high school. A student's parent or guardian or a school that has been disapproved for non-resident tuition by the Superintendent may request that the Commissioner of Elementary and Secondary Education review the denial of tuition in accordance with the guidelines cited above.

A student residing in the STGRSD who seeks to be admitted to a high school for a specific Chapter 74 approved vocational technical education program shall, in addition to applying to any other high school of the student's choosing that offers the program, apply to the preferred high school for the Regional School District. If that Chapter 74 program is offered at the District's preferred high school, and if that student is accepted at the preferred school, then the student shall attend the preferred high school for that Chapter 74 program.

File No.: IJNDB

Adopted: 6/7/05

Revised: 5/21/2019

Purpose

The School Committee recognizes the need for students to be prepared to contribute to and excel in a connected, global community. To that end, the District provides ongoing student instruction that develops digital citizenship skill sets for using technology as a tool. Information and communication technology are an integrated part of our curriculum across subjects and grades in developmentally appropriate ways and are aligned with the Massachusetts Curriculum Frameworks and standards, including seeking knowledge and understanding; thinking critically and solving problems; listening, communicating, and interacting effectively; and engaging and competing in a global environment.

Availability

The Superintendent or designee shall implement, monitor, and evaluate the District's system/network for instructional and administrative purposes.

All users shall acknowledge that they understand that using digital devices, whether personal or school owned, as well as the school District network is a privilege and when using them in accordance with School District guidelines users will retain that privilege.

The Superintendent or designee shall develop and implement administrative guidelines, regulations, procedures, and user agreements, consistent with law and policy, which shall include but not be limited to the following:

- Digital devices, software, and networks shall be used in school for educational purposes and activities.
- The District will comply with all relevant privacy laws relating to personal information that is disseminated using the District's system/network (including home/mobile phone numbers, mailing addresses, and passwords).
- Individuals will show respect for themselves and others when using technology including social media. (CROSS REF: IJNDD Policy on Social Media)
- Users shall give acknowledgement to others for their ideas and work.
- Users shall report inappropriate use of technology immediately.
- The Network is the property of the STGRSD and its storage systems are therefore subject to inspection by the administration at any time. As such, users should be aware that routine maintenance and monitoring of the system may lead to discovery that the user has violated or is violating the STGRSD Empowered Digital Use District Policy, and/or the law. System users should not have an expectation of privacy to the contents of their personal files on the Network.
- If there is suspicion that a user has violated the Empowered Digital Use District Policy or the law an individual search will be conducted. The nature of the investigation will be in the context of the nature of the alleged violation.

These procedures shall be reviewed annually by District administration together with students and teachers and shall provide a springboard for teaching and learning around topics such as Internet safety, digital citizenship, and ethical use of technology.

Parent/Guardian Notification

The STGRSD Empowered Digital Use Policy establishes expectations for appropriate behavior when using District technology. There is a wide range of material available on the Internet, some of which may not be in concert with the particular values of the families of students. It is not practically possible for the STGRSD to monitor and enforce a wide range of social values in student use of the Internet. Further, the District recognizes that parents/guardians bear primary responsibility for communicating their particular set of family values to their children. The District will encourage parents/guardians to specify to their children what material they believe is and is not acceptable for their children to access through the Network. The District will utilize an Empowered Digital Use Form to inform students about what type of materials and behaviors are acceptable and expected. STGRSD will also provide students with instruction about personal safety and well-being while using the Internet and technology through the Massachusetts Digital Literacy and Computer Science curriculum.

District Limitation of Liability

The STGRSD makes no warranties of any kind, either expressed or implied, that the functions or the services provided by or through its Network will be error free or without defect. The District will not be responsible for any damages users may suffer, including but not limited to loss of data, interruptions of service, or physical, psychological, or monetary damages.

The District is not responsible for the accuracy or quality of the information obtained through or stored on the system. The District will not be responsible for unauthorized financial obligations arising through the use of the system.

All guests will be prompted to, and must accept, the district's Access to Digital Resources Policy before accessing the district network.

Disregard of Rules and Responsibility for Damages

Individuals who refuse to sign required Empowered Digital Use documents or who violate district rules governing the use of district technology or networks shall be subject to loss or restriction of the privilege of using equipment, software, information access systems, and network

Individuals shall reimburse the district for repair or replacement of district property lost, stolen, damaged, or vandalized while under their care.

CODE: STUDENT ABSENCES AND EXCUSES

Category: Students

File No.: JH

Adopted: 10/4/05

Revised: 10/21/14

Regular and punctual school attendance is essential for success in school. The Committee recognizes that parents of children attending our schools have special rights as well as responsibilities, one of which is to ensure that their children attend school regularly, in accordance with state law.

Therefore, students may be excused temporarily from school attendance for the following reasons: illness or quarantine; bereavement or serious illness in family; weather so inclement as to endanger the health of the child; and observance of major religious holidays.

A child may also be excused for other exceptional reasons with approval of the Principal or designee.

A student's understanding of the importance of day-to-day schoolwork is an important factor in the shaping of his character. Parents can help their children by not allowing them to miss school needlessly.

Accordingly, parents will provide a written explanation for the absence or tardiness of a child. This will be required in advance for types of absences where advance notice is possible.

In instances of chronic or irregular absence reportedly due to illness, the school administration may request a physician's statement certifying such absences to be justified.

Student Absence Notification Program

Each Principal or designee will notify a student's parent/guardian within 3 days of the student's absence in the event the parent/guardian has not informed the school of the absence.

Each Principal or designee shall meet with any student, and that student's parent/guardian, who has missed five (5) or more unexcused school days (a school day shall be equal to two (2) or more class periods in the same day) in a school year. The meeting shall be to develop action steps to improve student attendance and shall be developed jointly by the Principal or designee, the student, and the student's parent/guardian. The parties may seek input from other relevant school staff and/or officials from relevant public safety, health and human service, housing, and nonprofit agencies.

Dropout Prevention

No student who has not graduated from high school shall be considered permanently removed from school unless the Principal or designee has sent notice to a student, and that student's parent/guardian, who has been absent from school for ten (10) consecutive days of unexcused absence. The notice shall be sent within five (5) days of the tenth consecutive day of absence and shall offer at least 2 dates and times within the next ten (10) days for an exit interview with the Superintendent or designee, the student, and the student's parent/guardian. The notice shall be in both English and the primary language of the home, if applicable. The notice shall include contact information for scheduling the exit interview and shall indicate the parties shall reach an agreement on the date/time of the interview within the ten (10) day timeframe. The timeframe may be extended at the request of the parent/guardian and no extension shall exceed 14 days. The Superintendent or designee may proceed with any interview without a parent/guardian present, provided the Superintendent or designee has documented a good faith effort to include the parent/guardian.

The Superintendent or designee shall convene a team of school staff to participate in the exit interview and shall provide information to the student and, if applicable, the student's parent/guardian on the detrimental effects of early withdrawal from school and the alternative education programs and services available to the student.

CODE: STUDENT RIGHTS AND RESPONSIBILITIES

Category: Students

File No.: JI

Adopted: 10/4/05

Revised:

The school committee has the responsibility to afford students the rights that are theirs by virtue of guarantees offered under the federal and state constitutions and statutes. In connection with rights there are responsibilities that must be assumed by students.

Among these rights and responsibilities are the following:

1. Civil rights – including the rights to equal educational opportunity and freedom from discrimination; the responsibility not to discriminate against others.
2. The right to attend free public schools; the responsibility to attend school regularly and to observe school rules essential for permitting others to learn at school.
3. The right to due process of law with respect to suspension, expulsion, and decisions the student believes injures his rights.
4. The right to free inquiry and expression; responsibility to observe reasonable rules regarding these rights.
5. The right of privacy, which includes privacy in respect to the student's school records.

It is the school committee's belief that as part of the educational process students should be made aware of their legal rights and of the legal authority of the school committee to make, and delegate authority to its staff to make, rules regarding the orderly operation of the schools.

Students have the right to know the standards of behavior that are expected of them, and the consequences of misbehavior. The rights and responsibilities of students, including standards of conduct, will be made available to students and their parents through handbooks distributed annually.

CODE: STUDENT CONDUCT

Category: Students

File No.: JIC

Adopted: 10/4/05

Revised: 10/21/14

04/24/2018

The School Committee believes that all students deserve every opportunity to achieve academic success in a safe, secure learning environment. Good citizenship in schools is based on respect and consideration for the rights of others. Students will be expected to conduct themselves in a way that the rights and privileges of others are not violated. They will be required to respect constituted authority, to conform to school rules and to those provisions of law that apply to their conduct.

Each Principal or designee shall include prohibited actions in the student handbook or other publication and made available to students and parents.

Principals/designee and staff shall not use academic punishment of any form as a consequence to inappropriate behaviors/actions by students.

The Principal or designee may, as a disciplinary measure, remove a student from privileges, such as extracurricular activities and attendance at school-sponsored events, based on the student's misconduct. Such a removal is not subject to the remainder of this policy, law, or regulation.

Suspension

In every case of student misconduct for which suspension may be imposed, a Principal or designee shall consider ways to re-engage the student in learning; and avoid using long-term suspension from school as a consequence until alternatives have been tried. Alternatives may include the use of evidence-based strategies and programs such as mediation, conflict resolution, restorative justice, and positive behavioral interventions and supports.

Notice of Suspension

Except for emergency removal or an in-school suspension of less than 10 days, a Principal or designee must provide the student and the parent oral and written notice, and provide the student an opportunity for a hearing and the parent an opportunity to participate in such hearing before imposing suspension as a consequence for misconduct. The Principal or designee shall provide both oral and written notice to the student and parent(s) in English and in the primary language of the home if other than English. The notice shall include the rights enumerated in law and regulation. To conduct a hearing without a parent present, the Principal or designee must be able to document reasonable efforts to include the parent.

Emergency Removal

A Principal or designee may remove a student from school temporarily when a student is charged with a disciplinary offense and the continued presence of the student poses a danger to persons or property, or materially and substantially disrupts the order of the school, and, in the Principal's or designee's judgment, there is no alternative available to alleviate the danger or disruption.

The Principal or designee shall immediately notify the Superintendent in writing of the removal including a description of the danger presented by the student.

The temporary removal shall not exceed two (2) school days following the day of the emergency removal, during which time the Principal or designee shall: Make immediate and reasonable efforts to orally notify the student and the student's parent of the emergency removal, the reason for the need for emergency removal, and the other matters required in the notice; Provide written notice to the student and parent as required above; Provide the student an opportunity for a hearing with the Principal or designee that complies with applicable regulations, and the parent an opportunity to attend the hearing, before the expiration of the two (2) school days, unless an extension of time for hearing is otherwise agreed to by the Principal or designee, student, and parent; render a decision orally on the same day as the hearing, and in writing no later than the following school day, which meets the requirements of applicable law and regulation.

A Principal or designee shall also ensure adequate provisions have been made for the student's safety and transportation prior to removal.

In School Suspension – Not More Than 10 Days Consecutively or Cumulatively

The principal or designee may use in-house suspension as an alternative to a short-term suspension. It is the principal's responsibility to inform the student of the disciplinary charge and to provide the student the opportunity to dispute the charges and explain the circumstances. If the principal determines that the student committed the offense, the principal must inform the student of the length of the suspension which may not exceed ten days cumulatively or consecutively, in a school year.

It is the principal's, or designee's, responsibility to orally inform the parent of the disciplinary offense, the reasons for concluding that the student committed the infraction and the length of the in-school suspension.

The principal must also invite the parent/guardian to a meeting to discuss the student's academic performance and behavior, strategies for student engagement, and possible responses to the behavior. The principal needs to schedule the parent/guardian meeting for the day of the suspension or as soon as possible, and must document at least two attempts to reach the parent for the purpose of orally informing the parent. Additionally, the principal must send written notice to the student and the parent/guardian about the in-school suspension, inviting the parent to a meeting if such meeting has not occurred, which must be delivered on the day of the suspension.

Principal's or Designee's Hearing – Short Term Suspension of up to 10 Days

The hearing with the Principal or designee shall be to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student committed the disciplinary offense, and if so, the consequences for the infraction.

At a minimum, the Principal or designee shall discuss the disciplinary offense, the basis for the charge, and any other pertinent information.

The student also shall have an opportunity to present information, including mitigating facts, that the Principal or designee should consider in determining whether other remedies and consequences may be appropriate as set forth in law and regulation.

The Principal or designee shall provide the parent, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the Principal should consider in determining consequences for the student.

The Principal or designee shall, based on the available information, including mitigating circumstances, determine whether the student committed the disciplinary offense, and, if so, what remedy or consequence will be imposed.

The Principal or designee shall notify the student and parent of the determination and the reasons for it, and, if the student is suspended, the type and duration of suspension and the opportunity to make up assignments and such other school work as needed to make academic progress during the period of removal, as required by law and regulation. The determination shall be in writing and may be in the form of an update to the original written notice.

If the student is in a public preschool program or in grades K through 3, the Principal or designee shall send a copy of the written determination to the Superintendent and explain the reasons for imposing an out-of-school suspension, before the short-term suspension takes effect.

Principal's or Designee's Hearing – Long Term Suspension of more than 10 days but less than 90 days (consecutive or cumulative)

The hearing with the Principal or designee shall be to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student committed the disciplinary offense, and if so, the consequences for the infraction.

At a minimum, in addition to the rights afforded a student in a short-term suspension hearing, the student shall have the following rights: In advance of the hearing, the opportunity to review the student's record and the documents upon which the Principal or designee may rely in making a determination to suspend the student or not; The right to be represented by counsel or a lay person of the student's choice, at the student's/parent's expense; The right to produce witnesses on his or her behalf and to present the student's explanation of the alleged incident, but the student may not be compelled to do so; The right to cross-examine witnesses presented by the school district; The right to request that the hearing be recorded by the Principal or designee, and to receive a copy of the audio recording upon request. If the student or parent requests an audio recording, the Principal or designee shall inform all participants before the hearing that an audio record will be made and a copy will be provided to the student and parent upon request.

The Principal or designee shall provide the parent, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the Principal or designee should consider in determining consequences for the student.

The Principal or designee shall, based on the evidence, determine whether the student committed the disciplinary offense, and, if so, after considering mitigating circumstances and alternatives to suspension as required by law and regulation, what remedy or consequence will be imposed, in place of or in addition to a long-term suspension. The Principal or designee shall send the written determination to the student and parent by hand-delivery, certified mail, first-class mail, email to an address provided by the parent for school communications, or any other method of delivery agreed to by the Principal or designee and the parent.

If the Principal or designee decides to suspend the student, the written determination shall: Identify the disciplinary offense, the date on which the hearing took place, and the participants at the hearing; Set out the key facts and conclusions reached by the Principal or designee; Identify the length and effective date of the suspension, as well as a date of return to school; Include notice of the student's opportunity to receive education services to make academic progress during the period of removal from school as required by law and regulation; Inform the student of the right to appeal the Principal's or designee's decision to the Superintendent or designee, but only if the Principal or designee has imposed a long-term suspension. Notice of the right of appeal shall be in English and the primary language of the home if other than English, and shall include the following information: The process for appealing the decision, including that the student or parent must file a written notice of appeal with the Superintendent within five (5) calendar days of the effective date of the long-term suspension; provided that within the five (5) calendar days, the student or parent may request and receive from the Superintendent an extension of time for filing the written notice for up to seven (7) additional calendar days; and that the long-term suspension will remain in effect unless and until the Superintendent decides to reverse the Principal's or designee's determination on appeal.

If the student is in a public preschool program or in grades K through 3, the Principal or designee shall send a copy of the written determination to the Superintendent and explain the reasons for imposing an out-of-school suspension before the suspension takes effect.

Superintendent's Hearing

A student who is placed on long-term suspension following a hearing with the Principal or designee shall have the right to appeal the Principal's or designee's decision to the Superintendent.

The student or parent shall file a notice of appeal with the Superintendent within the time period noted above (see Principal or designee's hearing – Suspension of more than 10 days). If the appeal is not timely filed, the Superintendent may deny the appeal, or may allow the appeal in his or her discretion, for good cause.

The Superintendent shall hold the hearing within three (3) school days of the student's request, unless the student or parent requests an extension of up to seven (7) additional calendar days, in which case the Superintendent shall grant the extension.

The Superintendent shall make a good faith effort to include the parent in the hearing. The Superintendent shall be presumed to have made a good faith effort if he or she has made efforts to find a day and time for the hearing that would allow the parent and Superintendent to participate. The Superintendent shall send written notice to the parent of the date, time, and location of the hearing.

The Superintendent shall conduct a hearing to determine whether the student committed the disciplinary offense of which the student is accused, and if so, what the consequence shall be. The Superintendent shall arrange for an audio recording

of the hearing, a copy of which shall be provided to the student or parent upon request. The Superintendent shall inform all participants before the hearing that an audio record will be made of the hearing and a copy will be provided to the student and parent upon request. The student shall have all the rights afforded the student at the Principal's or designee's hearing for long-term suspension.

The Superintendent shall issue a written decision within five (5) calendar days of the hearing which meets the requirements of law and regulation. If the Superintendent determines that the student committed the disciplinary offense, the Superintendent may impose the same or a lesser consequence than the Principal or designee, but shall not impose a suspension greater than that imposed by the Principal's or designee's decision. The decision of the Superintendent shall be the final decision of the school district with regard to the suspension.

Expulsion

Expulsion is defined as the removal of a student from school for more than ninety (90) school days, indefinitely, or permanently as allowed by law for possession of a dangerous weapon; possession of a controlled substance; assault on a member of the educational staff; or a felony charge or felony delinquency complaint or conviction, or adjudication or admission of guilt with respect to such felony, if a Principal or designee determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school.

Any student alleged to have committed one of these acts shall be afforded the same due process rights as for a long term suspension. Any student expelled from school for such an offense shall be afforded an opportunity to receive educational services and make academic progress.

Academic Progress

Any student who is suspended or expelled shall have the opportunity to earn credits, make up assignments, tests, papers, and other school work as needed to make academic progress during the period of his or her removal from the classroom or school. The Principal or designee shall inform the student and parent of this opportunity in writing, in English and in the primary language of the home, when such suspension or expulsion is imposed.

Any student who is expelled or suspended from school for more than ten (10) consecutive days, whether in school or out of school, shall have an opportunity to receive education services and make academic progress toward meeting state and local requirements, through the school-wide education service plan.

The Principal or designee shall develop a school-wide education service plan describing the education services that the school district will make available to students who are expelled or suspended from school for more than ten (10) consecutive days. The plan shall include the process for notifying such students and their parents of the services and arranging such services. Education services shall be based on, and be provided in a manner consistent with, the academic standards and curriculum frameworks established for all students under the law.

The Principal or designee shall notify the parent and student of the opportunity to receive education services at the time the student is expelled or placed on long-term suspension. Notice shall be provided in English and in the primary language spoken in the student's home if other than English, or other means of communication where appropriate. The notice shall include a list of the specific education services that are available to the student and contact information for a school district staff member who can provide more detailed information.

For each student expelled or suspended from school for more than ten (10) consecutive days, whether in-school or out-of-school, the school district shall document the student's enrollment in education services. For data reporting purposes, the school shall track and report attendance, academic progress, and such other data as directed by the Department of Elementary and Secondary Education.

Reporting

The school district shall collect and annually report data to the DESE regarding in-school suspensions, short- and long-term suspensions, expulsions, emergency removals, access to education services, and such other information as may be required by the DESE.

The Principal or designee of each school shall periodically review discipline data by selected student populations, including but not limited to race and ethnicity, gender, socioeconomic status, English language learner status, and student with a disability status in accordance with law and regulation.

The responsibility for the dress and appearance of the students will rest with individual students and parents/guardians.

They have the right to determine how the student will dress providing that attire is not destructive to school property, complies with requirements for health and safety, and does not cause disorder or disruption. The administration is authorized to take action in instances where individual dress does not meet the stated requirements.

This does not mean that student, faculty, or parent groups may not recommend appropriate dress for school or special occasions. It means that students will not be prevented from attending school or a school function, or otherwise be discriminated against, so long as their dress and appearance meet the requirements set forth above.

BUS REGULATIONS

Transportation by school bus to and from school is a privilege for all pupils who qualify according to the Rules and Regulations of the School Committee and the Laws of the Commonwealth of Massachusetts. The school bus is an extension of the school itself and rules regarding behavior are the same as in school. It should be understood that the right of a pupil to transportation to and from school is a qualified right dependent on good behavior. Some of the following regulations are supported by State Law, violations to parts of the following rules are punishable by fines:

1. On roads and highways where there are no sidewalks, students walk on the side facing traffic to and from a bus stop.
2. Students must be on time at pick-up point, the bus stop, five minutes before the regular pick-up time. Dogs should be restrained in homes until after bus leaves in the morning.
3. While waiting for the bus, students do not run, push, or play games. They must respect other people's property.
4. Students must be courteous! They will not push or shove on entering or leaving the bus. They will leave the bus promptly at their destination.
5. When crossing the highway after alighting from the bus, students cross only after the driver signals that it is safe to cross. They will pass ten feet in front of the bus and look for the traffic in both directions before crossing the highway.
6. Students will take their seats promptly on entering the bus and remain in it until they arrive at their destination.
7. Students will ride only on their assigned bus; seats may be assigned by the Bus Driver.
8. Students will not use profane, loud, or boisterous talk or make other noises that might distract the driver in whose hands are the lives of all children.
9. Students will be respectful to the bus driver. He/She has a very important task to perform and he/she needs help. His/Her eyes and ears need to be focused on the road in order to drive safely to and from school.
10. The school bus is a "classroom on wheels." Students will conduct themselves as they would in school. On the bus there will be no fighting or roughhousing, no insubordination, swearing or obscene gestures, no possession, consumption or sale of drugs or alcohol or any types of behavior where other school disciplinary conduct rules and regulations may apply.
11. Students will not enter into conversation with the driver while the bus is in motion, but will report any emergency to him/her at once!
12. No senior high school student at any time may ride home from school on an afternoon elementary or middle school bus without permission of his/her principal or assistant principal.
13. Students do not bring animals, pets, explosives, weapons of any sort, or large objects on the school bus.
14. Students keep their backpacks, books, musical instruments, and athletic equipment out of the aisles. They keep the bus neat and do not mark, cut, or break any part of the bus.
15. Students do not throw anything in the bus or out the windows. They do not put their hands, arms, or other parts of their body out the windows or rear exit door of the bus at any time.
16. Generally, there will be no eating or drinking on the bus. When eating and/or drinking on the bus is permitted it will be at the discretion of the bus driver.

The school administration may deprive pupils of the privilege of riding the school bus for a reasonable length of time if the pupils violate these rules. In all cases, a report must be made to the parents.

Appendix C

On May 3, 2010, Governor Patrick signed an Act Relative to Bullying in Schools. This new law prohibited bullying and retaliation in all public and private schools, and requires schools and school districts to take certain steps to address bullying incidents.

This plan is updated to reflect M.G.L. c. 71, § 37O as amended by Chapter 86 of the Acts of 2014 and Sections 72-74 of Chapter 38 of the Acts of July 2013, which changed the definition of “perpetrator” to include “a member of a school staff, including, but not limited to an educator, administrator, school nurse, cafeteria worker, custodian, bus driver, athletic coach, advisor to an extracurricular activity or paraprofessional.” The amendment also made the plan applicable to school staff, including but not limited to, the individual listed in the amended perpetrator definition.

These requirements are included in the district’s Bullying Prevention and Intervention Plan (“the Plan”). The Plan includes the requirements of the law, and information about the policies and procedures that the school or school district will follow to prevent bullying and retaliation, and to respond to it when it occurs.

This Plan will be reviewed biennially by the Superintendent and/or her/his designee, as mandated by M.G.L. c. 71, § 37O (5) (d). Consultation will include, at a minimum, notice on the STGRSD website, and a public comment period prior to adoption.

Definition of Terms

In order to work as collaboratively and as efficaciously as possible and to prevent and intervene on all acts of bullying, it is essential for school personnel, students, parents or guardians, law enforcement agencies, and other interested parties to use common language.

Aggressor, as defined in M.G. L. c.71, §37O, is a student or a member of a school staff including, but not limited to, and educator, administrators, school nurse, cafeteria worker, custodian, bus driver, athletic coach, advisor to an extracurricular activity, or paraprofessional who engages in bullying or retaliation towards a student.

Bullying, as defined in M.G.L. c. 71, § 37O, is the repeated use by one or more students or a member of a school staff of a written, verbal, or electronic expression or a physical act or gesture or any combination thereof, directed at a target that:

1. Causes physical or emotional harm to the target or damage to the target’s property;
2. Places the target in reasonable fear of harm to himself or herself or of damage to his or her property;
3. Creates a hostile environment at school for the target;
4. Infringes on the rights of the target at school; or
5. Materially and substantially disrupts the education process or the orderly operation of a school.

Cyber-bullying, is bullying through the use of technology or electronic devices such as telephones, cell phones, computers, and the Internet. It includes, but is not limited to, email, instant messages, text messages, and Internet postings. See M.G.L. c. 71, § 37O for the legal definition of cyberbullying.

Hostile environment, as defined in M.G.L. c. 71, § 37O, is a situation in which bullying causes the school environment to be permeated with intimidation, ridicule, or insult that is sufficiently severe or pervasive to alter the conditions of a student's education.

Retaliation is any form of intimidation, reprisal, or harassment directed against a student who reports bullying, provides information during an investigation of bullying, or witnesses or has reliable information about bullying.

School Staff includes, but is not limited to, educators, administrators, counselors, school nurses, cafeteria workers, custodians, bus drivers, and athletic coaches, advisors to extracurricular activities, support staff, or paraprofessionals.

Target is a student against whom bullying, cyberbullying, or retaliation has been perpetrated.

Prohibition against Bullying

Bullying is prohibited:

- on school grounds,
- on property immediately adjacent to school grounds,
- at a school-sponsored or school-related activity, function, or program, whether it takes place on or off school grounds,
- at a school bus stop, on a school bus or other vehicle owned, leased, or used by a school district or school,
- through the use of technology or an electronic device that is owned, leased or used by a school district or school (for example, on a school computer or over the Internet using a school computer),
- at any program or location that is not school-related, or through the use of personal technology or electronic devices, if the bullying creates a hostile environment at school for the target, infringes on the rights of the target at school, or materially and substantially disrupts the education process or the orderly operation of a school.
- Nothing contained herein shall require schools to staff any non-school related activities, functions, or programs.

Retaliation against a person who reports bullying, provides information during an investigation of bullying, or witnesses or has reliable information about bullying is prohibited.

Reporting Bullying

To support efforts to respond promptly and effectively to bullying and retaliation, the STGRSD has policies and procedures in place for receiving and responding to reports of bullying or retaliation. These policies and procedures will ensure that members of the school community – students, parents, and staff – know what will happen when incidents of bullying occur.

Reporting bullying or retaliation

Reports of bullying or retaliation may be made by staff, students, parents or guardians, or others, and may be oral or written. Oral reports made by or to a staff member must be recorded in writing. All employees are required to report immediately to the principal or designee any instance of bullying or retaliation the staff member becomes aware of or witnesses. Reports made by students, parents or guardians, or other individuals who are not school or district staff members, may be made anonymously. The school or district will make a variety of reporting resources available to the school community including, but not limited to, an Incident Reporting Form and each school's telephone number.

Use of an Incident Reporting Form is not required as a condition of making a report. The school or district will: 1) include a copy of the Incident Reporting Form in the beginning of the year packets for students and parents or guardians; 2) make it available in the school's main office, the counseling office, the school nurse's office, and other locations determined by the principal or designee; and 3) post it on the district's website. The Incident Reporting Form will be made available in the most prevalent language(s) of origin of students and parents or guardians.

School staff members must report immediately to the principal or his/her designee if they witness or become aware of bullying or retaliation. Staff members include, but are not limited to, educators, administrators, counselors, school nurses, cafeteria workers, custodians, bus drivers, athletic coaches, advisors to an extracurricular activity, and paraprofessionals.

When the school principal or his/her designee receives a report, he or she shall promptly conduct an investigation. If the school principal or designee determines that a violation of the district's anti-bullying policy has occurred he or she shall (i) notify the parents or guardians of the target, and to the extent consistent with state and federal law, notify them of the action taken to prevent any further acts of bullying or retaliation; (ii) notify the parents or guardians of the aggressor; (iii) take appropriate disciplinary action; and (iv) notify the local law enforcement agency if the school principal or designee believes that criminal charges may be pursued against the aggressor.

Professional Development for School and District Staff

The STGRSD will provide ongoing professional development to increase the skills of all staff members to prevent, identify, and respond to bullying.

File No.: JICJ

Adopted: 5/24/05

Revised:

The School committee recognizes that today's society is different from previous generations. Cell phones and portable communication devices (PCDs) play an important part in employee and student safety and communications. Cell phones and PCDs are defined as current and emerging technologies that are wireless units that send and/or receive electronic communications in an analog or digital data transmission. The possession or use of cell phones and PCDs are prescribed for employees and students as follows:

Employees

1. Employees of Southwick-Tolland-Granville Regional School District are granted permission to possess and use cell phones and PCDs in the official job capacity consistent with their job descriptions.
2. Employees who own a personal cell phone and /or PCD must ensure that the device does not ring or interrupt the academic classroom environment or the job performance of the employee. Employees must take pro-active steps to ensure that the cell phones do not ring during their instructional hours and meetings which are obligations of the job.

Students

1. Students may possess and carry cell phones and PCDs; however, these units must be "off and away" during the academic school day to ensure that disruptions and interference of the instructional and academic climate of the school do not occur. Only high school students may use cell phones during lunch blocks and passing times.
2. Non high school students may not use or operate cell phones or PCDs during the school day. The "school day" is defined as once the first hour starts and throughout the day until the last period is over.
3. The school administration may, in its sole discretion, grant exceptions for cell phones and PCD use based upon critical need and appropriate documentation.
4. STGRSD School Administration will take possession of any cell phones or PCD's used during the school day and follow disciplinary action as outlined in the student handbook. Cell phones and PCD's will be returned only to a parent or guardian.

Southwick-Tolland-Granville Regional School District is committed to ensuring the health and safety of all our students. The following concussion policy is in compliance with the MIAA policy and with the Commonwealth of Massachusetts General Law (105 CMR 201): Head Injuries and Concussions in Extracurricular Athletic Activities.

The Athletic Director of Southwick Regional School shall be the person responsible for the implementation of these policies and protocols for all high school athletics.

- Athletic Director
- Certified Athletic Trainers
- Coaches
- Volunteers
- School Physicians
- School Nurses
- Marching band directors
- Intramural supervisors
- Parents of a student who participates in athletics
- Students who participate in athletics

(Parents and students will sign off that they have received the materials at the mandatory information meeting)

Coaches, trainers, and volunteers will be responsible for teaching proper form, technique, and skills that minimize the risk for sports related head injury.

Parents must provide information regarding any prior head injury, including concussions, on the athletics emergency medical form and must inform the school of any head injury or concussion that may occur outside of school. Parents and students must fill out all appropriate forms, including a sports physical examination, in order to be deemed eligible to participate in athletics.

The following procedures will be followed in the event an athlete is suspected to have suffered a concussion:

- When available, the athletic trainer will conduct an evaluation and assessment of the concussion. The athletic trainer will then notify the parents/guardians and recommend referral to a physician if they suspect a concussion. - The athletic trainer or coach will notify the athletic director and school nurse and fill out the Concussion Reporting Form.
- The school nurse will contact the athlete's teachers and guidance counselor to make any academic accommodations necessary.
- The athlete will only be allowed to return to play after being cleared by the medical provider that diagnosed the concussion, and after completion of the prescribed Return to Play Protocol (see "Return to Play Protocol" in the Athletic Handbook) conducted by the athletic trainer or, if no athletic trainer is available, the designee of the Athletic Director.

A copy of this policy will be made available in the Southwick Regional School handbook, the Southwick Regional School Athletics handbook, and on the school district webpage.

CODE: STUDENT CONDUCT

File No.: JK

Adopted: 10/4/05
Revised: 10/21/14

The Massachusetts General Laws require the School Committee to adopt written policies, rules and regulations not inconsistent with law, which may relate to study, discipline, conduct, safety and welfare of all students, or any classification thereof, enrolled in the public schools of the District.

The implementation of the general rules of conduct is the responsibility of the Principal and the professional staff of the building. In order to do this, each school staff in the District shall develop specific rules not inconsistent with the law nor in conflict with School Committee policy. These building rules shall be an extension of the District policies by being more specific as they relate to the individual schools.

The purpose of disciplinary action is to restore acceptable behavior. When disciplinary action is necessary, it shall be administered with fairness and shall relate to the individual needs and the individual circumstances.

Students violating any of the policies on student conduct and control will be subject to disciplinary action. The degree, frequency, and circumstances surrounding each incident shall determine the method used in enforcing these policies. Most of the situations which require disciplinary action can be resolved within the confines of the classroom or as they occur by reasonable but firm reprimand, and/or by teacher conferences with the student and/or parents or guardians.

If a situation should arise in which there is no applicable written policy, the staff member shall be expected to exercise reasonable and professional judgment.

CODE: PHYSICAL RESTRAINT OF STUDENTS
Category: Students
File No.: JKAA

Adopted: 12/4/01
Revised: 11/02/2015;
5/5/2020

Maintaining an orderly, safe environment conducive to learning is an expectation of all staff members of the school district. Further, students of the district are protected by law from the unreasonable use of physical restraint. Such restraint shall be used only in emergency situations of last resort after other lawful and less intrusive alternatives have failed or been deemed inappropriate, and with extreme caution.

When an emergency situation arises, and physical restraint is the only option deemed appropriate to prevent a student from injuring himself or herself, another student or school community member, a teacher or employee or agent of the school district may use such reasonable force needed to protect students, other persons or themselves from assault or imminent, serious, physical harm.

The definitions of forms of restraint shall be as defined in 603CMR [46.02](#).

The use of mechanical restraint, medication restraint, and seclusion is prohibited.

Physical restraint, including prone restraint where permitted under 603 CMR [46.03](#), shall be considered an emergency procedure of last resort and shall be prohibited except when a student's behavior poses a threat of assault, or imminent, serious, physical harm to themselves and/or others and the student is not responsive to verbal directives or other lawful and less intrusive behavior interventions are deemed inappropriate.

The Superintendent, or designee, will develop procedures identifying:

- Appropriate responses to student behavior that may require immediate intervention;
- Methods of preventing student violence, self-injurious behavior, and suicide including crisis planning and de-escalation of potentially dangerous behaviors among groups of students or individuals;
- Descriptions and explanations of alternatives to physical restraint as well as the school's method of physical restraint for use in emergency situations;
- Descriptions of the school's training and procedures to comply with reporting requirements; including, but not limited to making reasonable efforts to orally notify a parent/guardian of the use of restraint within 24 hours of its imposition;
- Procedures for receiving and investigating complaints;
- Methods for engaging parents/guardians in discussions about restraint prevention and use of restraint solely as an emergency procedure;
- A statement prohibiting: medication restraint, mechanical restraint, prone restraint unless permitted by 603 CMR [46.03](#)(1)(b), seclusion, and the use of physical restraint in a manner inconsistent with 603 CMR [46.00](#),
- A process for obtaining Principal approval for a time out exceeding 30 minutes.

Each building Principal will identify staff members to serve as a school-wide resource to assist in ensuring proper administration of physical restraint. These staff members will participate in an in-depth training program in the use of physical restraint.

In addition, each staff member will be trained regarding the school's physical restraint policy and accompanying procedures. The Principal will arrange training to occur in the first month of each school year, or for staff hired after the beginning of the school year, within a month of their employment.

Physical restraint is prohibited as a means of punishment, or as a response to destruction of property, disruption of school order, a student's refusal to comply with a school rule or staff directive, or verbal threats that do not constitute a threat of imminent, serious physical harm to the student or others.

Physical restraint is prohibited when it is medically contraindicated for reasons including, but not limited to, asthma, seizures, a cardiac condition, obesity, bronchitis, communication-related disabilities, or risk of vomiting;

The use of "time out" procedures during which a staff member remains accessible to the student shall not be considered "seclusion restraint".

This policy and its accompanying procedures shall be reviewed and disseminated to staff annually and made available to parents/guardians of enrolled students. The Superintendent shall provide a copy of the Physical Restraint regulations to each Principal, who shall sign a form acknowledging receipt thereof.

PHYSICAL EXAMS

Regular physical exams are important for all children and adolescents, especially those who do not have primary care providers. The objective is to identify and follow up on any health conditions that may interfere with learning. M.G.L. c. 71, s. 57 and related amendments and regulations (105 CMR 200.000-200.920) require physical exams of school children within six months before entry into school or during the first year after entrance, and at intervals of either three or four

years after. The Southwick-Tolland-Granville Regional School District requires physical exams for grades kindergarten, four, seven and ten.

In addition, physical examinations are required annually before participation in competitive sports. A student in the Southwick-Tolland-Granville Regional School District must pass a physical examination within thirteen months of the start of each season. Students who meet this criteria at the start of the season will remain eligible for that season. Physical examinations must be performed by a duly registered physician, physician's assistant or nurse practitioner.

ACTIVITY LIMITATIONS

If a student is required to have limited physical activity in school, a written statement from the licensed health care provider describing the limitations must be provided to the school so appropriate arrangements can be made if necessary.

VISION, HEARING, WEIGHT AND HEIGHT

Screenings will be performed annually on each student according to DPH guidelines with recommendations for further evaluation made to parents/guardians as indicated.

POSTURAL SCREENING

Postural screening will be done annually on all students in grades 5-9.

Students entering school for the first time, whether at kindergarten or through transfer from another school system, will be required to present a physician's certificate attesting to immunization against diphtheria, whooping cough, poliomyelitis, tetanus, measles, and such other communicable diseases as may be specified from time to time by the Department of Public Health. The only exception to these requirements will be made on receipt of a written statement from a doctor that immunization would not be in the best interest of the child; or, the student's parent or guardian stating that vaccination or immunization is contrary to the religious beliefs of the student or parent, or that the child meets the statutory requirement governing homelessness.

Pursuant to the intent of M.G.L. Chapter 76, Section 15 any student found to be in non-compliance with the immunization requirements is subject to immediate exclusion from school and shall not be readmitted until the parent or guardian satisfies the requirement of the statute or, in the alternative, provides evidence to substantiate an exemption as described above.

File No.: JQ

Adopted: 10/4/05

Revised:

The School Committee recognizes the need for student fees to fund certain school activities. It also recognizes that some students may not be able to pay these fees. No student will be denied access into any program because of inability to pay these supplementary charges.

A school may exact a fee or charge only upon Board approval. The schools, however, may:

- Charge students enrolled in certain courses for the cost of materials used in projects that will become the property of the student.
- Charge for lost and damaged books, materials, supplies, and equipment

Students who are indigent are exempt from paying fees. However, indigent students are not exempt from charges for lost and damaged books, locks, materials, supplies, and equipment.

All student fees and charges, both optional and required, will be listed and described annually in each school's student handbook or in some other written form and distributed to each student. The notice will advise students that fees are to be paid and of the penalties for their failure to pay them. Permissible penalties include the withholding of report cards until payment is made or denial of participation in extra class activities while the student is enrolled in this District.

Any fee or charge due to any school in the District and not paid at the end of the school year will be carried forward to the next succeeding school year, as such debts are considered to be debts of the student to the District and not to a particular school.

In order to provide students with appropriate instruction and educational services, it is necessary for the school system to maintain extensive and sometimes personal information about them and their families. It is essential that pertinent information in these records be readily available to appropriate school personnel, be accessible to the student's parents or legal guardian and/or the student in accordance with law, and yet be guarded as confidential information.

The Superintendent will provide for the proper administration of student records in keeping with state and federal requirements, and shall obtain a copy of the state student records regulations (603 CMR 23.00). The temporary record of each student enrolled on or after June 2002 will be destroyed no later than seven years after the student transfers, graduates or withdraws from the School District. Written notice to the eligible student and his/her parent of the approximate date of destruction of the temporary record and their right to receive the information in whole or in part, shall be made at the time of such transfer, graduation, or withdrawal. The student's transcript may only be destroyed 60 years following his/her graduation, transfer, or withdrawal from the school system.

The Committee wishes to make clear that all individual student records of the school system are confidential. This extends to giving out individual addresses and telephone numbers.

Application of Rights

603 CMR 23.00 is promulgated to insure parents and students rights of confidentiality, inspection, amendment, and destruction of students' records and to assist local school systems in adhering to the law. 603 CMR 23.00 should be liberally construed for these purposes.

1. These rights shall be the rights of the student upon reaching 14 years of age or upon entering the ninth grade, whichever comes first. If a student is under the age of 14 and has not yet entered the ninth grade, these rights shall belong to the students' parent.
2. If a student is from 14 through 17 years or has entered the ninth grade, both the student and his/her parent, or either one acting alone, shall exercise these rights.

3. If a student is 18 years of age or older, he/she alone shall exercise these rights, subject to the following. The parent may continue to exercise the rights until expressly limited by such student. Such student may limit the rights and provisions of 603 CMR 23.00 which extend to his/her parent, except the right to inspect the student record, by making such request in writing to the school principal or superintendent of schools who shall honor such request and retain a copy of it in the student record. Pursuant to M.G.L. c.71, s.34E, the parent of a student may inspect the student record regardless of the students age.
4. Notwithstanding 603 CMR 23.01(1) and 23.01(2), nothing shall be construed to mean that a school committee cannot extend the provisions of 603 CMR 23.00 to students under the age of 14 or to students who have not yet entered the ninth grade.

When granting consent, the eligible student or parent shall have the right to designate which parts of the student record shall be released to the third party. A copy of such consent shall be retained by the eligible student or parent and a duplicate placed in the temporary record. Except for the information described in 603 CMR 23.07(4)(a), personally identifiable information from a student record shall only be released to a third party on the condition that he/she will not permit any other third party to have access to such information without the written consent of the eligible student or parent.

 - 2. The parent has been denied visitation, or
 - 3. The parent's access to the student has been restricted by a temporary or permanent protective order, unless the protective order (or any subsequent order modifying the protective order) specifically allows access to the information contained in the student record, or

As required by Massachusetts General Law Chapter 71, Section 34H, a non-custodial parent may have access to the student record in accordance with law and Department of Education Regulations. The school district will follow the law and the regulations developed by the Massachusetts Department of Education to standardize the process by which public schools provide student records to parents who do not have physical custody of their children ("non-custodial parents"). As required by M.G.L. c. 71, § 34H, a non-custodial parent may have access to the student record in accordance with the following provisions.

- (g) A non-custodial parent is eligible to obtain access to the student record unless the school or district has been given documentation that:
 1. The parent has been denied legal custody or has been ordered to supervised visitation, based on a threat to the safety of the student and the threat is specifically noted in the order pertaining to custody or supervised visitation, or
 2. The parent has been denied visitation, or
 3. The parent's access to the student has been restricted by a temporary or permanent protective order, unless the protective order (or any subsequent order modifying the protective order) specifically allows access to the information contained in the student record, or
 4. There is an order of a probate and family court judge which prohibits the distribution of student records to the parent.
- (h) The school shall place in the student's record documents indicating that a non-custodial parent's access to the student's record is limited or restricted pursuant to 603 CMR 23.07(5)(a).
- (i) In order to obtain access, the non-custodial parent must submit a written request for the student record to the school principal.
- (j) Upon receipt of the request the school must immediately notify the custodial parent by certified and first class mail, in English and the primary language of the custodial parent, that it will provide the non-custodial parent with access after 21 days, unless the custodial parent provides the principal with documentation that the non-custodial parent is not eligible to obtain access as set forth in 603 CMR 23.07 (5)(a).
- (k) The school must delete all electronic and postal address and telephone number information relating to either work or home locations of the custodial parent from student records provided to non-custodial parents. In addition, such records must be marked to indicate that they shall not be used to enroll the student in another school.
- (l) (f) Upon receipt of a court order which prohibits the distribution of information pursuant to G.L. c. 71, §34H, the school shall notify the non-custodial parent that it shall cease to provide access to the student record to the non-custodial parent.

CODE: VISITORS TO THE SCHOOLS
Category: COMMUNITY RELATIONS
File No.: KI

Adopted: 12/6/05
Revised:

The School Committee encourages parents and guests to visit classrooms to observe and learn about the instructional program taking place in our schools. Such visits can prove most beneficial in promotion of greater school-home cooperation and community understanding of how we carry out the school system's mission and goals.

The following guidelines to classroom and school visits should be followed:

1. For security purposes it is requested that all visitors report to the principal's office upon entering and leaving the building and sign a log showing arrival and departure times. Teachers are encouraged to ask visitors if they have registered in the principal's office. Visitors must wear visible "Visitor" badges at all times.
2. The building principal has the authority to determine the number, times, and dates of observations by visitors. This will be done in consultation with staff members so as to give adequate notice to the staff members of the impending visits.
3. Under ordinary circumstances, classroom observations will be strongly discouraged during the first three weeks of school in September and during the month of June.
4. Any student who wishes to have a guest in school MUST ask permission of one of the administrative staff 24 HOURS in advance of the proposed visit. If permission is granted, the guest is expected to follow the standards of behavior expected of all students. Upon arrival the guest must register in the office. Any guest who fails to comply with student regulations will be asked to leave the school building and grounds immediately.

VII. DISTRICT PROCEDURES

DISCIPLINE OF STUDENTS WITH DISABILITIES (IEP/504)

Procedures for suspensions of students with disabilities when suspensions exceed 10 consecutive school days or a pattern has developed for suspensions exceeding 10 cumulative days; responsibilities of the Team; responsibilities of the district.

1. A suspension of longer than 10 consecutive days or a series of suspensions that are shorter than 10 consecutive days but constitute a pattern are considered to represent a change in placement.
2. When a suspension constitutes a change of placement of a student with disabilities, district personnel, the parent, and other relevant members of the Team, as determined by the parent and the district, convene within 10 days of the decision to suspend to review all relevant information in the student's file, including the IEP/504, any teacher observations, and any relevant information from the parents, to determine whether the behavior was caused by or had a direct and substantial relationship to the disability or was the direct result of the district's failure to implement the IEP/504 – "a manifestation determination."
3. If district personnel, the parent, and other relevant members of the Team determine that the behavior is NOT a manifestation of the disability, then the suspension or expulsion may go forward consistent with policies applied to any student without disabilities, except that the district must still offer:
 - a. services to enable the student, although in another setting, to continue to participate in the general education curriculum and to progress toward IEP/504 goals; and
 - b. as appropriate, a functional behavioral assessment and behavioral intervention services and modifications, to address the behavior so that it does not recur.
4. Interim alternative educational setting. Regardless of the manifestation determination, the district may place the student in an interim alternative educational setting (as determined by the Team) for up to 45 school days
 - a. on its own authority if the behavior involves weapons or illegal drugs or another controlled substance or the infliction of serious bodily injury on another person while at school or a school function or, considered case by case, unique circumstances; or
 - b. on the authority of a hearing officer if the officer orders the alternative placement after the district provides evidence that the student is "substantially likely" to injure him/herself or others.

Characteristics. In either case, the interim alternative education setting enables the student to continue in the general curriculum and to continue receiving services identified on the IEP/504, and provides services to address the problem behavior.

5. If district personnel, the parent, and other relevant members of the Team determine that the behavior IS a manifestation of the disability, then the team completes a functional behavioral assessment and behavioral intervention plan if it has not already done so. If a behavioral intervention plan is already in place, the Team reviews and modifies it, as necessary, to address the behavior. Except when he or she has been placed in an interim alternative educational setting in accordance with part 4, the student returns to the original placement unless the parents and district agree otherwise or the hearing officer orders a new placement.
6. Not later than the date of the decision to take disciplinary action, the school district notifies the parents of that decision and provides them with the written notice of procedural safeguards. If the parent chooses to appeal or the school district requests a hearing because it believes that maintaining the student's current placement is substantially likely to result in injury to the student or others, the student remains in the disciplinary placement, if any, until the decision of the hearing officer or the end of the time period for the disciplinary action, whichever comes first, unless the parent and the school district agree otherwise.

Procedural requirements applied to students not yet determined to be eligible for special education.

1. If, prior to the disciplinary action, a district had knowledge that the student may be a student with a disability, then the district makes all protections available to the student until and unless the student is subsequently determined not to be eligible. The district may be considered to have prior knowledge if:
 - a. The parent had expressed concern in writing; or
 - b. The parent had requested an evaluation; or
 - c. District staff had expressed directly to the special education director or other supervisory personnel specific concerns about a pattern of behavior demonstrated by the student.

The district may not be considered to have had prior knowledge if the parent has not consented to evaluation of the student or has refused special education services, or if an evaluation of the student has resulted in a determination of ineligibility.

2. If the district had no reason to consider the student disabled, and the parent requests an evaluation subsequent to the disciplinary action, the district must have procedures consistent with federal requirements to conduct an expedited evaluation to determine eligibility.
3. If the student is found eligible, then he/she receives all procedural protections subsequent to the finding of eligibility.

There is no supervision prior to 7:15 am; any parent who allows a child to come to school prior to that time understands that there is not supervision and the school is not responsible for the student. Students arriving early (7:15- 7:25) should report directly to the early arrival designated areas until granted permission to enter other areas of the building.

Students are not allowed to remain on campus after school unless in an approved, organized activity, under the supervision of staff. No student should be in the building after 2:45 pm, unless requested by a teacher or participating in a supervised activity. There is no supervision after 2:45 pm; any parent who allows a child to remain at school after that time understands that there is no supervision and the school is not responsible for the student.

Middle School students (7/8) must sign-in and get a pass in the office if staying after-school for any reason. Student athletes may get a pass for the season. Additionally, middle school students must have a pass, from the office, to board a late bus.

All students awaiting transportation are expected to wait in the front of the school or in the front foyer. Repeated violations of after school expectations may result in the loss of after-school privileges.

All announcements must be left in the main office at the close of the school day in order to be included in the next day's announcements.

Contacting Students

Preplanning is essential. Parent/employer messages to students are a disruption of valuable class time and cannot be delivered during the school day. In the event of an extreme emergency, contact the main office to reach your student.

School Cancellations and Delays

Closing school because of weather conditions or other emergencies will be broadcast online on the Southwick-Tolland-Granville Regional School District Facebook page, on TV stations WWLP 22 News; Western Mass News CBS 3, ABC 40 and Fox 6; and NECN. Voice and text messages will also be sent via phone to all households via the ConnectEd system.

Blackboard Connect Phone Line

Families are notified of many school related topics through a notification service called Blackboard Connect. Some examples are unexcused absences, early dismissals, school closings, newsletters and district messages.

It is important that the school office has your most current contact information including email and phone number on file so that you will receive all pertinent communication.

Academic Probation

Academic Probation is notice that academic achievement is below promotion or graduation standards. A student may be placed on Academic Probation when she/he earns a failing grade (64% or less) in any marking period. During a period of Academic Probation, the student's participation in school-based extracurricular activities is restricted so that the student can focus on fulfilling academic requirements.

Academic Probation begins when grades are issued at the end of a marking period. Academic Probation status persists through the quarter until the next officially issued progress report or report card. When the student has earned all passing grades (65% or higher) that have been officially reported, the Academic Probation status is lifted.

Interscholastic athletics and extra-curricular activities are governed by rules and regulations administered by the Massachusetts Interscholastic Athletic Association (M.I.A.A.) Academic eligibility for participation in athletics is set forth in these regulations.

Academic Failure

The Southwick-Tolland-Granville Regional School Committee recommends that principals notify, by mail, the parents/ guardians of students who have failed in two or more subjects in the first marking period of each semester. The parents/ guardians of those students who are in danger of failing a grade level for the year must be notified, by mail, within two weeks of the issuance of the mid-semester report card.

Every effort is to be made to encourage parents to confer with teachers and/or guidance counselors as a result of these letters and every effort is made to ensure that students are available for extra assistance. The principal of the school attended by these students shall be responsible for determining whether a referral for evaluation under Chapter 766 should be made.

Academic Intervention /Retention (Grades 7 – 8)

When a student is struggling in middle school and regular interventions have not been successful in addressing the issue, teachers and support staff will partner with parents and guardians to develop and test strategies that might help the student re-engage with school and become successful. The range of possible interventions include: student-teacher conferences, Homework Help, after school tutoring, parent-teacher-guidance conferences, increased school-home communication, targeted use of classroom accommodations, Student Assistance Team conferences, referrals for evaluation. In every case, our efforts serve to engage student interest while building the readiness to learn and the academic skills necessary to be successful in high school and beyond. If a student continues to have difficulty making effective progress:

- Parents/ Guardians will be notified, in writing, of possible retention at the close of the 3rd quarter.
- A parent meeting during the 4th quarter will address interventions, including summer school, and options.
- Students who have not achieved grade level progress (65% or better) in all academic courses will be recommended for summer school. *A minimum grade of 45% must be attained in a particular course in order for a student to be eligible for summer school.*
- Participation in **one** summer school course is expected for students who fail **two** academic subjects.
- A minimum grade of 65% in a summer school course is required for grade promotion.

*If the intervention process has not been successful and a student fails **two** core academic subjects and does **not** successfully complete summer school, the student may be retained.

*A student failing **three** or more core academic subjects may be retained.

After School Help

If a student needs additional help, he/she should ask the teacher at the end of class for after school extra help. It is a student's responsibility to ask for extra help when needed. At times, a teacher may ask a student to stay for extra help, even if the student hasn't requested it; students are required to stay for such obligations and communicate a change in plans once an arrangement has been made.

Grade 7-8 students are expected to sign-up in the office when staying after school for extra help with a teacher or for Homework Help Club. Teachers will keep students until ready to board the bus at 3:45 p.m. Students getting picked-up by a parent must bring a note stating the time of pick-up. Students are expected to work appropriately toward completing assignments and behave in a manner conducive to learning.

Conferences

Twice each year teacher conferences are held. The purpose of these conferences is to provide a more complete picture of how students are progressing in school beyond what a simple grade can provide.

Grade 9-12 teachers are available for conferences in the evening.

Grade 7-8 teachers are available, by appointment, during both afternoon and evening conference sessions. *See the district school calendar for specific dates. Contact 7-8 Team Leader to set up an appointment.*

Class Eligibility (9-12)

Under typical circumstances, students will remain with their designated graduation class throughout their four high school years. This does not guarantee graduation, but hopefully, provides incentive for a student to graduate with the student's respective class. The recommended minimum credits needed upon entering each grade is as follows:

Sophomore credits = 30

Junior credits = 70

Senior credits = 110

Class Rank (9-12)

Senior class rank is established at the conclusion of the third marking period of a student's senior year for the purpose of awards, scholarships, and graduation. Senior rank is established at the conclusion of the fourth marking period. Students not receiving diplomas will not be ranked. Class rank is calculated as recommended by the National Association of Secondary School Principals and the American Association of College Admission Counselors as follows:

Grade x Credit Value x Semester(s) = Class Credit

Total Class Credit divided by Total Semester Credit Value = Class Rank Average

	Weight	Value
Level I	Advanced Placement	1.10
Level II	Accelerated	1.05
Level III	College Preparatory	1.00
Semester Credit Value = Course Credit divided by 5		

Graduation Requirements

In order to graduate from Southwick Regional School, a student must have earned a minimum of 150 credits.

Course requirements are as follows:

<u>Course</u>	<u>Credits</u>
English	20
Social Studies	20
Mathematics	15
Science (5 <i>Biology</i>)	15
Applied Arts (5 <i>Computer</i>)	10
Fine Art	10
Physical Education	10-15
World Language	10
<u>Health</u>	<u>5</u>
Required	120
<u>Elective Courses</u>	<u>30</u>
Total Credits	150

In addition, the Massachusetts Department of Elementary and Secondary Education (DESE) requires that all students pass MCAS examinations in English, Math, and Science as outlined on the DESE website in order to graduate with a competency determination. Students who meet district graduation requirements but have not met DESE MCAS requirements will receive a certificate of attainment.

Graduation Ceremony

In order to participate in the Graduation Ceremony, a student must be receiving a diploma, certificate of attainment, or a special education certificate of completion (*Exception: Foreign Exchange students receiving a certificate of attendance may participate in the Graduation Ceremony*).

Graduating Early

A student who has fulfilled all requirements for graduation, including required courses, MCAS exams/scores, and number of credits, by the end of the junior year, may apply for early graduation. Written permission must be secured from parents/guardians, the guidance counselor, and the principal and then be submitted for approval to the Superintendent of Schools. Notice of the request must be submitted to the administration no later than one semester prior to the graduation date.

Grade Reporting

Progress Reports: Progress reports are issued at the mid-point of each quarter via Rediker to inform students and parents about student progress to date in each course. Hard copy progress reports are available upon request.

Report Cards: Report cards are issued four times each year at the close of each marking term. First and third term report cards are sent home with students; second and fourth term reports cards are mailed via U.S. mail.

Honor Roll

All subjects are included in a numerical average to determine Honor Roll.

High Honors: Numerical Average of 93, or higher, with no grade lower than 85.

Honors: Numerical Average of 85, or higher, with no grade lower than 80.

Numerical Average Calculation:

9-12 - Grade in each course x credits per course = Points

Total points divided by total credits = Average

7-8 - Grade in each course divided by total courses = Average

President's Award for Outstanding Academic Excellence signed by the President of the United States of America is awarded to 8th grade students who have earned A's (90%+) in all classes, all terms, for all of 7th and 8th grade years.

National Honor Society (11-12)

The Anabasis Chapter of the National Honor Society (NHS) of Southwick Regional School is a duly chartered and affiliated chapter of the prestigious and national organization. Membership is open to those students who meet the required standards in the four areas of evaluation: scholarship, leadership, service, and character. Students are selected by a five-member Faculty Council, appointed by the principal, which bestows this honor each year upon qualified students of behalf of the faculty of Southwick Regional School.

Students in 11th or 12th grade who have spent at least one semester at SRS and have a minimum 92.0 cumulative GPA are eligible for membership. Students who meet this criterion are invited to complete a Membership Application.

The Membership Application provides the Faculty Council with information regarding the candidate's leadership and service. A history of leadership experiences both inside school and outside school, faculty recommendations, and participation in at least 10 hours of documented community service are required for consideration.

The Faculty Council evaluates each candidate's character through 1) school discipline records and, 2) professional faculty reflections on a candidate's service activities, character, and leadership.

Membership applications are carefully reviewed by the Faculty Council to determine membership. A majority vote of the Faculty Council is necessary for selection. Candidates will be notified regarding selection or non-selection according to a pre-determined schedule.

Following notification, a formal induction ceremony is held to recognize all newly selected members. Once inducted, new members are required to maintain the same level of performance (or better) that led to their selection. This obligation includes regular attendance at chapter meetings held monthly during the school year, tutoring, and participation in individual and chapter service projects. Contact Mrs. Maryanne Margiotta, Chapter Advisor, with any questions regarding the selection process or membership obligations.

Renaissance Program (9-12)

Vision: Renaissance builds a partnership between the educational and business communities whereby academic excellence, continuous improvement, and citizenship are promoted and recognized. Renaissance is designed to commend the efforts of students, staff, and community partners alike.

Goals: To increase student attendance, to improve overall academic performance, to increase graduation rates, to improve student behavior and social skills, and to create a positive and safe school environment.

Requirements: All students in grades 9-12 will be assessed for program eligibility after report cards have been issued. Renaissance cards will be issued to students who have academic and discipline requirements during the previous term. Discipline infractions by card holders may result in loss of Renaissance privileges for any given term. Students must take four courses each semester in order to be eligible for the program. For the purpose of determining eligibility, dual enrollment students will be responsible for securing a numeric mid-term grade from their professor(s).

III. ATTENDANCE

Chapter 76, section 1 of Massachusetts General Law states that all children between the ages of six and sixteen must attend school. Compulsory attendance is the responsibility of every parent/guardian. It is not a choice; it is the law. Parents and guardians, as well as students themselves, have the responsibility to ensure that attendance is regular and timely. In addition, the law requires that schools keep track of attendance. When a school identifies a student who is exhibiting an attendance problem, which includes tardiness, the school is required to address the problem. Interventions can range from parent/ guardian notification to working together to improve attendance, or in extreme instances, soliciting the assistance of the Court or Massachusetts Department of Children and Families.

The importance of regular class attendance cannot be overemphasized. Regular, prompt attendance is essential to academic achievement. Time lost from class cannot be regained. The consequences of poor school attendance are well-documented. Truancy has been identified as a predictor of delinquency, substance abuse, and is often associated with low academic achievement, self-esteem, and employment potential. Additionally, studies have shown that a pattern of poor attendance in early grades is linked to an increased likelihood for dropping out of school in later years.

Attendance Policy

Health officials estimate that a normal absentee rate should be no more than seven to nine days for any student for the school year. It is therefore expected that students will be present in class 90% of the time over the course of the entire school year.

Any student who misses eleven (11) classes in any semester course will not receive credit.

Any student who misses twenty-one (21) classes in any year long course will not receive credit.

Any student who misses five (5) classes in an alternating day semester course will not receive credit.

Any student who misses ten (10) classes in an alternating day year-long course will not receive credit.

Any student who misses twelve (12) classes in a year-long AP course will not receive credit.

This policy will apply to students who transfer to Southwick Regional School.

Students may appeal the loss of credit (see Attendance Appeals below).

Attendance Impact on MCAS Appeals: Beginning in September 2004, to qualify for the appeals process, students must meet the attendance rate established by the Board of Education. Students must meet the state attendance rate of 95% to be considered for an MCAS performance or portfolio appeal.

What is NOT Included: Co-curricular activities such as field trips, athletic competitions, club conferences will not be considered as an absence provided the student has permission from the teacher prior to the activity.

What IS Included: Any other reason for absence from class, such as class cuts, normal illness, family vacation will be counted as an unexcused absence. As student missing more than twenty (20) minutes of class will be considered absent for the class. Three (3) tardies to class within the first twenty (20) minutes of class will constitute one unexcused absence.

ABSENCE PROCEDURE

On the day a student is absent, a parent/guardian is expected to call the school at 413-569-6171 prior to 8:30 a.m. An answering machine will take calls prior to 7:15 a.m. Indicate the student's full name, grade level, date of absence(s), and the reason for the absence. The call will be logged for the student's file.

Excused Absences

From time to time, absence from school is unavoidable and legitimate. The following are the **only accepted** reasons for being absent (*administration may require third-party documentation*):

- Documented illness and/or hospitalization
- Serious illness or death in the family
- A religious obligation
- Medical appointments that cannot be made at a time other than during school hours
- College/School visitations with advance notice to the principal/assistant principal; documented through a planned absence sheet (Juniors and Seniors only)
- Severe storm or impassable roads at the discretion of the administration
- Approved curricular and co-curricular school activities
- Court appearance or Registry of Motor Vehicles appointment
- Other absences accepted in advance by the principal

Unauthorized Absences

Any absence not classified as excused or unexcused by school administration. Excessive absences of this type may result in filing of a 51A- child neglect.

Attendance Notification

When a student has been absent six (6) days in a semester or AP course or twelve (12) days in a yearlong course or a proportionate number of days in a course meeting fewer than five times per week, the parent/guardian will be mailed a notice of this occurrence. The student will be handed a copy of this notice upon his/her return to school.

When a student has violated the Attendance Policy (as stated in Attendance Policy), the parent/guardian will be mailed a notice of the occurrence. The student will be handed a copy of this notice upon his/her return to school.

Attendance Appeal

Parent/ Guardian (or student if 18 or older) must notify the Appeal Board in writing within five (5) school days of receiving notice of the violation of the attendance policy requesting an appeal of loss of credit. The Appeals Board will notify the parent/guardian (or student if 18 or older) in writing of the date and time of a meeting to address the request.

The Appeal Board will consist of the Principal (or designee) and two faculty members. Other students/personnel/faculty may be invited by the Appeals Board to participate when appropriate. All parties must attend the informal hearing. The Appeals Board will meet at its discretion within a reasonable period of time.

In general, attendance waivers will be granted only for medically documented cases of chronic or long-term illnesses, or family emergencies or hardship. The Appeals Board may, by majority vote, override the Attendance Policy. The decisions of the Appeals Board are final. The decisions of the Appeals Board will be recorded in writing within five (5) days of the appeal meeting.

Parents/Guardians should make every effort to avoid scheduling appointments during the school day.
2. Dismissals for reasons of illness are done only with the approval of the school nurse.
3. In the event of an emergency, a student may be excused from school via a telephone call from a parent/ guardian, or a parent may come to the school office and communicate with the principal/assistant principal regarding dismissal.

3. No student may be taken from the school by the police until the parent or guardian has been notified or unless the police have a warrant for the student's arrest.
4. No minor student may be questioned at the school by the police without the consent of the parent or guardian.

LOCKER SEARCH

1. Mass searching of lockers may be conducted by the administration if the safety and well-being of the student body and building are in jeopardy.
2. The administration of the school may search a student's locker, if a search is considered necessary to maintain the integrity of the school environment and to protect other students.

In the best interest of student-administrative relationships and the spirit of due process, the following should be taken into account when making a search of the student and/or his property.

- a. If possible, the student should be present when making the search
 - b. A third party (a witness) should be present
 - c. An attempt should be made to secure prior student consent
3. A search may be made by a police officer with a valid warrant or in connection with a valid arrest. However, if police are involved, parents should be notified, the Principal or his designated representative from the school should be present at the time of the search. A complete report of the incident together with witnesses and other pertinent information should be immediately recorded.

SEARCH AND SEIZURE

Students may be assigned lockers, laboratory tables, desks and similar property of the school system for their use while in school. Property of the school department assigned to a student for his/her use during the school year is subject to inspection and search at any time for any reason. If an illegal substance/object, or evidence of activity which violates the law or the disciplinary code, is found during any inspection or search, it will be confiscated and appropriate action will be taken against the student.

In addition, professional and administrative personnel may search a student's belongings, such as clothes, backpack, handbag, wallet, etc. or frisk or search the student him/herself when a staff person has reasonable cause to believe that the student has, or the student's belongings contain, an illegal substance/object, or evidence of activity which violates the law or disciplinary code. If an illegal substance/object, or evidence of activity which violates the law or the disciplinary code, is found during any search, it will be confiscated and appropriate action will be taken against the student.

DUE PROCESS for SUSPENSIONS

NOTICE OF PROPOSED SUSPENSION

Except in the case of an emergency removal or disciplinary offense defined under M.G.L. c. 71, §§37H or 37H½ or an in-school suspension as defined by 603 CMR 53.02(6), the school shall provide the student and parent/guardian with written and oral notice of the proposed out-of-school suspension, an opportunity to be heard at hearing, and the opportunity to participate at the hearing. Notice shall set forth in plain language:

- a) the disciplinary offense;
- b) the basis for the charge;
- c) the potential consequences, including the potential length of the student's suspension;
- d) the opportunity for the student to have a hearing with the principal concerning the proposed suspension, including the opportunity to dispute the charges and to present the student's explanation of the alleged incident, and for the parent/guardian to attend the hearing;
- e) the date, time, and location of the hearing;
- f) the right of the student and student's parent/guardian to interpreter services at the hearing if needed to participate;

The principal shall make reasonable efforts to notify the parent/guardian orally of the opportunity to attend the hearing. In order to conduct a hearing without the parent/guardian present, the principal must be able to document reasonable efforts to include the parent/guardian. Reasonable effort is presumed if

the principal sent written notice and documented at least two attempts to contact the parent/guardian in the manner specified by the parent/guardian for emergency situations.

All written communications regarding notice of proposed suspension shall be either by hand delivery or delivered by first-class mail, certified mail, or email to address provided by the parent/guardian for school communications (or other method agreed to by the principal and parent/guardian) in English, and in the primary language in the home if other than English, or other means of communication where appropriate.

SHORT-TERM SUSPENSIONS: HEARING AND PRINCIPAL DETERMINATION

A short-term suspension is the removal of the student from the school premises and regular classroom activities for ten (10) consecutive days or less. Out-of-school short-term suspensions which do not cumulatively over the course of the school year exceed ten (10) days of suspension shall be conducted in accordance with this section.

Principal Hearing. The purpose of the hearing with the principal is to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student has committed the disciplinary offense, the basis for the charge, and any other pertinent information. The student shall have an opportunity to present information, including mitigating facts. A parent/guardian present at the hearing shall have the opportunity to discuss the student's conduct and offer information, including mitigating circumstances.

Based on the available information, including mitigating circumstances, the principal will make a determination whether the student committed the disciplinary offense, and if so, the consequence. The principal will provide notification in writing of his/her determination in the form of an update to the student and parent/guardian, and provide reasons for the determination. If the student is suspended, the principal shall inform the parent/guardian of the type and duration of the suspension, and shall provide an opportunity for the student to make up assignments and other school work as needed to make academic progress during the period of removal.

If the student is in grades pre-k through 3, the principal shall send his/her determination to the superintendent and explain the reasons prior to imposing an out-of-school suspension, before the short-term suspension takes effect.

All written communications regarding the hearing and principal determination shall be either hand delivery or delivered by first-class mail, certified mail, or email to the address provided by the parent/guardian for school communications (or other method agreed to by the principal and parent/guardian) in English, and in the primary language in the home if other than English, or other means of communication where appropriate.

LONG-TERM SUSPENSIONS: HEARING AND PRINCIPAL DETERMINATION

A long-term suspension is the removal of a student from the school premises and regular classroom activities for more than ten (10) consecutive school days, or for more than ten (10) school days cumulatively for multiple disciplinary offenses in any school year. The purpose of the hearing with the principal is to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student has committed the disciplinary offense, the basis for the charge, and any other pertinent information. The student shall have an opportunity to present information, including mitigating facts, that the principal will consider in determining whether alternatives to suspension such as loss of privileges, detention, an apology, a student contract, restitution, and/or probation are appropriate.

Additionally, the student shall have the following additional rights:

- i. In advance of the hearing, the opportunity to review the student's record and the documents upon which the principal may rely in making a determination to suspend the student or not.
- ii. The right to be represented by counsel or a lay person of the student's choice, at the student's and/ or parent's/guardian's expense.
- iii. The right to produce witnesses on his or her behalf and to present the student's explanation of the alleged incident, but the student may not be compelled to do so.
- iv. The right to cross-examine witnesses presented by the school district.
- v. The right to request that the hearing be recorded by the principal. All participants shall be informed that the hearing is being recorded by audio. A copy of the audio recording will be provided to the student or parent/guardian upon request.

Based on the evidence submitted at the hearing the principal shall make a determination as to whether the student committed the disciplinary offense, and, if so, after considering mitigating circumstances and alternatives to suspension (the use of evidence-based strategies and programs, such as mediation, conflict resolution, restorative justice, and positive interventions and supports) what remedy or consequence will be imposed. If the principal decides to impose a long-term suspension, the written determination shall:

- i. Identify the disciplinary offense, the date on which the hearing took place, and the participants at the hearing.
- ii. Set out key facts and conclusions reached by the principal.
- iii. Identify the length and effective date of the suspension, as well as a date of return to school.
- iv. Include notice of the student's opportunity to receive a specific list of education services to make academic progress during removal, and the contact information of a school member who can provide more detailed information.
- v. Inform the student of the right to appeal the principal's decision to the superintendent or his/her designee (only if a long-term suspension has been imposed) within five (5) calendar days, which may be extended by parent/guardian request in writing an additional seven (7) calendar days.

The long-term suspension will remain in effect unless and until the superintendent decides to reverse the principal's determination on appeal.

If the student is in grades pre-k through grade 3, the principal shall send his/her determination to the superintendent and explain the reasons prior to imposing an out-of-school suspension, whether short-term or long-term, before the suspension takes effect.

All written communications regarding the hearing and principal determination shall be either hand delivery or delivered by first-class mail, certified mail, or email to the provided by the parent/guardian for school communications (or other method agreed to by the principal and parent/guardian) in English, and in the primary language in the home if other than English, or by other means of communication where appropriate.

APPEAL OF LONG-TERM SUSPENSION

A student who is placed on a long-term suspension shall have the right to appeal the principal's decision to the superintendent if properly and timely filed. A good faith effort shall be made to include the parent/guardian at the hearing. The appeal shall be held within three (3) school days of the appeal, unless the student or parent/guardian requests an extension of up to seven (7) additional calendar days, which the superintendent shall grant.

The student and parent/guardian shall have the same rights afforded at the long-term suspension principal hearing. Within five (5) calendar days of the hearing the superintendent shall issue his/her written decision which meets the criteria required of the principal's determination. If the superintendent determines the student committed the disciplinary offense, the superintendent may impose the same or a lesser consequence than that of the principal. The superintendent's decision shall be final.

EMERGENCY REMOVAL

A student may be temporarily removed prior to notice and hearing when a student is charged with a disciplinary offense and the continued presence of the student poses a danger to persons or property, or materially and substantially disrupts the order of the school and, in the principal's judgment, there is no alternative available to alleviate the danger or disruption. The temporary removal shall not exceed two (2) school days, following the day of the emergency removal.

During the emergency removal, the principal shall make immediate and reasonable efforts to orally notify the student and student's parent/guardian of the emergency removal and the reason for the emergency removal. The principal shall also provide the due process requirements of written notice for suspensions and provide for a hearing which meets the due process requirements of a long-term suspension or short-term suspension, as applicable, within the two (2) school day time period, unless an extension of time for the hearing is otherwise agreed to by the principal, student, and parent/guardian.

A decision shall be rendered orally on the same day as the hearing, and in writing no later than the following school day. The decision shall meet all of the due process requirements of a principal's determination in a long-term suspension or short-term suspension, as applicable.

IN-SCHOOL SUSPENSION UNDER 603 CMR 53:02(6) & 603 CMR 53.10

In-school suspension is defined as the removal of a student from regular classroom activities, but not the school premises, for not more than ten (10) consecutive school days, or no more than ten (10) school days cumulatively for multiple infractions over the course of the school year.

A Principal may impose an in-school suspension as defined above according to the following procedures:

The principal shall inform the student of the disciplinary offense charged and the basis for the charge, and provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident. If the principal determines that the student committed the disciplinary offense, the principal shall inform the student of the length of the student's in-school suspension, which shall not exceed ten (10) days, cumulatively or consecutively, in a school year.

On the same day as the in-school suspension decision, the principal shall make reasonable efforts to notify the parent orally of the disciplinary offense, the reasons for concluding that the student committed the infraction, and the length of the in-school suspension. The principal shall also invite the parent to a meeting to discuss the student's academic performance and behavior, strategies for student engagement, and possible responses to the behavior. Such meeting shall be scheduled on the day of the suspension if possible, and if not, as soon thereafter as possible. If the principal is unable to reach the parent after making and documenting at least two (2) attempts to do so, such attempts shall constitute reasonable efforts for purposes of orally informing the parent of the in-school suspension.

The principal shall send written notice to the student and parent about the in-school suspension, including the reason and the length of the in-school suspension, and inviting the parent to a meeting with the principal for the purpose set forth above, if such meeting has not already occurred. The principal shall deliver such notice on the day of the suspension by hand-delivery, certified mail, first-class mail, email to

an address provided by the parent for school communications, or by other method of delivery agreed to by the principal and the parent.

SUSPENSION OR EXPULSION FOR DISCIPLINARY OFFENSES UNDER M.G.L. 71 §§37H and 37H^{1/2}

The due process notification and hearing requirements in the preceding sections do not apply to the following disciplinary offenses:

Possession of a dangerous weapon, possession of a controlled substance, or assault of staff

A student may be subject to expulsion if found in possession of a dangerous weapon, possession of a controlled substance, or the student assaults a member of educational staff, and the principal determines the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school.

The principal shall notify the student and parent(s)/guardian(s) in writing of the opportunity for a hearing, and the right to have representation at the hearing, along with the opportunity to present evidence and witnesses. After said hearing, a principal may, in his/her discretion, decide to levy a suspension rather than expulsion. A student expelled for such an infraction shall have the right to appeal the decision to the superintendent. The expelled student shall have ten (10) days from the date of the expulsion in which to notify the superintendent of his/her appeal. The student has the right to counsel at the hearing before the superintendent. The subject matter of the appeal shall not be limited solely to a factual determination of whether the student was guilty of the alleged offense.

Felony complaint or issuance of felony delinquency complaint

Upon the issuance of a criminal complaint charging a student with a felony, or the issuance of a felony delinquency complaint against a student, the principal may suspend a student for a period of time determined appropriate by the principal if the principal determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school.

The principal shall notify the student in writing of the charges, the reasons for the suspension (prior to such suspension taking effect), and the right to appeal. The principal will also provide the student and parent(s)/guardian(s) the process for appealing the suspension to the superintendent. The request for appeal must be made in writing within five (5) calendar days. The hearing shall be held within three (3) days of the request. The suspension shall remain in effect prior to any appeal hearing before the superintendent. At the hearing, the student shall have the right to present oral and written testimony, and the right to counsel. The superintendent has the authority to overturn or alter the decision of the principal. The superintendent shall render a decision on the appeal within five (5) calendar days of the hearing.

Felony conviction or adjudication/admission in court of guilt for a felony or felony delinquency

The principal may expel a student convicted of a felony, or has an adjudication or admission of guilt regarding a felony, if the principal determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school.

The student shall receive written notification of the charges and reasons for the proposed expulsion. The student shall also receive written notification of his right to appeal the decision to the superintendent, as well as the appeal process. The expulsion shall remain in effect prior to any appeal hearing conducted by the superintendent.

The student shall notify the superintendent in writing of his/her request for an appeal the decision no later than five (5) calendar days following the date of the expulsion. The superintendent hearing shall be held with the student and parent(s)/guardian(s) within three (3) calendar days of the expulsion. At the hearing, the student shall have the right to present oral and written testimony, and shall have the right to counsel.

The superintendent has the authority to overturn or alter the decision of the principal. The superintendent shall render a decision on the appeal within five (5) calendar days of the hearing.

Any student expelled from school for such an offense shall be afforded an opportunity to receive educational services and make academic progress.

Travel

Travel by senior high school groups to foreign countries or extended travel in the United States is subject to school committee approval or disapproval, based on the plans and merits of each trip as prescribed in the STGRSD Policy 8.1. JJH

Use of School Equipment

School equipment is for the exclusive use of school personnel. The Superintendent of Schools must approve any loaning of equipment. Loaned equipment must be operated by the approved staff member.

Video/DVD Guidelines

Rationale:

Due to the availability of commercial videos, especially those that may have R or NC17 Ratings or controversial themes, the Academic Standards Committee believed it was necessary to create some guidelines for the following reasons:

1. Some students may not be old enough to legally view R or NC17 rated movies without a parent or guardian's permission.
2. Parents or guardians may want the option of deciding if their students are to be exposed to controversial subject matter.
3. The use of videos that are unrelated to curriculum may cause the public to question the need for teacher preparation time, pay raises and overall education at the high school.
4. Teachers in different departments may choose to show the same movie in other subject areas but from different points of view. Video Guidelines will help to prevent repetition across the curriculum.
5. Students need to be held accountable for what they have viewed to ensure evidence that the video has educational value.

*Videos shown at SRS should:

1. Be used with students in "face to face" instruction with the teacher.
2. Be directly related to the curriculum and the current instruction.
3. Be linked to instructional objectives.
4. Be linked to an assignment related to the video.
5. Be shown in the normal instructional setting, not in such large group settings as the auditorium.
6. Not be used for extracurricular, reward or recreational use without educational merit.
7. Not to be used for fundraising. No admission should be charged for a film showing.
8. R or NC17 rated movies should only be shown to students who have a signed permission slip from their parent or guardian.
9. To this end, teachers will list videos that are part of their curriculum so that a school-wide list can be compiled and updated by the Academic Standards Committee.

*Guidelines adopted from Springfield Township High School Virtual Library, <http://mciu.org/-spyvweb/videoguidelines.html>

Notification to All Parents in Schools that Receive Title I Funding. Notification to Parents of Teacher Qualifications – Compliance with P.L. 107-110, Section 1111(h)(6)(A)

The Federal No Child Left Behind Act of 2001 requires school districts that receive federal Title I funding to notify parents of their right to know the professional qualifications of the classroom teachers who instruct their child.

As a recipient of these funds, SRS will provide you with this information in a timely manner if you request it. Specifically, you have the right to request the following information about each of your child's classroom teachers:

1. Whether the teacher meets the state qualification and licensing criteria for the grades and subjects he or she teaches.
2. Whether the teacher is teaching under emergency or provisional status because of special circumstances.
3. The teacher's college major, whether the teacher has any advanced degrees, and the field of discipline of the certification or degree.
4. Whether paraprofessionals provide services to your child and, if so, their qualifications.

SRS is committed to providing quality instruction for all students and does so by employing the most qualified individuals to teach and support each student in the classroom. If you would like to receive any of the information listed above for your child's teacher, please contact the building principal.

Use of Email

Email is an effective communication tool for communicating with staff, students, administrators, and families. Email is considered written documentation and when written to a student may become part of the student record. It is extremely important that email be used appropriately and in adherence with District Policy. If, at any time, a student, faculty or staff member, or parent/guardian has a particular concern about the use of email, or response to an email received, the building principal is available for assistance.

Internet Use Policy

The use of the Internet is a privilege, not a right. Inappropriate Internet use will result in a cancellation of those privileges and disciplinary action up to and including suspension. Each student who is given Internet access privileges or receives an account will be a part of a discussion with a district faculty member pertaining to the proper use of the Internet. School computers are school property; therefore, the administration reserves the right to inspect computer files at any time.

The Student Assistance Team (SAT)

The Student Assistance Team guides and directs the process of discipline and behavioral interventions. Team members include administrators, guidance and adjustment counselors, the nurse, school psychologist, and special service providers.

V. GUIDANCE

Guidance services are available for every student in the Southwick Regional School. Guidance services include assistance with educational planning, interpretation of test scores, occupational information, career information, tutoring, assistance with home, school, and/or social concerns, or any issues students feel they would like to discuss with the counselor.

Students wishing to meet with their counselor must obtain a pass from their counselor or the guidance secretary before or after school, or during a homeroom (7/8) or lunch (7-12) period. If a student wishes to see a counselor immediately, he/she should communicate this to the secretary or counselor directly.

Academic Program Policies

- All programs must have the approval of the Guidance Director.
- Only one foreign language may be started in a semester.
- All elective courses are subject to satisfactory enrollment.
- Students should choose electives at the grade level for which they are listed, although, upper class students may choose lower class electives.
- Students must pass English in order to enroll in the next English course in the sequence, ie: English I must be passed to enroll in English II
- In order to elect an independent study course, a student must have the approval of the department chairperson and the guidance director.
- Advanced Placement and Honors courses are designed to challenge and meet the needs of academically strong and highly motivated students. These offerings are selective in nature and are recommended to students meeting specific criteria, including department approval.
The quality and quantity of student work are important factors in meeting with success in an Advanced Placement or Honors program. Such courses are differentially weighted in computing class standing.
- Homework, when assigned, is considered essential to academic success and the learning process. To be effective, homework should be completed on time and as an independent activity. Teachers will establish course related policies regarding grading homework assignments.

- Students who plan to participate in full graduation ceremonies must take four full courses in each semester of his/her senior year. (Only in very rare circumstances and for very specific reasons will the administration make an exception to this rule).

College Courses

A student who wishes to take courses at a local college for credit must:

- Notify his/her guidance counselor one term prior to the anticipated enrollment.

All students must be enrolled in a minimum of four (4) courses at Southwick Regional School and/or the college each semester. If a student wishes to enroll in more than one course outside SRS, approval of the principal is required. Additionally, any student spending more than 75% of his/her time outside of SRS is ineligible to hold elected office.

Grades: High school students accepted into college-level work shall receive both high school credit toward graduation and college credit. At the discretion of the high school, college level course work may be treated at the honors level. Students must provide a grade report card to the high school guidance office. For the purpose of determining Honor Roll eligibility, dual enrollment students are responsible for securing a numeric mid-term grade from their professor(s).

Responsibilities: All students enrolled on a dual enrollment basis are responsible for their own transportation, tuition, fees, textbooks, and instructional materials.

Students who qualify for graduation from Southwick Regional School through participation in dual enrollment may participate in the senior activities for their graduating class provided all other obligations have been met.

- All students will be responsible for extended insurance coverage while off campus. School insurance covers on-campus accidents only.

Final Exams (9- 12)

- Final exams will be given at the end of the second and fourth terms, respectively, and will count for 20% of the semester grade.
- Each department will develop examinations in keeping with department goals and objectives.

LPVEC Career and Technical Education Center (see Vocational-Technical Education District policy)

The Career and Technical Education Center (Career TEC) is an extension of the seven member high schools served by the Lower Pioneer Valley Educational Collaborative. Transportation to and from the Career TEC is provided by the district. Enrolling at the Career TEC is a part of the process of course selection in the home high school.

Application Process for Career TEC at LPVEC:

Students can obtain an application for the Career TEC program through the guidance office at Southwick Regional School. The application must be completed and submitted to the guidance office in the spring before a student could enroll at Career TEC. The due date is typically March 30th. Following the submission of the application, there is a process of interviews and application review by a Career Tec Counselor. Students are accepted into the program by the LPVEC. Students who apply to go to the Career TEC program should also fill out a tentative SRS high school schedule with alternative courses should they not be accepted or decide not to enroll.

The Career TEC Program: Students in ninth or tenth grade participate in an exploratory program and subsequently choose a shop program to follow. Ninth grade students participate in Exploratory for 2 block during the 1st semester only. Students are not accepted initially into a particular shop.

Transportation: The Southwick-Tolland-Granville Regional School District provides transportation by bus to the LPVEC Career TEC program. All students are expected to ride the bus to and from LPVEC. Seniors may apply on an individual bases to drive to the Collaborative. They must agree to follow all the LPVEC and SRS parking and driving regulations. All decisions regarding student drivers will be made on an individual bases, with consideration given to participation in co-op programs, job or sports obligations, and school driving discipline records. Approval to drive to and from the LPVEC will be made at the principal's or assistant principal's discretion only.

Incomplete Grades (Make-Up Work)

When an incomplete grade is issued, incomplete work at the end of a marking term must be made up within two weeks (10 school days) of the close of the term, or a failing grade will be recorded in the student's record. If extenuating circumstances prevail an extension may be granted with the approval of the guidance office. Incompletes are issued to transfer students and those who have been absent due to illness. Work must be made up in order to obtain a grade for a particular marking period. Incomplete grades impact a student's eligibility to participate in athletic competitions and extra-curricular activities until the work is made up and a grade is officially recorded in the student's record.

Outside Course Credit

A student must obtain permission from the Guidance Department prior to taking any course in summer school, at evening school, through extension services, or from a private tutor. If a student does not obtain such prior permission, no credit will be given for any such courses. The student must also submit a certificate of satisfactory completion of the work (as required by the school) to receive credit for the course.

Physical Education Requirement (9-12)

A student must take and pass four years of Physical Education classes at Southwick Regional School in order to meet graduation requirements.

Medically excused students must be excused by a licensed physician for a specified period of time (a marking term or portion of a marking term). The student's documented medical excuse must be on file with both the Physical Education Department and the Guidance Department before the end of a marking term, or all grades will remain as recorded.

Any student medically excused for more than one-half the school semester will not receive credit for the course. The amount of academic credit the student receives will be determined on an individual, case-by-case basis, dependent upon the time of the school year in which the student resumes participation in physical education classes. Documented medical excuses will take precedent over the four year graduation requirement.

Alternative Physical Education: A student in grade 11 or grade 12 who needs to explore an alternative Physical Education course due to unique scheduling issues, must meet with his/her guidance counselor to review options. The need for this option could be necessitated by either vocational or academic requirements. Approval from the guidance director and the principal is required for any Alternative Physical Education plan.

Program Changes

Students are discouraged from making changes in their academic schedule. No schedule changes will be made after the first week in a semester. However, a change may be made if there is an ability level change in a course, and a change is agreed upon by the students, parent/guardian, guidance counselor, and teacher(s). Schedule changes that meet this condition will result in a "W" (withdrawn) for the course dropped, and will not be computed in the student's G.P.A.

Senior Checkout

At the close of final exams, seniors will be required to turn in books and/or equipment, settle all accounts, and turn-in checkout sheets.

Standardized Testing Program

The testing program is included in the guidance services. Achievement tests, Advanced Placement exams, and interest inventories are administered under the direction of the department and interpretation is given to enable students to better know themselves. All 7th, 8th, 9th, and 10th grade students are required to participate in the Massachusetts Comprehensive Assessment System (MCAS), a mandatory statewide testing program. All students are required to achieve proficiency in order to obtain a high school diploma.

Any student interested in attending college may want to review the many catalogues on file in the guidance office. Since many college programs are highly selective, students may want to discuss the requirements of a particular school or occupation with the guidance counselor. Some colleges requiring standardized tests also require their own examinations. Guidance counselors will help students determine the qualifications needed for a given school.

Summer School

A minimum grade of 45 must be attained in a course before a student will be allowed to retake a course for credit in summer school. The student must submit a grade report or certificate of satisfactory completion of summer school course work to his/her guidance counselor prior to the start of the school year in order to receive credit for summer school courses.

Virtual High School (9-12)

Virtual High School (VHS) programs provide students opportunities to take courses via the internet that would otherwise not be available at Southwick Regional School. Space in the program is limited; students are selected for the program based on the following:

1. Preference
 - a. First preference will be given to seniors needing a course to fulfill graduation requirements.
 - b. Second preference will be given to seniors wishing to take a course for personal growth.
 - c. Third preference will be given to juniors wishing to take a course for personal growth.
 - d. Fourth preference will be given to special situations with the approval of guidance and administration.
2. Eligibility
 - a. Students must be academically eligible to participate in VHS. Students must be passing at least 3 of their 4 courses to be academically eligible for VHS.
 - b. Eligibility does not guarantee acceptance into the VHS program.
 - c. All students participating in VHS must have successfully completed Information Technology, or must demonstrate competency with the internet and the Microsoft Office programs Word, Excel, and PowerPoint.
 - d. Any specific requirements or pre-requisites for an individual VHS course must be met.
3. Course Length and Credit
 - a. VHS courses are on a semester basis except for Advanced Placement and selected other courses which meet for the entire year.

 - c. Student may take one VHS course per semester. Students who wish to take additional courses must have the approval of the guidance director.
4. Registration
 - a. Students contemplating participation in a VHS course must first include VHS on their SRS course selection sheet.
 - b. The guidance office and the VHS site coordinator will jointly approve students for participation in VHS courses.
 - c. Students who have selected VHS during the course selection process will then:
 - i. Complete the VHS registration survey available through the guidance office or VHS on-site coordinator.
 - ii. Choose a preferred, and two alternate VHS courses from the VHS course list, and
 - iii. Submit the completed VHS course selection sheet to the guidance office for forwarding to the VHS site coordinator.
 - d. The VHS site coordinator will register students for their desired course as long as space in the course is available. If space is not available, registration will be attempted in the alternate course choices unless the student has requested to be waitlisted for the preferred course by checking the appropriate box.

- e. Students taking AP courses must take the AP test. The AP test will be given through SRS.
 - f. Registration for fall and the following spring's VHS classes begins in mid to late April. Popular courses fill early, so planning is essential.
5. Other

 - b. VHS students will take their course in the designated VHS classroom.
 - c. At the conclusion of the VHS course, students may take one or two VHS mini-courses, called Independent Learning Opportunities, to fill out the semester.
 - d. All students who register for VHS courses must sign the VHS contract and abide by the Computer and Internet Acceptable Use policy.

Withdrawal and Transfer

- Students must:
1. Secure authorization withdrawal or transfer note from their parent or guardian.
 2. Obtain appropriate forms from the guidance office.
 3. Have the forms filled out by the appropriate teachers and staff.
 4. Return all school books, equipment, materials, and other school property and pay any fees.
 5. Submit completed forms to the guidance office for final clearance.

VI. SCHOOL RESOURCES, SAFETY, & WELLNESS

Accidents

Every accident in the school building, on school grounds, at practice sessions, or any athletic event sponsored by the school must be reported immediately to the person in charge, and to the school office. All accident reports must be filing in writing on the proper forms.

Cafeteria

Breakfast and lunch is served daily in the cafeteria. Use of the cafeteria during breakfast and lunch is a privilege which depends on appropriate behavior. Rude or disrespectful behavior will not be tolerated. Open food containers are not to be removed from the cafeteria.

The District uses a Point-of-Sale system. Parents register on-line at www.SchoolCafe.com using information provided to them by the School Nutrition Department. They will be able to pay for meals, as well as monitor food purchases and add any restrictions to sales. Students may also bring checks into school which will be deposited into their Point-of-Sale account if done before 9:30 in the morning; **no money will be accepted at the register during lunch**. No change will be given to students in school; any change will be credited to their account. All purchases made in the cafeteria will be done through the Point-of-Sale, so if your student wants to buy a snack, money should be placed in their account as detailed above.

During the school year, when there is a scheduled half-day of school (e.g., Collaboration Day), we will offer a lunch to any student. These bag lunches are served with an entrée, fruit, vegetable and milk. Students will be asked to order in the morning and their bagged lunch will be available to pick up in the cafeteria at dismissal. Please see the website for the menu of hot meals offered and for pricing. All meals offered will be charged according to the standard lunch costs. Please be advised that the menu is subject to change without notice.

Students who would like to have breakfast should pick up their breakfast from the Grab & Go Cart at designated times and locations.

Students who carry their own lunch should be sure their lunch box or bag has their name on it. Students should not share any food they bring from home. If a student forgets his/her money or lunch, he/she will be provided with a regular meal, and the charge will be added to the students' lunch account. Students with a balance will only be allowed to debit one full meal per day, per meal service, i.e. one breakfast and one lunch per day.

Information for free or reduced priced lunches is sent home with every student the first week of school. Additionally, if at any point during the school year a family wishes their children to participate, and feels that their income is within the eligibility guidelines, they should request an application from the school office or they can apply confidentially online at www.SchoolCafe.com. Parents will be notified of their children's eligibility by mail within 10 days. See nutrition page for help or links.

Any account with a positive balance at the end of the school year will be rolled into the students' accounts for the next year, regardless of which school they attend in the district. Any questions regarding this policy should be directed to the Director of School Nutrition, Matthew Lillibridge by emailing food@stgrsd.org

Emergency Procedures (Fire Drills)

Fire drills at regular intervals are required by law and are an important safety precaution. During a fire drill or other emergency drills, at the first signal given, everyone must obey orders promptly. During a fire drill or evacuation, everyone must clear the building by prescribed routes as quickly as possible. The teacher in each classroom will give students instructions. Any student who endangers safety may be disciplined.

Emergency Lock Down and Evacuation drills are held periodically during the school year and every drill should be treated as if there actually was an emergency. All passing done during drills will be done quickly and quietly to avoid confusion. Pay attention to your teacher so that you will be able to hear emergency instruction. **NOTE:** Parents should set up an emergency procedure so that their child knows what to do and where to go if, due to an emergency, they arrive home when a responsible adult is not there.

In the event of an actual emergency, please do not go to the school. You will receive information via Blackboard Connect notification system.

Health Services and School Nurse

If a student becomes ill in school, he/she should report to the school nurse who will determine what should be done. Students must not leave the building because of illness without authorization. If the nurse is not in, the student should report to the office.

The school nurse is available to work with you to accommodate your child's health needs while at school. From cuts and bumps and stomach aches, to chronic health conditions, the nurse is here to assist your child in remaining healthy and productive in school. Feel free to contact the school nurse with any questions, concerns or to obtain necessary forms.

ACTIVITY LIMITATIONS

If your student is required to have limited physical activity in school, a written statement from the licensed health care provider describing the limitations, must be provided to the school so appropriate arrangements can be made, if necessary.

EMERGENCY CARD

Each fall parents will receive a Student Emergency Form. It is essential that the form be completed annually and that the information is current at all times. Medical conditions such as allergies, asthma, epilepsy, diabetes, etc. should be indicated on the card. Please update any changes throughout the year. This form can be downloaded from the district website.

FIELD TRIPS

Permission forms for field trips are sent home by the students' teachers prior to the trip. Please complete the form as soon as possible. You must write any medication your child may need in the large box on the field trip form and indicate if you give the teacher permission to administer the medicine on the field trip. **Be sure to write any medical condition in the box also (i.e. diabetes, migraine headaches, motion sickness, reactions to bee stings etc.)** If your child needs to take any medicine, a physician order and parental consent must be on file with the nurse. Medications to be taken on the trip will be delegated to a teacher to administer. It can take some time to make necessary arrangements for your child's safe enjoyment of a field trip. Your cooperation is essential. Please discuss field trips with the school nurse at any time.

FIRST AID

First Aid will be administered for minor injuries received during the school day. When a student becomes ill or is seriously injured, the parent is notified immediately. If a parent cannot be reached in an emergency, the child will be transported to the hospital.

HOMEBOUND TUTORING

Parents who expect their child to be absent for an extended period of time due to illness or accident, should contact the Student Services Department about home tutoring.

IMMUNIZATIONS

By law, the Massachusetts Department of Public Health requires that all students be fully immunized prior to school entry. The Massachusetts school immunization requirements are on the District's website. Physicians are aware of these requirements as well as the required time intervals between doses. (Please note that each state has slightly different timetables for immunizations. If your child's pediatric practice is in another state, make sure your child is compliant with Massachusetts requirements). The State Department of Public Health mandates the school nurse to review the time intervals between the doses of specific vaccines. If the intervals between doses are outside of the Department of Public Health guidelines an additional dose of a vaccine may be required. Parents will be informed individually if this is necessary. Every child must be properly vaccinated to attend school in Massachusetts. Exemptions may only be accepted for medical or religious reasons, and must be made in writing. Children who are homeless are allowed to enter pending verification of immunization.

Enforcement:

The school administration (principal, superintendent), in consultation with the school nurse, has the responsibility to refuse school admittance to students who have not received the required immunizations or who are not otherwise exempted. Unimmunized or partially immunized students whose private physicians certifies in writing that they are in the process of receiving the required immunizations, shall be allowed to attend school provided they receive the required immunizations when scheduled. They will

be regarded as being in compliance with the law as long as they are actively pursuing the receipt of the immunizations.

2. It is the responsibility of the school nurse to review the records and inform the parent/guardian if the student is not in compliance. If the parent/guardian has difficulty obtaining the necessary immunizations, a choice of possible resources will be offered. Please refer to M.G.L. Chapter 76, Section 15, any student found to be in non-compliance with the immunization requirements is subject to immediate exclusion from school and shall not be readmitted until the parent or guardian satisfies the requirement of the statute or, in the alternative, provides evidence to substantiate an exemption as described above.

MANDATED HEALTH SCREENINGS

The Massachusetts Department of Health mandates health screenings that are performed during the school year. These include height, weight, vision, hearing and postural or scoliosis screenings. For any vision, hearing, or postural screening outside normal limits, a referral will be sent home for further testing.

You have an option to not have your child participate in one or all screenings. You must however, make your decision to “OPT Out” of a screening in writing and send it to your child’s school nurse. Otherwise, your child will be automatically screened as per Massachusetts Department of Public Health (DPH) Regulations. “Opting out” only applies to screenings and DOES NOT apply to physical exams. The “OPT Out” option must be made annually (it does not carry over from year to year). The mandated health screening requirements may be located on the District’s website.

MEDICAL AND DENTAL APPOINTMENTS

Medical and dental appointments should be made, whenever possible, during non-school hours.

MEDICATION POLICY

The Southwick-Tolland-Granville Regional School District follows the laws and regulations of the Massachusetts Department of Public Health in the formulation of medication policies to ensure the health and safety of children who need medication during the school day. The following forms must be on file in your child’s health records before any medication can be administered at school or on a field trip. The forms are available from the nurse or may be downloaded from the district website.

1. A signed consent by parent or guardian to give medicine.
2. A signed medication order completed by your child’s licensed prescriber (physician, nurse practitioner, etc.).

The policies include over the counter medications such as acetaminophen, cough drops and ointments. Medicines must be in a pharmacy or manufacturer-labeled container. Students are not permitted to transport any medicine to or from school. Medicines must be delivered and picked up by a responsible adult. No more than a thirty-day supply should be delivered to the school. **It is necessary to obtain new orders and parental permission every year.** Any medications not picked up by the last day of school will be destroyed.

The school nurse may not administer any medications, including over the counter medications, without proper orders and consents. Students are not allowed to carry medications in school, and may be referred for disciplinary action if found with medication. Please plan ahead to meet your child’s medication needs. The school nurse is available to help you if needed.

Our school physician has provided medical directives for our students in grades 6-12. See the back of the emergency form.

PHYSICAL EXAMINATIONS

State law requires physical examinations of all school children within a year before entry into school, and at intervals of either three or four years thereafter. The Southwick-Tolland-Granville Regional School District requires physical examinations in grades K, 4, 7 and 10, and for all new students. Because your child's physician has a comprehensive knowledge of the health status of your child, private physician examinations are strongly encouraged. If the school nurse has concerns about a student's health she may require a student to have an exam to attend school. An exam within a year of entry into school is acceptable.

WELLNESS POLICY

Our district Wellness Policy addresses nutrition standards, nutrition education, physical activity, and other school-based activities designed to promote student wellness. It also includes an evaluation component. The complete policy is available on the District website.

WHEN TO KEEP A CHILD HOME

It is sometimes difficult to decide when a child should remain home from school. Here are some guidelines:

1. Child has vomiting or diarrhea.
2. Fever 100 degrees or higher, to remain home until fever free for 24 hours without the use of fever medications.
3. 24 hours after starting antibiotics, especially after conjunctivitis or strep throat.
4. Child with any contagious illness.
5. Excessive fatigue after illness.
6. When your child's doctor recommends rest at home following an illness, injury, or surgery.
7. After an injury or surgery when narcotic pain medication is still necessary.

Remember to obtain a note for school if your child misses school for any appointment with a doctor, dentist, orthodontist, or mental health provider.

Library /Resource Center/ Computer Lab

The Library Media Center is open daily. It is open all blocks to classes and to individual students working on projects. The library is open during all lunches and most days after school. Middle School students (7/8) who wish to use the library after school must get permission, and a pass, from the middle school office before 2:10 p.m.

Locker Assignments

Each student is assigned a locker for storage of books and equipment. It is the student's responsibility to see that his/her locker is kept locked and in order at all times. School combination locks are to be used. Students may not use non-school issued locks on their locker. Lockers are a permanent part of the school building and students are expected to keep them in usable condition. Malfunctioning lockers should be reported to the office.

Locks will be issued on the first day of 7th grade or the first day of attendance at Southwick Regional School. Students are responsible for their school issued lock for all years of attendance at Southwick Regional School. Students are expected to keep their issued lock on their assigned locker, take the lock home each summer, and return each school year with the lock to be put on their newly assigned locker. Lost or damaged locks must be replaced, at the student's expense, through the main office.

Locker Searches

Mass searching of lockers may be conducted by the administration if the safety and well-being of the student body and building are in jeopardy.

Individual student lockers may be searched by the administration if a search is considered necessary to maintain the integrity of the school environment and/or to protect other students.

In the interest of student-administrative relationships and the spirit of due process, the following will be taken into account when making a search of a student locker and/or his/her property.

- a. If possible, the student should be present during the search
- b. A third party (witness) should be present during the search
- c. An attempt should be made to secure prior student consent

A search may be made by a police officer with a valid warrant or in connection with a valid arrest. When police are involved, parents should be notified, the Principal or his designated representative from the school should be present during the search, and a complete report of the incident including witnesses and other pertinent information should be immediately recorded.

Lost & found

Articles or objects found should be turned into the main office. Students who have lost an article with the office during the school day but not during class periods. Student may also check the lost and found bin outside the auditorium.

Publicity Authorization and Release

The Southwick-Tolland-Granville Regional School District and Southwick Regional School may release and publish student work, photographs, motion pictures, video images, or other likeness of your child in connection with any and all news releases, public relations, or promotional materials or announcements, advertisements, web pages, or otherwise concerning your child's academic honors, sports activities, participation in school-sponsored musical, dramatic, or dance performances, or any other purpose in connection with your child's attendance at Southwick Regional School. If you, the parent or guardian, have any objections to the Publicity Authorization and Release policy, please write to the building principal and your child will be exempt from this policy.

Solicitation

State law prohibits solicitation of students on school grounds. Any person or persons making such claims should be reported to the office of the Superintendent of Schools. Organizations are not allowed to sell tickets or products in the schools. Supplies, equipment, and other forms of advertising (other than trade names) are not permitted. Vendors are not permitted to sell their products on school property.

Student Valuables

Students, not the school, are responsible for their personal property. Students are cautioned not to bring large amounts of money, valuable electronic devices, or cameras to school, and to keep track of glasses or watches at all times. If it is necessary to bring more money than needed to pay for lunch, students should leave it at the office for safekeeping.

Vehicles on School Property/ Student Drivers

A student may, with the permission of a parent/guardian, be issued a permit to drive his/her vehicle to and from school under the following conditions.

- The student must complete the designated form provided by the school and have it signed by a parent/guardian.

- Students must park in the designated student parking area.
- Student drivers must drive safely while on school property, observing speed limits, seat belt laws, and all other good driving as required by the school and the Registry of Motor Vehicles.
- Student cars are not to be used or occupied during school hours.
- Student driving is a privilege. Student drivers must meet acceptable scholastic, behavioral, and safe driving requirements to maintain driving privileges.
- Student cars illegally parked in unmarked or non-approved parking areas will be denied the privilege of driving to school for the remainder of the school year, subject to adequate notification.
- Failure to observe student driver expectations may, at the discretion of the administration, result in denial of the privilege of driving to school for a period of time or the remainder of the school year, subject to adequate notification.

Visitors

It is school policy to accept only those visitors who have legitimate business to attend at the school. Although parents and such visitors are welcome, they should obtain approval from the principal prior to their visit to the school and, upon entrance to the school, shall register in the office. It is understood that no visitor shall disrupt or interfere with the conduct of any class or educational activity. Students who wish to bring a guest to school must obtain prior approval from the office and secure a pass. Visitors are expected to leave promptly when they have completed their business.

Voter Registration

All students are encouraged to register to vote when they turn 18 years of age. Voter registration forms are available in the guidance office for all citizens 18 years or older. These forms may be returned to the town hall where the citizen resides or may be mailed by following the instructions on the form. Voting is an important right for all Americans.

VII. ATHLETICS & EXTRA-CURRICULAR ACTIVITIES

All student athletics and activities, regardless of when or where they take place, must comply with Southwick-Tolland-Granville Regional School District School Committee policies.

Athletics

Interscholastic athletics are governed by rules and regulations administered by the Massachusetts Interscholastic Athletic Association (MIAA). Each participating school must adhere to these regulations and any additional locally established regulations and/or policies.

Insurance: The athlete, to participate, must have certified, in writing, by the parent/guardian that sufficient insurance coverage is maintained through a family accident policy or that coverage is maintained by a school accident policy.

Physical Examination: Physical examinations are required annually before participation in competitive sports. A student in the Southwick-Tolland- Granville Regional School District must pass a physical examination within thirteen months of the start of each season. No exception is permitted for a student who becomes a participant in a treatment program. It is recommended that the student be allowed to remain at practice for the purpose of rehabilitation.

When the principal confirms, following an opportunity for the student to be heard, that a second violation has occurred, the student shall lose eligibility for the next consecutive interscholastic contests totaling 75% of all interscholastic contests in that sport.

Penalties shall be cumulative each academic year, but serving the penalty could carry over for one year. Or, if the penalty period is not completed during the season of violation, the penalty shall carry over to the student's next season of actual participation, which may affect the eligibility status of the student during the next academic year (ie: A student plays only soccer; he/she violates the rule in winter and/or the spring of the same academic year; he/she would serve the penalty(ies) during the fall season of the next academic year).

When the principal confirms, following an opportunity for the student to be heard, that a third or subsequent violation has occurred, the student shall lose eligibility for the next twelve (12) consecutive calendar months.

Theft: Any team or squad member found guilty of theft will be suspended for the remainder of that athletic season.

Jewelry: Student athletes may not wear jewelry of any type (including body piercing) while participating in games or practices.

Harassment may include, but is not limited to, any unwelcome, inappropriate, or illegal physical, written, verbal, graphic, or electronic conduct, and that has the intent or effect of creating a hostile education or work

environment by limiting the ability of an individual to participate in or benefit from the district's programs and activities or by unreasonably interfering with that individual's education or work environment or, if the conduct were to persist, would likely create a hostile educational or work environment.

"Title IX Sexual Harassment" (effective August 14, 2020) means verbal, physical or other conduct that targets a person based on their sex, and that satisfies one or more of the following:

- A school employee conditioning educational benefits or services on participation in unwelcome sexual conduct (i.e., quid pro quo);
- Any unwelcome conduct that a reasonable person would find so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the school's educational program or activity;
- Any instance of "sexual assault", "dating violence", "domestic violence", or "stalking", as those terms are defined by the Clery Act (20 U.S.C. 1092(f)(6)(A)(v)) and the Violence Against Women Act (34 U.S.C. 12291(a)(8), (10) & (30)).

Allegations of Title IX Sexual Harassment shall be reported and investigated pursuant to the Southwick-Tolland-Granville Regional School District Protocol for Investigating Sexual Harassment and Retaliation Pursuant to Title IX. Please also see Policy ACAB.

II. Responsibilities of all Persons Associated with Educational Community

Each member of the educational community is personally responsible for ensuring that his/her conduct does not in any way harass or discriminate against any other person that he/she has contact with in the performance of his/her duties or studies or while acting as a member of the school community. In addition, each member of the educational community is required to fully cooperate in any investigation of alleged discrimination, including harassment. Further, District employees are obligated to intervene and stop any discrimination, including harassment they witness and to immediately report to the appropriate party instances of discrimination, including harassment that are reported to them or of which they otherwise learn.

III. Designated Officials for Addressing Discrimination and Harassment Complaints

The Civil Rights Coordinator is responsible for receiving reports and complaints of violations of this Policy. Individuals may file a report or complaint of discrimination, including harassment, with the Civil Rights Coordinator and/or Title IX Coordinators if the complaint involves sexual harassment. If the complaint involves allegations of discrimination based on disability, the person filing the complaint also has the option to file his/her complaint with the building level 504 coordinator. A report or complaint of a violation involving the Civil Rights Coordinator(s) and/or Title IX Coordinators should be filed with the Superintendent. A report or complaint of violation involving the Superintendent should be filed with the Committee.

The Civil Rights and Title VI Coordinator:

Jenny Sullivan, Director of Curriculum and Instruction, 86 Powder Mill Road, Southwick, MA 01077, (413) 569-5391
jsullivan@stgrsd.org

Title IX Coordinator:

Jenny Sullivan, Director of Curriculum and Instruction, 86 Powder Mill Road, Southwick, MA 01077, (413) 569-5391
jsullivan@stgrsd.org

Section 504/Title II Coordinator:

Jenny Sullivan, Director of Curriculum and Instruction, 86 Powder Mill Road, Southwick, MA 01077, (413) 569-5391
jsullivan@stgrsd.org

An individual can contact any of the above listed Coordinators to file a report/complaint as well as to seek assistance in the filing of a report/complaint. If a report/complaint is filed, the person should provide the Coordinator(s) with any documentation (emails, notes, pictures, etc.) or other information in support of the allegation of discrimination, including harassment.

V. Investigation of Complaints

Upon receipt of a report or complaint of discrimination and/or harassment, the relevant Coordinator(s) should conduct a prompt investigation. The investigation must allow for the complainant, the subject of the complaint, the alleged harasser, and any other appropriate party to provide information, including witnesses or other evidence, relevant to the consideration and resolution of the complaint. The Coordinator(s) will also endeavor to promptly interview and obtain detailed written statements from potential witnesses. If further documentation or information is necessary, the Coordinator(s) will notify the appropriate party, asking that the information be provided within ten (10) school/working days. The Civil Rights Coordinator may also assign a designee to conduct the investigation in consultation with the Civil Rights Coordinator.

The District will take interim steps, as necessary, to ensure the safety and well-being of the complainant and the alleged harasser while the investigation is being conducted. Interim measures are available even if the complainant does not file or continue to pursue a complaint. The Civil Rights Coordinator(s) shall notify the complainant and the alleged harasser of specific types of interim measures available, which may include measures to avoid contact with the other party, allowing employees to change work situations as appropriate, or prohibiting contact between the parties pending the results of the District's investigation. At any time, a complainant or the alleged harasser may request either orally or in writing to the Civil Rights Coordinator that specific interim measures be taken pending the outcome of the investigation.

A written determination regarding the complaint and any resolution will be provided by the Civil Rights Coordinator to the complainant and the alleged harasser once the investigation is complete. The determination of whether the District's antidiscrimination policy has been violated will be based upon a preponderance of the evidence standard.

The complainant or the alleged harasser may request reconsideration of the determination and/or resolution of a complaint by notifying the Superintendent in writing or verbally within seven (7) school/working days of receipt of the written determination of the Civil Rights Coordinator. The Superintendent or his/her designee will respond to such request with notice to both parties within (30) thirty school/working days of receipt of the request for reconsideration; his/her decision is final.

If a violation is found to have occurred, the District will take steps to prevent recurrence of the violation and correct its discriminatory effect on the person(s) affected. Such steps may include appropriate disciplinary action, counseling, development of a safety plan and other remedies, as appropriate.

VI. Consequences of Violating Policy - Discipline & Discharge

Any employee who violates this policy will be subject to disciplinary action consistent with the contractual provisions governing his/her employment. In appropriate circumstances, the District may also refer the matter to law enforcement officials for possible prosecution.

Any student who violates this policy will be subject to disciplinary action, which may range from detention, suspension from schools, or expulsion from school. (Note: students with disabilities will be subject to the applicable disciplinary procedures set forth in the Students' Rights and Responsibilities District handbook, which adhere to Individuals with Disabilities Education Act and Section 504 of Rehabilitation Act of 1973.) In appropriate circumstances, the District may also refer the matter to law enforcement officials for possible prosecution.

VII. Confidentiality

Investigations of discrimination, including harassment complaints shall be conducted in such a manner as to disclose information only to those with a need to know or those who may have information pertinent to the investigation. Please note, some level of disclosure may be necessary in the course of conducting interviews in connection with investigation of any complaint under this policy. The District shall endeavor to keep such information as confidential as it can without compromising the thoroughness of the investigation.

VIII. State and Federal Authorities

In addition to the process described above, the complainant may, at any time, file a complaint with the U.S. Department of Education Office for Civil Rights, Massachusetts Commission Against Discrimination, Massachusetts Department of Elementary and Secondary Education, or other appropriate federal or state agency charged with enforcement of state and federal laws prohibiting discrimination, including harassment based on membership in a protected class.

CODE: ANTI-DISCRIMINATION/ANTI-HARASSMENT POLICY AND GRIEVANCE PROCEDURE

Category: Foundations and Basic Commitments **Adopted: 3/9/2005**

File No.: ACAB **Revised: 11/5/2018, 8/18/2020**

The Southwick-Tolland-Granville Regional School Committee and the Southwick-Tolland-Granville Regional School District are committed to maintaining an education and work environment for all school community members that is free from all forms of harassment, including sexual harassment. The members of the school community include the School Committee, employees, administration, faculty, staff, students, volunteers in the schools, and parties contracted to perform work for the Southwick-Tolland-Granville Regional School District.

Sexual harassment is unwelcome conduct of a sexual nature. The definition includes unwelcome conduct on the basis of sex that is so severe, pervasive, and objectively offensive that it effectively denies a person equal access to the school's education program or activity it also, includes unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, or physical conduct of a sexual nature. Sexual harassment includes conduct by an employee conditioning an educational benefit or service upon a person's participation in unwelcome sexual conduct, often called quid pro quo harassment and, sexual assault as the Federal Clery Act defines that crime.

Sexual violence is a form of sexual harassment. Sexual violence, as the Office of Civil Rights (OCR) uses the term, refers to physical sexual acts perpetrated against a person's will or where a person is incapable of giving consent (e.g., due to the student's age or use of drugs or alcohol, or because an intellectual or other disability prevents the student from having the capacity to give consent). A number of different acts fall into the category of sexual violence, including rape, sexual assault, sexual battery, sexual abuse and sexual coercion.

Massachusetts General Laws Ch. [119, Section 51 A](#), requires that public schools report cases of suspected child abuse, immediately orally and file a report within 48 hours detailing the suspected abuse to the Department of Children and Families. For the category of sexual violence, in addition to Section 51A referrals these offences and any other serious matters shall be referred to local law enforcement.

While it is not possible to list all those additional circumstances that may constitute sexual harassment, the following are some examples of conduct, which if unwelcome, may constitute sexual harassment, depending on the totality of the circumstances, including the severity of the conduct and its pervasiveness:

- Unwelcome sexual advances-whether they involve physical touching or not;
- Sexual epithets, jokes, written or oral references to sexual conduct, gossip regarding one's sex life; comment on an individual's body, comment about an individual's sexual activity, deficiencies, or prowess;
- Displaying sexually suggestive objects, pictures, cartoons;
- Unwelcome leering, whistling, brushing against the body, sexual gestures, suggestive or insulting comments;
- Inquiries into one's sexual experiences; and,
- Discussion of one's sexual activities.

The legal definition of sexual harassment is broad and in addition to the above examples, other sexually oriented conduct, whether it is intended or not, that is unwelcome and has the effect of creating an environment that is hostile, offensive, intimidating, to male, female, or gender non-conforming students or employees may also constitute sexual harassment.

Because the District takes allegations of harassment, including sexual harassment, seriously, we will respond promptly to complaints of harassment including sexual harassment, and following an investigation where it is determined that such inappropriate conduct has occurred, we will act promptly to eliminate the conduct and impose corrective action as is necessary, including disciplinary action where appropriate.

Please note that while this policy sets forth our goals of promoting an environment that is free of harassment including sexual harassment, the policy is not designed or intended to limit our authority to discipline or take remedial action for conduct which we deem unacceptable, regardless of whether that conduct satisfies the definition of harassment or sexual harassment.

Retaliation against a complainant, because they have filed a harassment or sexual harassment complaint or assisted or participated in a harassment or sexual harassment investigation or proceeding, is also prohibited. A student or employee who is found to have retaliated against another in violation of this policy will be subject to disciplinary action up to and including student suspension and expulsion or employee termination.

The complainant does not have to be the person at whom the unwelcome sexual conduct is directed. The complainant, regardless of gender, may be a witness to and personally offended by such conduct.

NOTICE OF SEXUAL HARASSMENT

The regulations require a school district to respond when the district has actual notice of sexual harassment. School districts have actual notice when an allegation is made known to any school employee. Schools must treat seriously all reports of sexual harassment that meet the definition of harassment and the conditions of actual notice and jurisdiction as noted whether or not the complainant files a formal complaint. Holding a school liable under Title IX can occur only when the school knows of sexual harassment allegations and responds in a way that is deliberately indifferent (clearly unreasonable in light of known circumstances). Schools are required to investigate every formal complaint and respond meaningfully to every known report of sexual harassment.

The regulation highlights the importance of supportive measures designed to preserve or restore access to the school's education program or activity, with or without a formal complaint. Where there has been a finding of responsibility, the regulation would require remedies designed to restore or preserve access to the school's education program or activity

REPORTING

Any person may file a report of sex discrimination, including sexual harassment (whether or not the person reporting is the person alleged to be the victim of conduct that could constitute sex discrimination or sexual harassment), at any time either in person, by mail, by telephone, or by electronic mail, using the contact information listed for the Title IX Coordinator, or by any other means that results in the Title IX Coordinator receiving the person's verbal or written report. However, if a person files a false complaint in bad faith, knowingly and intentionally, they will be subject to discipline.

Title IX Coordinator: Jenny Sullivan, Director of Curriculum and Instruction, 86 Powder Mill Road, Southwick, MA 01077, (413) 569-5391 jsullivan@stgrsd.org

The contact information for the Title IX Coordinators will always be prominently displayed on the school's website.

INVESTIGATIONS

The School will investigate and adjudicate formal complaints of sexual harassment using a grievance process that incorporates due process principles, treats all parties fairly, and reaches reliable responsibility determinations. The school's grievance process will:

- Give both parties written notice of the allegations, an equal opportunity to select an advisor of the party's choice at the party's own expense (who may be, but does not need to be, an attorney), and an equal opportunity to submit and review evidence throughout the investigation;
- Use trained Title IX personnel to objectively evaluate all relevant evidence without prejudice of the facts at issue and free from conflicts of interest or bias for or against either party;
- Protect parties' privacy by requiring a party's written consent before using the party's medical, psychological, or similar treatment records during a grievance process;
- Obtain the parties' voluntary, written consent before using any kind of "informal resolution" process, such as mediation or restorative justice, and not use an informal process where an employee allegedly sexually harassed a student;
- Apply a presumption that the respondent is not responsible during the grievance process (often called a "presumption of innocence"), so that the school bears the burden of proof and the standard of evidence is applied correctly;
- Use the preponderance of the evidence standard for all complaints of harassment on the basis of sex, regardless of whether the complaint is against students or district employees;
- Ensure the decision-maker is not the same person as the investigator and/or the Title IX Coordinator (i.e., no "single investigator models");
- Parties may submit written questions for the other parties and witnesses to answer;
- Protect all complainants from inappropriately being asked about prior sexual history ("rape shield")
- Send both parties a written determination regarding responsibility explaining how and why the decision-maker reached conclusions;
- Effectively implement remedies for a complainant if a respondent is found responsible for sexual harassment;
- Offer both parties an equal opportunity to appeal;
- Protect any individual, including complainants, respondents, and witnesses, from retaliation for reporting sexual harassment or participating (or refusing to participate) in any Title IX grievance process;
- Make all materials used to train Title IX personnel publicly available on the school's website or, if the school does not maintain a website, make these materials available upon request for inspection by members of the public; and
- Document and keep records of all sexual harassment reports and investigations for at least seven years.

RECORD KEEPING

Schools must create and maintain records documenting every Title IX sexual harassment complaint. Records relating to complaints of sexual harassment must be kept in accordance with the records retention schedule. Such records include: records of a school's investigation (including complaints (formal and informal), notices, the determination, investigative report, disciplinary measures or remedies, etc.); records of any appeals and materials associated with the appeal; records of any supportive measures taken in response to a complaint of sexual harassment (even if the complainant does not file a formal complaint); records of any informal resolution process; all materials used to train Title IX Coordinators, Investigators, decision makers, and those facilitating an informal resolution. The training materials must be kept on the School's website.

RETALIATION IS PROHIBITED

Any person who experiences retaliation for exercising their rights under Title IX can file a retaliation complaint with the Title IX Coordinator. The school will keep the names/identity of parties and witnesses confidential unless such disclosure is required under another law, or is necessary to conduct a thorough grievance procedure.

SUPPORTIVE MEASURES

When alleged sexual harassment is reported, the Title IX Coordinator must inform the victim to their right of supportive measures even if no formal complaint is filed. The school must consider the alleged victim's wishes with respect to supportive measures. Supportive measures for those involved in the sexual harassment complaint process may include: counseling, extending deadlines, modifications of work and/or class schedules, school escort services, increased school security and/or monitoring, mutual restrictions on contact between the individuals involved through a safety plan.

Supportive measures will be kept confidential whether they are provided to the alleged victim or accused person to the extent the confidentiality will not interfere with the supportive measure offered.

This policy, or a summary thereof that contain the essential policy elements shall be distributed by the Southwick-Tolland-Granville Regional School District to its students and employees and each parent or guardian shall sign that they have received and understand the policy.

Please note that the following entities have specified time limits for filing a claim.

The Complainant may also file a complaint with:

The District is committed to providing a safe environment in schools during the ongoing COVID-19 pandemic. Maintaining a safe environment is critical to the District's ability to ensure students remain in a full-time classroom learning environment.

According to public health experts, one of the best ways to stop the spread of coronavirus and to keep members of our school community safe is the use of face masks or face coverings. Therefore, in accordance with guidance and recommendations from the Center for Disease Control (CDC), the Department of Elementary and Secondary Education (DESE) and the Massachusetts Department of Public Health (DPH), the following requirements are in place until further notice.

A face covering that covers the nose and mouth is strongly recommended to be worn by individuals who remain unvaccinated or are otherwise immunocompromised in school buildings, and on school grounds, even when social distancing is observed.

Individuals who are vaccinated are not required to wear a mask, but may do so if desired.

Students and staff returning from a 5 day quarantine following a positive COVID test must follow strict mask use, other than when eating, drinking, or outside, and conduct active monitoring for symptoms, through day 10 of exposure.

Masks will be required in all school health offices.

CODE: FOOD ALLERGY POLICY

Category: SUPPORT SERVICES

Adopted: 10/2/07

File No.: EFAB

Revised:

The Southwick-Tolland-Granville Regional School District recognizes the increasing prevalence of student allergies and the life-threatening nature of allergies for many students. The school district administration has developed and implemented a policy and protocol to minimize the risk of exposure to allergens that pose a threat to students, to educate all members of the school community on management of student allergies, and to plan for the needs of students with allergies. The schools are committed to working with allergic students and their parents to address the students' emotional and social needs in addition to their health needs.

Food allergies can be life threatening. The risk of accidental exposure to foods can be reduced in the school setting if schools work with students, parents, and physicians to minimize risks and provide a safe educational environment for food-allergic students.

Family's responsibility

- Notify the school of the child's allergies each new school year.
- Work with the school team to develop a plan that accommodates the child's needs throughout the school including classroom, in the cafeteria, during school sponsored activities, and on the school bus, as well as a Food Allergy Action Plan.
- Provide written medical documentation, instructions, and medications as directed by a physician, using the Food Allergy Action Plan as a guide. Include a photo of a child on a written form.
- Provide properly labeled medications and replace medications after use or upon expiration.
- Encourage parents to have allergic child wear Medic Alert necklace or bracelet.
- Educate the child in the self-management of their food allergy including:
 - ❖ safe and unsafe foods
 - ❖ strategies for avoiding exposure to unsafe foods
 - ❖ symptoms of allergic reactions
 - ❖ how and when to tell an adult they may be having an allergy-related problem
 - ❖ how to read food labels (age appropriate)
- Review policies/procedures with the school staff, the child's physician, and the child after a reaction has occurred.
- Provide emergency contact information
- Parents are strongly encouraged to inform the bus or van driver, and any substitute driver when possible, about their child's allergy.

School's responsibility

- Be knowledgeable about and follow applicable federal laws including ADA, IDEA, Section 504, and FERPA and any state laws or district policies that apply.
- Review the health records submitted by parents and physicians.
- Include food-allergic students in school activities. Students should not be excluded from school activities solely based on their food allergy.
- Assure that all staff who interact with the student on a regular basis (including bus, van, and substitute drivers) understand food allergy, can recognize symptoms, knows what to do in an emergency, and works

with other school staff to eliminate the use of food allergens in the allergic student's meals, educational tools, arts and crafts projects, or incentives.

- All staff members who interact with the student on a regular basis will be trained on the management of student allergies. The training will address prevention efforts, information about common allergens, recognition of signs of an allergic reaction including anaphylaxis, and the emergency response plan. The training will be provided annually at the start of the school year.
- Appropriate staff members will be trained regarding the administration of an Epi-pen, as outlined in the Department of Public Health regulations. All staff members will be informed of the location of the Epi-pens.
- Work with the district transportation administrator to assure that school bus/van driver training includes symptom awareness and what to do if a reaction occurs.
- Enforce a "no eating" policy on school buses. Exceptions will be provided for those students with diabetes who may need a snack to treat a hypoglycemic episode or for circumstances where students are traveling for long periods of time. Students will be informed of this policy at the beginning of each school year, and said policy will be included in each school handbook.
- Discuss field trips with the family of food allergic child to plan appropriate strategies for managing the food allergy.
- Follow federal/state/district laws and regulations regarding sharing medical information about the student.
- Take threats or harassment against allergic child seriously.
- Substitute teachers, when applying for employment, will be provided information on the management of student allergies. This information will address prevention efforts, information about common allergies, recognition of signs of an allergic reaction including anaphylaxis, and the emergency response plan.
- An Individual Health Care Plan and Allergy Action Plan that addresses management will be developed for each student with an allergy. A copy of the Allergy Action Plan will be provided to the classroom teacher and substitutes for all preschool to grade 5 students and to all core subject teachers for middle school students. The protocol will address how much information about student allergies will be provided to other personnel, such as specialists, as needed. The implementation of the District protocol and of the individual plan for each allergic student requires a team approach and cooperation among administrators, teachers and other staff members, parents, and the student as appropriate.

Student's responsibility

- Should not trade food with others.
- Should not eat anything with unknown ingredients or known to contain any allergen.
- Should be proactive in the care and management of their food allergies and reactions based on their developmental level.
- Should notify an adult immediately if they eat something they believe may contain food to which they are allergic.

Classroom management procedures

- Appropriate accommodations may be made in the classroom.
- Procedures will address education of parents and student and planning for special events involving food. The protocol will allow for age-appropriate classroom rules. For preschool to grade 4 students, the classroom teacher, in collaboration with the nurse and with input from parents of the food allergic child, will develop classroom specific protocol regarding management of food in the classroom.

Kitchen and cafeteria procedures

- All kitchen staff will only use latex-free gloves
- The school kitchen will prepare all products in a manner that will minimize the risk of cross contamination of foods. The preparation area and all utensils will be washed in hot, soapy water immediately after the completion of the task.
- All food products will be clearly labeled as to ingredients.
- Peanut/nut-free table (or areas of tables) will be provided as needed and will be clearly identified. Allergy tables are to be positioned in a manner that minimizes the isolation of allergic students. When feasible, other students will be encouraged to sit at allergen-free tables if appropriate measures are in place to minimize cross-contamination of the allergen-free tables.

- The staff on lunch duty will ensure that the allergen-free table(s) and chairs will be washed before lunches begin and after each group finishes. The same tables will be used each day and will be clearly marked as allergen-free. Volunteers and/or substitutes will be informed which tables are allergen-free.
- Staff and volunteers on lunch duty shall monitor the students' compliance with the food allergy protocol at allergen-free table(s). They should also be aware of any bullying or teasing behavior toward a food-allergic student and report any such incidents to the administrator.
- Students will be discouraged from sharing any food or utensils throughout the cafeteria

- Each school must maintain a current supply of epinephrine by auto-injector (Epi-pens) and must comply with all Department of Public Health regulations for administration, storage, and record-keeping concerning epinephrine.
- The school nurse shall register with the Department of Public Health, and shall train other school personnel to administer epinephrine in accordance with 105 CMR 210.
- All staff members will be informed of the location of the Epi-pens.

Emergency response procedures

- All staff members supervising students with life-threatening allergies must have means of communication to call for assistance.
- The school nurse or another school staff member trained to administer epinephrine in accordance with 105 CMR 210 must be available in each school during the school day and must accompany food allergic student on field trips. The protocol must provide for the management of anaphylaxis in individuals with unknown allergies, including an authorization for administration of epinephrine by the school nurse signed by the school physician.

The implementation of the District protocol and of the individualized plan for each allergic student requires a team approach and cooperation among administrators, teachers and other staff members, parents, and the student as appropriate.

CODE: UNPAID MEAL CHARGE POLICY

Category: Support Services

Adopted: 5/21/2020

File No.: EFDA

Revised:

The School Committee is committed to providing students with healthy, nutritious meals each day so they can focus on school work, while also maintaining the financial integrity of meal programs and minimizing any impact on students with unpaid meal charges (i.e. purchases of meals made against an account with an insufficient balance). However, unpaid meal charges can place a significant financial burden on the School District, as the school nutrition operation is intended to be a self-supporting program within the District and operational deficits must be funded by the general fund or other financial resources of the District. The purpose of this policy is to ensure compliance with federal reporting requirements of the USDA Child Nutrition Program, as well as provide oversight and accountability for the collection of outstanding student meals account balances.

The provisions of this policy pertain to regular priced school meals only.

Meal Charges and Balances

Students will pay for meals at the regular rate approved by the School Committee and for their meal status (regular, reduced-price, or free) each day. Payment options will be delineated in student handbooks and provided to parents of incoming students. All students will be assigned an account by the School Nutrition Office. After a student's account reaches zero or enters the negative, the student's parent/guardian will be notified by e-mail or phone call that funds must be deposited to avoid interruption to meal purchases. Student's with balances at or below \$0.00 will not be allowed to purchase "a la carte" items including, but not limited to, a second entrée, snack,

ice cream, or an additional beverage. For students in grades Pre-K through 6, the student will still be allowed to purchase a qualifying reimbursable meal, and that meal will continue to be charged to the student's account at the standard meal rate based on their meal status. For students in grades 7 through 12, the student will be allowed to purchase a qualifying reimbursable meal until the student's meal account reaches the negative value equivalent to five (5) regular qualifying reimbursable meals. Students in grades 7 through 12 with account balances at or below the negative value equivalent to five (5) regular qualifying reimbursable meals who attempt to purchase meals shall be denied at the point of sale.

Payments

Parents/guardians are responsible for all meal payments to the School Nutrition Program. Notices of low or deficit balances will be sent directly to parents/guardians via email or regular postal mail at regular intervals during the school year. At no time shall any staff member give payment-due notices or account statements to students unless a student is known to be an emancipated minor who is fully responsible for themselves, or is over the age of 18. If parents/guardians have questions or concerns regarding student purchases and/or account balances, they should contact the School Nutrition Office.

Parents/guardians must pay for meals in advance. Further details are available on the District's website and in student handbooks. Sufficient funds should be maintained in student accounts to minimize the possibility that a student may be without a sufficient balance on any given day. At the conclusion of the school year any remaining funds for a particular student, whether positive or negative, will be carried over to the next school year.

All school cafeterias will utilize computerized point-of-sale register systems that maintain records of all monies deposited and spent for each student and those records shall be available to parents through an online account or by speaking with the school's kitchen manager or the Director of School Nutrition. The point-of-sale system shall be designed to prevent direct identification of a student's meal status. Parents/guardians will receive notification of low-balance accounts via email or regular postal mail on a weekly basis, if applicable. For accounts with persistent negative balances, parents/guardians will be contacted by phone by the School Nutrition Office. Accounts that remain at a negative balance for 30-days or more will be referred to the District's Business Office for further collection efforts.

Refunds

Refunds of account balances for withdrawn and graduated students require a written request by the parent/guardian. Parents/guardians of graduated students also have the option to transfer funds to a sibling's account or to donate the balance to another student's account with a written request to the Director of School Nutrition.

Delinquent Accounts/Collections

Accounts that remain in a delinquent status may result in a student's loss of access to extra-curricular school services, especially those that are fee based. Graduating seniors may lose the ability to participate in certain graduation-related activities.

The Superintendent of Schools shall ensure that there are appropriate and effective collection procedures and internal controls within the School District's Business Office that meet the requirements of law.

If a student is without a lunch and his/her meals account is in a delinquent status on a consistent basis, the school administration may investigate the situation more closely and take further action as necessary. If evidence of financial hardship exists or is suspected, parents/guardians will be encouraged to pursue eligibility for free or reduced price meals for their child. Each school handbook shall contain detailed instructions for parental assistance.

Policy Communications

This policy shall be communicated to all related staff and families at the beginning of each school year and to families transferring to the District during the school year.

To accommodate the rights and interests of all parties mentioned above, including the interests of the Southwick-Tolland-Granville Regional School District and to provide high quality Chapter 74 programming to the students residing in our district, the following policy/procedure is adopted.

The Southwick-Tolland-Granville Regional School District recognizes the right of a student residing in any of the three towns that together constitute our regional school district, to attend a training school in the Commonwealth of Massachusetts in accordance with M.G.L. c. 74 Sec. 7. A student residing in any of the three towns that constitute the Southwick-Tolland-Granville Regional School District who seeks to be admitted to a high school for a Chapter 74 approved vocational technical education program may apply to any high school that offers a Chapter 74 approved vocational technical education program in which that student is interested. A student's request for non-resident tuition and transportation under the Chapter 74 vocational tuition and transportation option shall be submitted to the Superintendent of Schools by not later than April 1 of the year prior to matriculation, for the Superintendent's consideration based on pertinent criteria, including the availability of the same or substantially similar program at a high school closer to the student's residence or consistent with the District's stated preferred vocational technical high school. A student's parent or guardian or a school that has been disapproved for non-resident tuition by the Superintendent may request that the Commissioner of Elementary and Secondary Education review the denial of tuition in accordance with the guidelines cited above.

CODE: EMPOWERED DIGITAL USE POLICY

File No.: IJNDB

Adopted: 6/7/05

Revised: 5/21/2019

Purpose

The School Committee recognizes the need for students to be prepared to contribute to and excel in a connected, global community. To that end, the District provides ongoing student instruction that develops digital citizenship skill sets for using technology as a tool. Information and communication technology are an integrated part of our curriculum across subjects and grades in developmentally appropriate ways and are aligned with the Massachusetts Curriculum Frameworks and standards, including seeking knowledge and understanding; thinking critically and solving problems; listening, communicating, and interacting effectively; and engaging and competing in a global environment.

Availability

The Superintendent or designee shall implement, monitor, and evaluate the District's system/network for instructional and administrative purposes.

All users shall acknowledge that they understand that using digital devices, whether personal or school owned, as well as the school District network is a privilege and when using them in accordance with School District guidelines users will retain that privilege.

The Superintendent or designee shall develop and implement administrative guidelines, regulations, procedures, and user agreements, consistent with law and policy, which shall include but not be limited to the following:

- Digital devices, software, and networks shall be used in school for educational purposes and activities.
- The District will comply with all relevant privacy laws relating to personal information that is disseminated using the District's system/network (including home/mobile phone numbers, mailing addresses, and passwords).
- Individuals will show respect for themselves and others when using technology including social media. (CROSS REF: IJNDD Policy on Social Media)
- Users shall give acknowledgement to others for their ideas and work.
- Users shall report inappropriate use of technology immediately.
- The Network is the property of the STGRSD and its storage systems are therefore subject to inspection by the administration at any time. As such, users should be aware that routine maintenance and monitoring of the system may lead to discovery that the user has violated or is violating the STGRSD Empowered Digital Use District Policy, and/or the law. System users should not have an expectation of privacy to the contents of their personal files on the Network.
- If there is suspicion that a user has violated the Empowered Digital Use District Policy or the law an individual search will be conducted. The nature of the investigation will be in the context of the nature of the alleged violation.

These procedures shall be reviewed annually by District administration together with students and teachers and shall provide a springboard for teaching and learning around topics such as Internet safety, digital citizenship, and ethical use of technology.

Parent/Guardian Notification

The STGRSD Empowered Digital Use Policy establishes expectations for appropriate behavior when using District technology. There is a wide range of material available on the Internet, some of which may not be in concert with the particular values of the families of students. It is not practically possible for the STGRSD to monitor and enforce a wide range of social values in student use of the Internet. Further, the District recognizes that parents/guardians bear primary responsibility for communicating their particular set of family values to their children. The District will encourage parents/guardians to specify to their children what material they believe is and is not acceptable for their children to access through the Network. The District will utilize an Empowered Digital Use Form to inform students about what type of materials and behaviors are acceptable and expected. STGRSD will also provide students with instruction about personal safety and well-being while using the Internet and technology through the Massachusetts Digital Literacy and Computer Science curriculum.

District Limitation of Liability

The STGRSD makes no warranties of any kind, either expressed or implied, that the functions or the services provided by or through its Network will be error free or without defect. The District will not be responsible for any damages users may suffer, including but not limited to loss of data, interruptions of service, or physical, psychological, or monetary damages. The District is not responsible for the accuracy or quality of the information obtained through or stored on the system. The District will not be responsible for unauthorized financial obligations arising through the use of the system.

CODE: STUDENT ABSENCES AND EXCUSES

Category: Students

Adopted: 10/4/05

File No.: JH

Revised: 10/21/14

Regular and punctual school attendance is essential for success in school. The Committee recognizes that parents of children attending our schools have special rights as well as responsibilities, one of which is to ensure that their children attend school regularly, in accordance with state law.

Therefore, students may be excused temporarily from school attendance for the following reasons: illness or quarantine; bereavement or serious illness in family; weather so inclement as to endanger the health of the child; and observance of major religious holidays.

A child may also be excused for other exceptional reasons with approval of the Principal or designee.

A student's understanding of the importance of day-to-day schoolwork is an important factor in the shaping of his character. Parents can help their children by not allowing them to miss school needlessly.

Accordingly, parents will provide a written explanation for the absence or tardiness of a child. This will be required in advance for types of absences where advance notice is possible.

In instances of chronic or irregular absence reportedly due to illness, the school administration may request a physician's statement certifying such absences to be justified.

Student Absence Notification Program

Each Principal or designee will notify a student's parent/guardian within 3 days of the student's absence in the event the parent/guardian has not informed the school of the absence.

Each Principal or designee shall meet with any student, and that student's parent/guardian, who has missed five (5) or more unexcused school days (a school day shall be equal to two (2) or more class periods in the same day) in a school year. The meeting shall be to develop action steps to improve student attendance and shall be developed jointly by the Principal or designee, the student, and the student's parent/guardian. The parties may seek input from other relevant school staff and/or officials from relevant public safety, health and human service, housing, and nonprofit agencies.

Dropout Prevention

No student who has not graduated from high school shall be considered permanently removed from school unless the Principal or designee has sent notice to a student, and that student's parent/guardian, who has been absent from school for ten (10) consecutive days of unexcused absence. The notice shall be sent within five (5) days of the tenth consecutive day of absence and shall offer at least 2 dates and times within the next ten (10) days for an exit interview with the Superintendent or designee, the student, and the student's parent/guardian. The notice shall be in both English and the primary language of the home, if applicable. The notice shall include contact information for scheduling the exit interview and shall indicate the parties shall reach an agreement on the date/time of the interview within the ten (10) day timeframe. The timeframe may be extended at the request of the parent/guardian and no extension shall exceed 14 days.

The Superintendent or designee may proceed with any interview without a parent/guardian present, provided the Superintendent or designee has documented a good faith effort to include the parent/guardian.

The Superintendent or designee shall convene a team of school staff to participate in the exit interview and shall provide information to the student and, if applicable, the student's parent/guardian on the detrimental effects of early withdrawal from school and the alternative education programs and services available to the student.

CODE: STUDENT RIGHTS AND RESPONSIBILITIES

Category: Students

File No.: JI

Adopted: 10/4/05

Revised:

The school committee has the responsibility to afford students the rights that are theirs by virtue of guarantees offered under the federal and state constitutions and statutes. In connection with rights there are responsibilities that must be assumed by students.

Among these rights and responsibilities are the following:

1. Civil rights – including the rights to equal educational opportunity and freedom from discrimination; the responsibility not to discriminate against others.
2. The right to attend free public schools; the responsibility to attend school regularly and to observe school rules essential for permitting others to learn at school.
3. The right to due process of law with respect to suspension, expulsion, and decisions the student believes injures his rights.
4. The right to free inquiry and expression; responsibility to observe reasonable rules regarding these rights.
5. The right of privacy, which includes privacy in respect to the student's school records.

It is the school committee's belief that as part of the educational process students should be made aware of their legal rights and of the legal authority of the school committee to make, and delegate authority to its staff to make, rules regarding the orderly operation of the schools.

Students have the right to know the standards of behavior that are expected of them, and the consequences of misbehavior.

The rights and responsibilities of students, including standards of conduct, will be made available to students and their parents through handbooks distributed annually.

CODE: STUDENT CONDUCT
Category: Students
File No.: JIC

Adopted: 10/4/05
Revised: 10/21/14
04/24/2018

The School Committee believes that all students deserve every opportunity to achieve academic success in a safe, secure learning environment. Good citizenship in schools is based on respect and consideration for the rights of others. Students will be expected to conduct themselves in a way that the rights and privileges of others are not violated. They will be required to respect constituted authority, to conform to school rules and to those provisions of law that apply to their conduct.

Each Principal or designee shall include prohibited actions in the student handbook or other publication and made available to students and parents.

Principals/designee and staff shall not use academic punishment of any form as a consequence to inappropriate behaviors/actions by students.

The Principal or designee may, as a disciplinary measure, remove a student from privileges, such as extracurricular activities and attendance at school-sponsored events, based on the student's misconduct. Such a removal is not subject to the remainder of this policy, law, or regulation.

Suspension

In every case of student misconduct for which suspension may be imposed, a Principal or designee shall consider ways to re-engage the student in learning; and avoid using long-term suspension from school as a consequence until alternatives have been tried. Alternatives may include the use of evidence-based strategies and programs such as mediation, conflict resolution, restorative justice, and positive behavioral interventions and supports.

Notice of Suspension

Except for emergency removal or an in-school suspension of less than 10 days, a Principal or designee must provide the student and the parent oral and written notice, and provide the student an opportunity for a hearing and the parent an opportunity to participate in such hearing before imposing suspension as a consequence for misconduct. The Principal or designee shall provide both oral and written notice to the student and parent(s) in English and in the primary language of the home if other than English. The notice shall include the rights enumerated in law and regulation. To conduct a hearing without a parent present, the Principal or designee must be able to document reasonable efforts to include the parent.

Emergency Removal

A Principal or designee may remove a student from school temporarily when a student is charged with a disciplinary offense and the continued presence of the student poses a danger to persons or property, or materially and substantially disrupts the order of the school, and, in the Principal's or designee's judgment, there is no alternative available to alleviate the danger or disruption.

The Principal or designee shall immediately notify the Superintendent in writing of the removal including a description of the danger presented by the student.

The temporary removal shall not exceed two (2) school days following the day of the emergency removal, during which time the Principal or designee shall: Make immediate and reasonable efforts to orally notify the student and the student's parent of the emergency removal, the reason for the need for emergency removal, and the other matters required in the notice; Provide written notice to the student and parent as required above; Provide the student an opportunity for a hearing with the Principal or designee that complies with applicable regulations, and the parent an opportunity to attend the hearing, before the expiration of the two (2) school days, unless an extension of time for hearing is otherwise agreed to by the Principal or designee, student, and parent; render a decision orally on the same day as the hearing, and in writing no later than the following school day, which meets the requirements of applicable law and regulation.

A Principal or designee shall also ensure adequate provisions have been made for the student's safety and transportation prior to removal.

In School Suspension – Not More Than 10 Days Consecutively or Cumulatively

The principal or designee may use in-house suspension as an alternative to a short-term suspension. It is the principal's responsibility to inform the student of the disciplinary charge and to provide the student the opportunity to dispute the charges and explain the circumstances. If the principal determines that the student committed the offense, the principal must inform the student of the length of the suspension which may not exceed ten days cumulatively or consecutively, in a school year.

It is the principal's, or designee's, responsibility to orally inform the parent of the disciplinary offense, the reasons for concluding that the student committed the infraction and the length of the in-school suspension.

The principal must also invite the parent/guardian to a meeting to discuss the student's academic performance and behavior, strategies for student engagement, and possible responses to the behavior. The principal needs to schedule the parent/guardian meeting for the day of the suspension or as soon as possible, and must document at least two attempts to reach the parent for the purpose of orally informing the parent. Additionally, the principal must send written notice to the student and the parent/guardian about the in-school suspension, inviting the parent to a meeting if such meeting has not occurred, which must be delivered on the day of the suspension.

Principal's or Designee's Hearing – Short Term Suspension of up to 10 Days

The hearing with the Principal or designee shall be to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student committed the disciplinary offense, and if so, the consequences for the infraction.

At a minimum, the Principal or designee shall discuss the disciplinary offense, the basis for the charge, and any other pertinent information.

The student also shall have an opportunity to present information, including mitigating facts, that the Principal or designee should consider in determining whether other remedies and consequences may be appropriate as set forth in law and regulation.

The Principal or designee shall provide the parent, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the Principal should consider in determining consequences for the student.

The Principal or designee shall, based on the available information, including mitigating circumstances, determine whether the student committed the disciplinary offense, and, if so, what remedy or consequence will be imposed. The Principal or designee shall notify the student and parent of the determination and the reasons for it, and, if the student is suspended, the type and duration of suspension and the opportunity to make up assignments and such other school work as needed to make academic progress during the period of removal, as required by law and regulation. The determination shall be in writing and may be in the form of an update to the original written notice.

If the student is in a public preschool program or in grades K through 3, the Principal or designee shall send a copy of the written determination to the Superintendent and explain the reasons for imposing an out-of-school suspension, before the short-term suspension takes effect.

Principal's or Designee's Hearing – Long Term Suspension of more than 10 days but less than 90 days (consecutive or cumulative)

The hearing with the Principal or designee shall be to hear and consider information regarding the alleged incident for which the student may be suspended, provide the student an opportunity to dispute the charges and explain the circumstances surrounding the alleged incident, determine if the student committed the disciplinary offense, and if so, the consequences for the infraction.

At a minimum, in addition to the rights afforded a student in a short-term suspension hearing, the student shall have the following rights: In advance of the hearing, the opportunity to review the student's record and the documents upon which the Principal or designee may rely in making a determination to suspend the student or not; The right to be represented by counsel or a lay person of the student's choice, at the student's/parent's expense; The right to produce witnesses on his or her behalf and to present the student's explanation of the alleged incident, but the student may not be compelled to do so; The right to cross-examine witnesses presented by the school district; The right to request that the hearing be recorded by the Principal or designee, and to receive a copy of the audio recording upon request. If the student or parent requests an audio recording, the Principal or designee shall inform all participants before the hearing that an audio record will be made and a copy will be provided to the student and parent upon request.

The Principal or designee shall provide the parent, if present, an opportunity to discuss the student's conduct and offer information, including mitigating circumstances, that the Principal or designee should consider in determining consequences for the student.

The Principal or designee shall, based on the evidence, determine whether the student committed the disciplinary offense, and, if so, after considering mitigating circumstances and alternatives to suspension as required by law and regulation, what remedy or consequence will be imposed, in place of or in addition to a long-term suspension. The Principal or designee shall send the written determination to the student and parent by hand-delivery,

certified mail, first-class mail, email to an address provided by the parent for school communications, or any other method of delivery agreed to by the Principal or designee and the parent.

If the Principal or designee decides to suspend the student, the written determination shall: Identify the disciplinary offense, the date on which the hearing took place, and the participants at the hearing; Set out the key facts and conclusions reached by the Principal or designee; Identify the length and effective date of the suspension, as well as a date of return to school; Include notice of the student's opportunity to receive education services to make academic progress during the period of removal from school as required by law and regulation; Inform the student of the right to appeal the Principal's or designee's decision to the Superintendent or designee, but only if the Principal or designee has imposed a long-term suspension. Notice of the right of appeal shall be in English and the primary language of the home if other than English, and shall include the following information: The process for appealing the decision, including that the student or parent must file a written notice of appeal with the Superintendent within five (5) calendar days of the effective date of the long-term suspension; provided that within the five (5) calendar days, the student or parent may request and receive from the Superintendent an extension of time for filing the written notice for up to seven (7) additional calendar days; and that the long-term suspension will remain in effect unless and until the Superintendent decides to reverse the Principal's or designee's determination on appeal.

If the student is in a public preschool program or in grades K through 3, the Principal or designee shall send a copy of the written determination to the Superintendent and explain the reasons for imposing an out-of-school suspension before the suspension takes effect.

Superintendent's Hearing

A student who is placed on long-term suspension following a hearing with the Principal or designee shall have the right to appeal the Principal's or designee's decision to the Superintendent.

The student or parent shall file a notice of appeal with the Superintendent within the time period noted above (see Principal or designee's hearing – Suspension of more than 10 days). If the appeal is not timely filed, the Superintendent may deny the appeal, or may allow the appeal in his or her discretion, for good cause.

The Superintendent shall hold the hearing within three (3) school days of the student's request, unless the student or parent requests an extension of up to seven (7) additional calendar days, in which case the Superintendent shall grant the extension.

The Superintendent shall make a good faith effort to include the parent in the hearing. The Superintendent shall be presumed to have made a good faith effort if he or she has made efforts to find a day and time for the hearing that would allow the parent and Superintendent to participate. The Superintendent shall send written notice to the parent of the date, time, and location of the hearing.

The Superintendent shall conduct a hearing to determine whether the student committed the disciplinary offense of which the student is accused, and if so, what the consequence shall be. The Superintendent shall arrange for an audio recording of the hearing, a copy of which shall be provided to the student or parent upon request. The Superintendent shall inform all participants before the hearing that an audio record will be made of the hearing and a copy will be provided to the student and parent upon request. The student shall have all the rights afforded the student at the Principal's or designee's hearing for long-term suspension.

The Superintendent shall issue a written decision within five (5) calendar days of the hearing which meets the requirements of law and regulation. If the Superintendent determines that the student committed the disciplinary offense, the Superintendent may impose the same or a lesser consequence than the Principal or designee, but shall not impose a suspension greater than that imposed by the Principal's or designee's decision. The decision of the Superintendent shall be the final decision of the school district with regard to the suspension.

Expulsion

Expulsion is defined as the removal of a student from school for more than ninety (90) school days, indefinitely, or permanently as allowed by law for possession of a dangerous weapon; possession of a controlled substance; assault on a member of the educational staff; or a felony charge or felony delinquency complaint or conviction, or adjudication or admission of guilt with respect to such felony, if a Principal or designee determines that the student's continued presence in school would have a substantial detrimental effect on the general welfare of the school.

Any student alleged to have committed one of these acts shall be afforded the same due process rights as for a long term suspension. Any student expelled from school for such an offense shall be afforded an opportunity to receive educational services and make academic progress.

Academic Progress

Any student who is suspended or expelled shall have the opportunity to earn credits, make up assignments, tests, papers, and other school work as needed to make academic progress during the period of his or her removal from the classroom or school. The Principal or designee shall inform the student and parent of this opportunity in writing, in English and in the primary language of the home, when such suspension or expulsion is imposed.

Any student who is expelled or suspended from school for more than ten (10) consecutive days, whether in school or out of school, shall have an opportunity to receive education services and make academic progress toward meeting state and local requirements, through the school-wide education service plan.

The Principal or designee shall develop a school-wide education service plan describing the education services that the school district will make available to students who are expelled or suspended from school for more than ten (10) consecutive days. The plan shall include the process for notifying such students and their parents of the services and arranging such services. Education services shall be based on, and be provided in a manner consistent with, the academic standards and curriculum frameworks established for all students under the law.

The Principal or designee shall notify the parent and student of the opportunity to receive education services at the time the student is expelled or placed on long-term suspension. Notice shall be provided in English and in the primary language spoken in the student's home if other than English, or other means of communication where appropriate. The notice shall include a list of the specific education services that are available to the student and contact information for a school district staff member who can provide more detailed information.

For each student expelled or suspended from school for more than ten (10) consecutive days, whether in-school or out-of-school, the school district shall document the student's enrollment in education services. For data reporting purposes, the school shall track and report attendance, academic progress, and such other data as directed by the Department of Elementary and Secondary Education.

Reporting

The school district shall collect and annually report data to the DESE regarding in-school suspensions, short- and long-term suspensions, expulsions, emergency removals, access to education services, and such other information as may be required by the DESE.

The Principal or designee of each school shall periodically review discipline data by selected student populations, including but not limited to race and ethnicity, gender, socioeconomic status, English language learner status, and student with a disability status in accordance with law and regulation.

BUS REGULATIONS

Transportation by school bus to and from school is a privilege for all pupils who qualify according to the Rules and Regulations of the School Committee and the Laws of the Commonwealth of Massachusetts. The school bus is an extension of the school itself and rules regarding behavior are the same as in school. It should be understood that the right of a pupil to transportation to and from school is a qualified right dependent on good behavior. Some of the following regulations are supported by State Law, violations to parts of the following rules are punishable by fines:

1. On roads and highways where there are no sidewalks, students walk on the side facing traffic to and from a bus stop.
2. Students must be on time at pick-up point, the bus stop, five minutes before the regular pick-up time. Dogs should be restrained in homes until after bus leaves in the morning.
3. While waiting for the bus, students do not run, push, or play games. They must respect other people's property.
4. Students must be courteous! They will not push or shove on entering or leaving the bus. They will leave the bus promptly at their destination.
5. When crossing the highway after alighting from the bus, students cross only after the driver signals that it is safe to cross. They will pass ten feet in front of the bus and look for the traffic in both directions before crossing the highway.
6. Students will take their seats promptly on entering the bus and remain in it until they arrive at their destination.
7. Students will ride only on their assigned bus; seats may be assigned by the Bus Driver.
8. Students will not use profane, loud, or boisterous talk or make other noises that might distract the driver in whose hands are the lives of all children.
9. Students will be respectful to the bus driver. He/She has a very important task to perform and he/she needs help. His/Her eyes and ears need to be focused on the road in order to drive safely to and from school.
10. The school bus is a "classroom on wheels." Students will conduct themselves as they would in school. On the bus there will be no fighting or roughhousing, no insubordination, swearing or obscene gestures, no possession, consumption or sale of drugs or alcohol or any types of behavior where other school disciplinary conduct rules and regulations may apply.
11. Students will not enter into conversation with the driver while the bus is in motion, but will report any emergency to him/her at once!
12. No senior high school student at any time may ride home from school on an afternoon elementary or middle school bus without permission of his/her principal or assistant principal.
13. Students do not bring animals, pets, explosives, weapons of any sort, or large objects on the school bus.
14. Students keep their backpacks, books, musical instruments, and athletic equipment out of the aisles. They keep the bus neat and do not mark, cut, or break any part of the bus.
15. Students do not throw anything in the bus or out the windows. They do not put their hands, arms, or other parts of their body out the windows or rear exit door of the bus at any time.
16. Generally, there will be no eating or drinking on the bus. When eating and/or drinking on the bus is permitted it will be at the discretion of the bus driver.

The school administration may deprive pupils of the privilege of riding the school bus for a reasonable length of time if the pupils violate these rules. In all cases, a report must be made to the parents.

STGRSD Summary for Parents/Guardians for Handbooks

On May 3, 2010, Governor Patrick signed an Act Relative to Bullying in Schools. This new law prohibited bullying and retaliation in all public and private schools, and requires schools and school districts to take certain steps to address bullying incidents.

This plan is updated to reflect M.G.L. c. 71, § 37O as amended by Chapter 86 of the Acts of 2014 and Sections 72-74 of Chapter 38 of the Acts of July 2013, which changed the definition of “perpetrator” to include “a member of a school staff, including, but not limited to an educator, administrator, school nurse, cafeteria worker, custodian, bus driver, athletic coach, advisor to an extracurricular activity or paraprofessional.” The amendment also made the plan applicable to school staff, including but not limited to, the individual listed in the amended perpetrator definition.

These requirements are included in the district’s Bullying Prevention and Intervention Plan (“the Plan”). The Plan includes the requirements of the law, and information about the policies and procedures that the school or school district will follow to prevent bullying and retaliation, and to respond to it when it occurs.

This Plan will be reviewed biennially by the Superintendent and/or her/his designee, as mandated by M.G.L. c. 71, § 37O (5) (d). Consultation will include, at a minimum, notice on the STGRSD website, and a public comment period prior to adoption.

Definition of Terms

In order to work as collaboratively and as efficaciously as possible and to prevent and intervene on all acts of bullying, it is essential for school personnel, students, parents or guardians, law enforcement agencies, and other interested parties to use common language.

Aggressor, as defined in M.G. L. c.71, §37O, is a student or a member of a school staff including, but not limited to, and educator, administrators, school nurse, cafeteria worker, custodian, bus driver, athletic coach, advisor to an extracurricular activity, or paraprofessional who engages in bullying or retaliation towards a student.

Bullying, as defined in M.G.L. c. 71, § 37O, is the repeated use by one or more students or a member of a school staff of a written, verbal, or electronic expression or a physical act or gesture or any combination thereof, directed at a target that:

1. Causes physical or emotional harm to the target or damage to the target’s property;
2. Places the target in reasonable fear of harm to himself or herself or of damage to his or her property;
3. Creates a hostile environment at school for the target;
4. Infringes on the rights of the target at school; or
5. Materially and substantially disrupts the education process or the orderly operation of a school.

Cyber-bullying, is bullying through the use of technology or electronic devices such as telephones, cell phones, computers, and the Internet. It includes, but is not limited to, email, instant messages, text messages, and Internet postings. See M.G.L. c. 71, § 37O for the legal definition of cyberbullying.

Hostile environment, as defined in M.G.L. c. 71, § 37O, is a situation in which bullying causes the school environment to be permeated with intimidation, ridicule, or insult that is sufficiently severe or pervasive to alter the conditions of a student’s education.

Retaliation is any form of intimidation, reprisal, or harassment directed against a student who reports bullying, provides information during an investigation of bullying, or witnesses or has reliable information about bullying.

School Staff includes, but is not limited to, educators, administrators, counselors, school nurses, cafeteria workers, custodians, bus drivers, and athletic coaches, advisors to extracurricular activities, support staff, or paraprofessionals.

Target is a student against whom bullying, cyberbullying, or retaliation has been perpetrated.

Prohibition against Bullying

Bullying is prohibited:

- on school grounds,
- on property immediately adjacent to school grounds,
- at a school-sponsored or school-related activity, function, or program, whether it takes place on or off school grounds,
- at a school bus stop, on a school bus or other vehicle owned, leased, or used by a school district or school,
- through the use of technology or an electronic device that is owned, leased or used by a school district or school (for example, on a school computer or over the Internet using a school computer),
- at any program or location that is not school-related, or through the use of personal technology or electronic devices, if the bullying creates a hostile environment at school for the target, infringes on the rights of the target at school, or materially and substantially disrupts the education process or the orderly operation of a school.
- Nothing contained herein shall require schools to staff any non-school related activities, functions, or programs.

Retaliation against a person who reports bullying, provides information during an investigation of bullying, or witnesses or has reliable information about bullying is prohibited.

Reporting Bullying

To support efforts to respond promptly and effectively to bullying and retaliation, the STGRSD has policies and procedures in place for receiving and responding to reports of bullying or retaliation. These policies and procedures will ensure that members of the school community – students, parents, and staff – know what will happen when incidents of bullying occur.

Reporting bullying or retaliation

Reports of bullying or retaliation may be made by staff, students, parents or guardians, or others, and may be oral or written. Oral reports made by or to a staff member must be recorded in writing. All employees are required to report immediately to the principal or designee any instance of bullying or retaliation the staff member becomes aware of or witnesses. Reports made by students, parents or guardians, or other individuals who are not school or district staff members, may be made anonymously. The school or district will make a variety of reporting resources available to the school community including, but not limited to, an Incident Reporting Form and each school's telephone number.

Use of an Incident Reporting Form is not required as a condition of making a report. The school or district will: 1) include a copy of the Incident Reporting Form in the beginning of the year packets for students and parents or guardians; 2) make it available in the school's main office, the counseling office, the school nurse's office, and other locations determined by the principal or designee; and 3) post it on the district's website. The Incident Reporting Form will be made available in the most prevalent language(s) of origin of students and parents or guardians.

School staff members must report immediately to the principal or his/her designee if they witness or become aware of bullying or retaliation. Staff members include, but are not limited to, educators, administrators, counselors, school nurses, cafeteria workers, custodians, bus drivers, athletic coaches, advisors to an extracurricular activity, and paraprofessionals.

When the school principal or his/her designee receives a report, he or she shall promptly conduct an investigation. If the school principal or designee determines that a violation of the district's anti-bullying policy has occurred he or she shall (i) notify the parents or guardians of the target, and to the extent consistent with state and federal law, notify them of the action taken to prevent any further acts of bullying or retaliation; (ii) notify the parents or guardians of the aggressor; (iii) take appropriate disciplinary action; and (iv) notify the local law enforcement agency if the school principal or designee believes that criminal charges may be pursued against the aggressor.

Professional Development for School and District Staff

The STGRSD will provide ongoing professional development to increase the skills of all staff members to prevent, identify, and respond to bullying.

The content of such professional development shall include, but shall not be limited to: (i) developmentally appropriate strategies to prevent bullying incidents; (ii) developmentally appropriate strategies for immediate, effective interventions to stop bullying incidents; (iii) information regarding the complex interaction and power differential that can take place between and among an aggressor, target, and witnesses to the bullying; (iv) research findings on bullying, including information about specific categories of students who have been shown to be particularly at risk for bullying in the school environment; (v) information on the incidence and nature of cyberbullying; and (vi) internet safety issues as they relate to cyberbullying.

Problem Resolution System

A parent/guardian who wishes to file a claim/concern or seeking assistance outside of the district may do so with the Department of Elementary and Secondary Education Program Resolution System (PRS). The information can be found at <http://www.doe.mass.edu>, emails can be sent to compliance@doe.mass.edu, or individuals can call 781.338.3700. File No.: JICJ

Adopted: 5/24/05
Revised:

The School committee recognizes that today's society is different from previous generations. Cell phones and portable communication devices (PCDs) play an important part in employee and student safety and communications. Cell phones and PCDs are defined as current and emerging technologies that are wireless units that send and/or receive electronic communications in an analog or digital data transmission. The possession or use of cell phones and PCDs are prescribed for employees and students as follows:

Employees

1. Employees of Southwick-Tolland-Granville Regional School District are granted permission to possess and use cell phones and PCDs in the official job capacity consistent with their job descriptions.
2. Employees who own a personal cell phone and /or PCD must ensure that the device does not ring or interrupt the academic classroom environment or the job performance of the employee. Employees must take pro-active steps to ensure that the cell phones do not ring during their instructional hours and meetings which are obligations of the job.

Students

1. Students may possess and carry cell phones and PCDs; however, these units must be "off and away" during the academic school day to ensure that disruptions and interference of the instructional and academic climate of the school do not occur. Only high school students may use cell phones during lunch blocks and passing times.
2. Non high school students may not use or operate cell phones or PCDs during the school day. The "school day" is defined as once the first hour starts and throughout the day until the last period is over.
3. The school administration may, in its sole discretion, grant exceptions for cell phones and PCD use based upon critical need and appropriate documentation.

CODE: STUDENT CONDUCT

File No.: JK

Adopted: 10/4/05
Revised: 10/21/14

The Massachusetts General Laws require the School Committee to adopt written policies, rules and regulations not inconsistent with law, which may relate to study, discipline, conduct, safety and welfare of all students, or any classification thereof, enrolled in the public schools of the District.

The implementation of the general rules of conduct is the responsibility of the Principal and the professional staff of the building. In order to do this, each school staff in the District shall develop specific rules not inconsistent with the law nor in conflict with School Committee policy. These building rules shall be an extension of the District policies by being more specific as they relate to the individual schools.

The purpose of disciplinary action is to restore acceptable behavior. When disciplinary action is necessary, it shall be administered with fairness and shall relate to the individual needs and the individual circumstances.

Students violating any of the policies on student conduct and control will be subject to disciplinary action. The degree, frequency, and circumstances surrounding each incident shall determine the method used in enforcing these policies. Most of the situations which require disciplinary action can be resolved within the confines of the classroom or as they occur by reasonable but firm reprimand, and/or by teacher conferences with the student and/or parents or guardians.

If a situation should arise in which there is no applicable written policy, the staff member shall be expected to exercise reasonable and professional judgment.

CODE: PHYSICAL RESTRAINT OF STUDENTS
Category: Students
File No.: JKAA

Adopted: 12/4/01
Revised: 11/02/2015;
5/5/2020

Maintaining an orderly, safe environment conducive to learning is an expectation of all staff members of the school district. Further, students of the district are protected by law from the unreasonable use of physical restraint. Such restraint shall be used only in emergency situations of last resort after other lawful and less intrusive alternatives have failed or been deemed inappropriate, and with extreme caution.

When an emergency situation arises, and physical restraint is the only option deemed appropriate to prevent a student from injuring himself or herself, another student or school community member, a teacher or employee or agent of the school district may use such reasonable force needed to protect students, other persons or themselves from assault or imminent, serious, physical harm.

The definitions of forms of restraint shall be as defined in 603CMR [46.02](#).

The use of mechanical restraint, medication restraint, and seclusion is prohibited.

Physical restraint, including prone restraint where permitted under 603 CMR [46.03](#), shall be considered an emergency procedure of last resort and shall be prohibited except when a student's behavior poses a threat of assault, or imminent, serious, physical harm to themselves and/or others and the student is not responsive to verbal directives or other lawful and less intrusive behavior interventions are deemed inappropriate.

The Superintendent, or designee, will develop procedures identifying:

- Appropriate responses to student behavior that may require immediate intervention;
- Methods of preventing student violence, self-injurious behavior, and suicide including crisis planning and de-escalation of potentially dangerous behaviors among groups of students or individuals;
- Descriptions and explanations of alternatives to physical restraint as well as the school's method of physical restraint for use in emergency situations;
- Descriptions of the school's training and procedures to comply with reporting requirements; including, but not limited to making reasonable efforts to orally notify a parent/guardian of the use of restraint within 24 hours of its imposition;
- Procedures for receiving and investigating complaints;

- Methods for engaging parents/guardians in discussions about restraint prevention and use of restraint solely as an emergency procedure;
- A statement prohibiting: medication restraint, mechanical restraint, prone restraint unless permitted by 603 CMR [46.03\(1\)\(b\)](#), seclusion, and the use of physical restraint in a manner inconsistent with 603 CMR [46.00](#),
- A process for obtaining Principal approval for a time out exceeding 30 minutes.

Each building Principal will identify staff members to serve as a school-wide resource to assist in ensuring proper administration of physical restraint. These staff members will participate in an in-depth training program in the use of physical restraint.

In addition, each staff member will be trained regarding the school's physical restraint policy and accompanying procedures. The Principal will arrange training to occur in the first month of each school year, or for staff hired after the beginning of the school year, within a month of their employment.

Physical restraint is prohibited as a means of punishment, or as a response to destruction of property, disruption of school order, a student's refusal to comply with a school rule or staff directive, or verbal threats that do not constitute a threat of imminent, serious physical harm to the student or others.

Physical restraint is prohibited when it is medically contraindicated for reasons including, but not limited to, asthma, seizures, a cardiac condition, obesity, bronchitis, communication-related disabilities, or risk of vomiting; The use of "time out" procedures during which a staff member remains accessible to the student shall not be considered "seclusion restraint".

This policy and its accompanying procedures shall be reviewed and disseminated to staff annually and made available to parents/guardians of enrolled students. The Superintendent shall provide a copy of the Physical Restraint regulations to each Principal, who shall sign a form acknowledging receipt thereof.

PHYSICAL EXAMS

Regular physical exams are important for all children and adolescents, especially those who do not have primary care providers. The objective is to identify and follow up on any health conditions that may interfere with learning. M.G.L. c. 71, s. 57 and related amendments and regulations (105 CMR 200.000-200.920) require physical exams of school children within six months before entry into school or during the first year after entrance, and at intervals of either three or four years after. The Southwick-Tolland-Granville Regional School District requires physical exams for grades kindergarten, four, seven and ten.

In addition, physical examinations are required annually before participation in competitive sports. A student in the Southwick-Tolland-Granville Regional School District must pass a physical examination within thirteen months of the start of each season. Students who meet this criteria at the start of the season will remain eligible for that season. Physical examinations must be performed by a duly registered physician, physician's assistant or nurse practitioner.

ACTIVITY LIMITATIONS

If a student is required to have limited physical activity in school, a written statement from the licensed health care provider describing the limitations must be provided to the school so appropriate arrangements can be made if necessary.

VISION, HEARING, WEIGHT AND HEIGHT

Screenings will be performed annually on each student according to DPH guidelines with recommendations for further evaluation made to parents/guardians as indicated.

POSTURAL SCREENING

Postural screening will be done annually on all students in grades 5-9.

Students entering school for the first time, whether at kindergarten or through transfer from another school system, will be required to present a physician's certificate attesting to immunization against diphtheria, whooping cough, poliomyelitis, tetanus, measles, and such other communicable diseases as may be specified from time to time by the Department of Public Health. The only exception to these requirements will be made on receipt of a written statement from a doctor that immunization would not be in the best interest of the child; or, the student's parent or guardian stating that vaccination or immunization is contrary to the religious beliefs of the student or parent, or that the child meets the statutory requirement governing homelessness.

Pursuant to the intent of M.G.L. Chapter 76, Section 15 any student found to be in non-compliance with the immunization requirements is subject to immediate exclusion from school and shall not be readmitted until the parent or guardian satisfies the requirement of the statute or, in the alternative, provides evidence to substantiate an exemption as described above.

CODE: STUDENT FEES, FINES, AND CHARGES

Category: Students

File No.: JQ

Adopted: 10/4/05

Revised:

The School Committee recognizes the need for student fees to fund certain school activities. It also recognizes that some students may not be able to pay these fees. No student will be denied access into any program because of inability to pay these supplementary charges.

A school may exact a fee or charge only upon Board approval. The schools, however, may:

- Charge students enrolled in certain courses for the cost of materials used in projects that will become the property of the student.
- Charge for lost and damaged books, materials, supplies, and equipment

Students who are indigent are exempt from paying fees. However, indigent students are not exempt from charges for lost and damaged books, locks, materials, supplies, and equipment.

All student fees and charges, both optional and required, will be listed and described annually in each school's student handbook or in some other written form and distributed to each student. The notice will advise students that fees are to be paid and of the penalties for their failure to pay them. Permissible penalties include the withholding of report cards until payment is made or denial of participation in extra class activities while the student is enrolled in this District.

Any fee or charge due to any school in the District and not paid at the end of the school year will be carried forward to the next succeeding school year, as such debts are considered to be debts of the student to the District and not to a particular school.

Revised:

In order to provide students with appropriate instruction and educational services, it is necessary for the school system to maintain extensive and sometimes personal information about them and their families. It is essential that pertinent information in these records be readily available to appropriate school personnel, be accessible to the student's parents or legal guardian and/or the student in accordance with law, and yet be guarded as confidential information.

The Superintendent will provide for the proper administration of student records in keeping with state and federal requirements, and shall obtain a copy of the state student records regulations (603 CMR 23.00). The temporary record of each student enrolled on or after June 2002 will be destroyed no later than seven years after the student transfers, graduates or withdraws from the School District. Written notice to the eligible student and his/her parent of the approximate date of destruction of the temporary record and their right to receive the information in whole or in part, shall be made at the time of such transfer, graduation, or withdrawal. The student's transcript may only be destroyed 60 years following his/her graduation, transfer, or withdrawal from the school system.

The Committee wishes to make clear that all individual student records of the school system are confidential. This extends to giving out individual addresses and telephone numbers.

603 CMR 23.00 is promulgated by the Board of Education pursuant to its powers under M.G.L.c.71, s.34D which directs that the board of education shall adopt regulations relative to the maintenance of student records by the public elementary and secondary schools of the commonwealth, and under M.G.L.c.71, s.34F which directs that the board of education shall adopt regulations relative to the retention, duplication and storage of records under the control of school committees, and except as otherwise required by law may authorize the periodic destruction of any such records at reasonable times. 603 CMR 23.00 was originally promulgated on February 10, 1975, and was reviewed and amended in June 1995. 603 CMR is in conformity with federal and state statutes regarding maintenance of and access to student records, and are to be construed harmoniously with such statutes.

Application of Rights

603 CMR 23.00 is promulgated to insure parents and students rights of confidentiality, inspection, amendment, and destruction of students' records and to assist local school systems in adhering to the law.

603 CMR 23.00 should be liberally construed for these purposes.

1. These rights shall be the rights of the student upon reaching 14 years of age or upon entering the ninth grade, whichever comes first. If a student is under the age of 14 and has not yet entered the ninth grade, these rights shall belong to the students' parent.
2. If a student is from 14 through 17 years or has entered the ninth grade, both the student and his/her parent, or either one acting alone, shall exercise these rights.
3. If a student is 18 years of age or older, he/she alone shall exercise these rights, subject to the following. The parent may continue to exercise the rights until expressly limited by such student. Such student may limit the rights and provisions of 603 CMR 23.00 which extend to his/her parent, except the right to inspect the student record, by making such request in writing to the school principal or superintendent of schools who shall honor such request and retain a copy of it in the student record. Pursuant to M.G.L. c.71, s.34E, the parent of a student may inspect the student record regardless of the students age.
4. Notwithstanding 603 CMR 23.01(1) and 23.01(2), nothing shall be construed to mean that a school committee cannot extend the provisions of 603 CMR 23.00 to students under the age of 14 or to students who have not yet entered the ninth grade.

Definition of Terms

The various terms as used in 603 CMR 23.00 are defined below:

When granting consent, the eligible student or parent shall have the right to designate which parts of the student record shall be released to the third party. A copy of such consent shall be retained by the eligible student or parent and a duplicate placed in the temporary record. Except for the information described in 603 CMR 23.07(4)(a), personally identifiable information from a student record shall only be released to a third party on the condition that he/she will not permit any other third party to have access to such information without the written consent of the eligible student or parent.

As required by Massachusetts General Law Chapter 71, Section 34H, a non-custodial parent may have access to the student record in accordance with law and Department of Education Regulations. The school district will follow the law and the regulations developed by the Massachusetts Department of Education to standardize the process by which public schools provide student records to parents who do not have physical custody of their children ("non-custodial parents").

As required by M.G.L. c. 71, § 34H, a non-custodial parent may have access to the student record in accordance with the following provisions.

(g) A non-custodial parent is eligible to obtain access to the student record unless the school or district has been given documentation that:

1. The parent has been denied legal custody or has been ordered to supervised visitation, based on a threat to the safety of the student and the threat is specifically noted in the order pertaining to custody or supervised visitation, or
2. The parent has been denied visitation, or
3. The parent's access to the student has been restricted by a temporary or permanent protective order, unless the protective order (or any subsequent order modifying the protective order) specifically allows access to the information contained in the student record, or
4. There is an order of a probate and family court judge which prohibits the distribution of student records to the parent.

(h) The school shall place in the student's record documents indicating that a non-custodial parent's access to the student's record is limited or restricted pursuant to 603 CMR 23.07(5)(a).

(i) In order to obtain access, the non-custodial parent must submit a written request for the student record to the school principal.

(j) Upon receipt of the request the school must immediately notify the custodial parent by certified and first class mail, in English and the primary language of the custodial parent, that it will provide the non-custodial parent with access after 21 days, unless the custodial parent provides the principal with documentation that the non-custodial parent is not eligible to obtain access as set forth in 603 CMR 23.07 (5)(a).

(k) The school must delete all electronic and postal address and telephone number information relating to either work or home locations of the custodial parent from student records provided to non-custodial parents. In addition, such records must be marked to indicate that they shall not be used to enroll the student in another school.

(l) (f) Upon receipt of a court order which prohibits the distribution of information pursuant to G.L. c. 71, §34H, the school shall notify the non-custodial parent that it shall cease to provide access to the student record to the non-custodial parent.

CODE: VISITORS TO THE SCHOOL

Category: COMMUNITY RELATIONS

File No.: KI

Adopted: 12/6/05

Revised:

The School Committee encourages parents and guests to visit classrooms to observe and learn about the instructional program taking place in our schools. Such visits can prove most beneficial in promotion of greater school-home cooperation and community understanding of how we carry out the school system's mission and goals.

The following guidelines to classroom and school visits should be followed:

1. For security purposes it is requested that all visitors report to the principal's office upon entering and leaving the building and sign a log showing arrival and departure times. Teachers are encouraged to ask

visitors if they have registered in the principal's office. Visitors must wear visible "Visitor" badges at all times.

2. The building principal has the authority to determine the number, times, and dates of observations by visitors. This will be done in consultation with staff members so as to give adequate notice to the staff members of the impending visits.
3. Under ordinary circumstances, classroom observations will be strongly discouraged during the first three weeks of school in September and during the month of June.
4. Any student who wishes to have a guest in school MUST ask permission of one of the administrative staff 24 HOURS in advance of the proposed visit. If permission is granted, the guest is expected to follow the standards of behavior expected of all students. Upon arrival the guest must register in the office. Any guest who fails to comply with student regulations will be asked to leave the school building and grounds immediately.

DISTRICT PROCEDURES

DISCIPLINE OF STUDENTS WITH DISABILITIES (IEP/504)

Procedures for suspensions of students with disabilities when suspensions exceed 10 consecutive school days or a pattern has developed for suspensions exceeding 10 cumulative days; responsibilities of the Team; responsibilities of the district.

1. A suspension of longer than 10 consecutive days or a series of suspensions that are shorter than 10 consecutive days but constitute a pattern are considered to represent a change in placement.
2. When a suspension constitutes a change of placement of a student with disabilities, district personnel, the parent, and other relevant members of the Team, as determined by the parent and the district, convene within 10 days of the decision to suspend to review all relevant information in the student's file, including the IEP/504, any teacher observations, and any relevant information from the parents, to determine whether the behavior was caused by or had a direct and substantial relationship to the disability or was the direct result of the district's failure to implement the IEP/504 – "a manifestation determination."
3. If district personnel, the parent, and other relevant members of the Team determine that the behavior is NOT a manifestation of the disability, then the suspension or expulsion may go forward consistent with policies applied to any student without disabilities, except that the district must still offer:
 - a. services to enable the student, although in another setting, to continue to participate in the general education curriculum and to progress toward IEP/504 goals; and
 - b. as appropriate, a functional behavioral assessment and behavioral intervention services and modifications, to address the behavior so that it does not recur.
4. Interim alternative educational setting. Regardless of the manifestation determination, the district may place the student in an interim alternative educational setting (as determined by the Team) for up to 45 school days
 - a. on its own authority if the behavior involves weapons or illegal drugs or another controlled substance or the infliction of serious bodily injury on another person while at school or a school function or, considered case by case, unique circumstances; or
 - b. on the authority of a hearing officer if the officer orders the alternative placement after the district provides evidence that the student is "substantially likely" to injure him/herself or others.

Characteristics. In either case, the interim alternative education setting enables the student to continue in the general curriculum and to continue receiving services identified on the IEP/504, and provides services to address the problem behavior.
5. If district personnel, the parent, and other relevant members of the Team determine that the behavior IS a manifestation of the disability, then the team completes a functional behavioral assessment and behavioral intervention plan if it has not already done so. If a behavioral intervention plan is already in place, the Team reviews and modifies it, as necessary, to address the behavior. Except when he or she has been placed in an interim alternative educational setting in accordance with part 4, the student returns to

the original placement unless the parents and district agree otherwise or the hearing officer orders a new placement.

6. Not later than the date of the decision to take disciplinary action, the school district notifies the parents of that decision and provides them with the written notice of procedural safeguards. If the parent chooses to appeal or the school district requests a hearing because it believes that maintaining the student's current placement is substantially likely to result in injury to the student or others, the student remains in the disciplinary placement, if any, until the decision of the hearing officer or the end of the time period for the disciplinary action, whichever comes first, unless the parent and the school district agree otherwise.

Procedural requirements applied to students not yet determined to be eligible for special education.

1. If, prior to the disciplinary action, a district had knowledge that the student may be a student with a disability, then the district makes all protections available to the student until and unless the student is subsequently determined not to be eligible. The district may be considered to have prior knowledge if:
 - a. The parent had expressed concern in writing; or
 - b. The parent had requested an evaluation; or
 - c. District staff had expressed directly to the special education director or other supervisory personnel specific concerns about a pattern of behavior demonstrated by the student.The district may not be considered to have had prior knowledge if the parent has not consented to evaluation of the student or has refused special education services, or if an evaluation of the student has resulted in a determination of ineligibility.
2. If the district had no reason to consider the student disabled, and the parent requests an evaluation subsequent to the disciplinary action, the district must have procedures consistent with federal requirements to conduct an expedited evaluation to determine eligibility.
3. If the student is found eligible, then he/she receives all procedural protections subsequent to the finding of eligibility.

APPENDIX A

Southwick Regional School STUDENT-ATHLETE HANDBOOK

PHILOSOPHY

Participation on an athletic team is a rewarding experience which requires students to commit their time, energy, and spirit. Students are expected to be familiar with all school policies relating to athletics if they are to fully benefit from these programs.

GOALS

At Southwick-Tolland Regional High School, our goal in athletics is to enable students to experience the benefits of team membership, to improve physical fitness, and to develop appropriate attitudes toward competition, sportsmanship and self-discipline.

PRE-SEASON RESPONSIBILITY

Any candidate for an athletic team must meet the following requirements before attending a tryout or practice session:

1. Provide the nurse with evidence of a satisfactory physical examination. **Physicals are valid for 13 months. Athletes will be deemed ineligible 13 months from the date of their last known physical.**
2. Attend ONE of the Pre-Season Parent Information meetings and sign the Student-Athlete Handbook forms. All fall athletes and at least one parent **MUST** attend the fall meeting. Winter and spring only athletes need to attend one of the meetings prior to their season beginning.
3. An athlete must be younger than 19 years of age.
4. Transfer students must inform the Athletic Director of their transfer and obtain a waiver from their previous school.
5. Complete all financial responsibilities for equipment issued during the previous season. A “season” for a particular sport ends with the final MIAA Tournament event.
6. Upon making the team, pay the mandated \$50 athletic fee to the coach. Checks made out to STRHS. No uniforms or equipment will be issued until all fees are collected for the given team.
7. View the state mandated concussion information video.

TRY-OUTS

1. During try-outs, each coach will describe his or her expectations to the athletes.
2. Athletes must demonstrate their ability to meet these expectations.
3. If an athlete is not selected for a team, he or she may contact the coach personally for an explanation.
4. Once a student has been selected for a team, he/she may not quit joining another team or activity in the same season.
5. If he/she is not selected for a team, it is recommended that they explore participation in another sport or activity that did not have cuts.

TEAM SELECTION

The coach and coaching staff for each sport has the sole responsibility for:

1. Selecting the players.
2. Deciding the appropriate level of play for each athlete. Coaches will decide who plays at the varsity level based upon their assessment of the athlete’s skill, commitment and attitude. The assessment continues throughout the season and can result in an athlete moving among levels.
3. Determining the amount of playing time for each athlete. Playing time is not a subject of discussion between parents and coaches. Athletes should take on the responsibility to communicate with coaches their playing status.

SCHOOL EQUIPMENT

1. Athletes are responsible for proper care and maintenance of all athletic equipment and uniforms issued to them.
2. Athletes will be charged replacement value for any equipment that is lost, stolen, or damaged.
3. All equipment must be returned within seven days of the end of the season.
4. Athletes may wear team uniforms only at times of scheduled team events.
5. No uniforms or equipment will be distributed to an athlete who still has an outstanding bill or uniform from a previous season or has not paid the athletic fee.

TEAM RULES

Coaches may have an additional set of team rules that are set forth and explained to the team at the beginning of the season. A coach may suspend or withhold playing time from a player due to breaking a team rule not mentioned in the above set of rules.

EXPECTATIONS

1) Each athlete is a student first. An athlete should not neglect their academic responsibilities; this includes but is not limited to homework and class work.

2) **CONDUCT** – All athletes are expected to lead by example for other members of the student body and are expected to act in an appropriate manner in class and on the field, court, track, or mat that will do credit to the team, the school and the community.

3) To participate in a practice, game, meet or match, the student must be in attendance in school at the **start of the school day**, on that day or the day before a non-school day. Any exception or early dismissal on the day of the contest will require the permission of the building principal and athletic director before participation can take place.

4) Athletic teams at the high school level is a minimum of five days a week commitment. Athletes must attend daily practices that may also include Saturdays. Any athlete that cannot attend a game or practice should notify the coach of the day(s), and reason(s) for not attending. Medical excuse (doctor's appointment), court date, bereavement, extended classroom, college visits are all excusable reasons for missing practice (proof may be required by the coach or Athletic Director).

Any athlete who misses school or practice due to an illness, it will be the coach's discretion on when the player is physically capable of playing in a game and how much time they will play. This decision will be based on the player's fitness level and fairness to players who have been at practice.

Vacations, detention, suspensions, work, or just not showing up for practice are not excusable reasons for missing practice or games. If an athlete misses a practice or game for any reason that is not excused, that athlete should expect to miss an equal amount of game time until the missed amount of time is made up.

EXAMPLE: An athlete goes on vacation for a week and misses three practices and two games (5 days), upon their return an athlete should expect to make up three practices and miss at least two additional games before they are reinserted into the team's line up.

- 5) An athlete that receives a detention or Saturday School must serve the detention on the date assigned. If the detention conflicts with an athletic event, the athlete will miss the event to fulfill their detention.
- 6) An athlete who is suspended from school is ineligible for athletics that day and must make up the equal amount of time missed.
- 7) **BONA-FIDE TEAM POLICY**- The following rule is set forth by the MIAA... The An athlete may NOT skip any portion of a practice or game, at the high school level, to participate in any outside athletic event that is recognized by the MIAA as a sport.

While participating on teams not associated with the high school is allowed, it is not encouraged. **If a student is found to participate in a club team instead of attending the High School practice or game, the athlete will be suspended for 25% of the season on the first offense. The second offense will result in an additional suspension for 25% of the season, and ineligibility for tournament participation.**

8) All safety equipment that applies to each sport must be worn at all times. Example – Field Hockey: mouth guards, shin pads, and goggles must be worn at all games and practices. No jewelry should be worn at any time. Proper attire must be worn as well. All athletes must wear shirts during practice.

9) Team members must ride the bus to away games and are expected to ride the bus home. If a team member does not take the bus home, they must provide the coach or athletic director a note 24 hours in advance. Athletes will only be allowed to leave with a parent/guardian, NO SIBLINGS or FRIENDS! Parents may email the Athletic Director directly at dsanschagrin@stgrsd.org

Interscholastic athletics are governed by rules and regulations administered by the Massachusetts Interscholastic Athletic Association (MIAA). Each participation school must adhere to these regulations and any additional locally established regulations and/or policies.

Academic Achievement: Each participant must have passed at least thirty (30) credits the preceding school year in order to participate on the team during the months of September and October. During the current year of participation the player must continue to be passing fifteen (15) credits of work the immediate marking period preceding the sport season in which he/she wishes to participate.

Insurance: The athlete, to participate, must have certified, in writing, by the parent/guardian that sufficient insurance coverage is maintained through a family accident policy or that coverage is maintained by a school accident policy.

Physical Examination: Physical examinations are required annually before participation in competitive sports. A student in the Southwick-Tolland-Granville Regional School District must pass a physical examination within thirteen months of the start of each season. Students who meet these criteria at the start of the season will remain eligible for that season. Physical examinations must be performed by a duly registered physician, physician's assistant or nurse practitioner.

Attendance: To participate in a game, meet, or practice, a student must be in school attendance at the start of the school day.

Use of Tobacco, Alcohol or Drugs: From the earliest fall practice date to the conclusion of the academic year or final athletic event (whichever is latest), a student shall not, regardless of the quantity, use, consume, possess, buy/sell, or give away any beverage containing alcohol; any tobacco product; marijuana; steroids; or any controlled substance. Students may be in possession of a legally defined drug specifically prescribed for the student's own use by his/her doctor.

When the Principal confirms, following an opportunity for the student to be heard, that a violation has occurred, the student shall lose eligibility for the next consecutive interscholastic contests totaling 50% of all interscholastic contests in that sport. No exception is permitted for a student who becomes a participant in a treatment program. It is recommended that the student be allowed to remain at practice for the purpose of rehabilitation.

When the Principal confirms, following an opportunity for the student to be heard, that a second violation has occurred, the student shall lose eligibility for the next consecutive interscholastic contests totaling 75% of all interscholastic contests in that sport.

Penalties shall be cumulative each academic year, but serving the penalty could carry over for one year. Or, if the penalty period is not completed during the season of violation, the penalty shall carry over to the student's next season of actual participation, which may affect the eligibility status of the student during the next academic year. (e.g. A student plays only soccer: he/she violates the rule in winter and/or the spring of same academic year: he/she would serve the penalty(ies) during the fall season of the next academic year.)

When the Principal confirms, following an opportunity for the student to be heard, that a third or subsequent violation has occurred, the student shall lose eligibility for the next twelve (12) consecutive calendar months.

Theft: Any team or squad member found guilty of theft will be suspended for the remainder of that sport season.

Jewelry: Student athletes may not wear jewelry of any type (including body piercing) while participating in games or practice.

Training Policy: All training policies established by the coach and approved by the Director of Athletics must be adhered to during the season of participation. Season refers to the first day of practice until the end of the season.

Sportsmanship and School Behavior: Failure to abide by the "rules of sportsmanship", training requirements and/or rules and regulations of the school, after due warning, could be just cause for temporary, seasonal or terminal non-participation on any one of all athletic teams.

NOTE: A student may appeal to the principal the decision of a coach or advisor to suspend or terminate that student's membership in the team or activity. If the matter is not resolved, the student may appeal to the superintendent. Any appeal will be reviewed based on paragraph 5 of district Policy JICDD.
